## Mayor Childs Submits 1937 Budget Recommendations To the Board of Aldermen

Mayor's Estimates Total \$5,227,606.69 — He Cuts \$262,421 From Estimates of Department Heads

Mayor Childs submitted a typewritten copy of the budget estimates for 1937 to the Board of Aldermen on Monday night. The printed copies of the Mayor's budget recommendations were not ready but will be in possession of each alderman the last of this week. The total amounts recommended by the Mayor (excluding the Water Department expenses) total \$4,921,724.26. The totals submitted by departments was \$5,184,145.95. The Mayor lopped \$262,421 off the estimates of the department heads. While the Mayor's estimates are less than the \$5,924,606.82 expended in 1936, the cost of running the city in 1937 will be more than in 1936 if the Mayor's estimates are accepted by the Aldermen without further cuts. There are always considerable additional expenditures each year, outside the budget figures. The estimate for the Water Department is \$305,882.43. This is to be met by revenue from the sale of water. Last year the expenses of this department totalled \$338,061.

The Mayor recommends 6 additional patrolmen for the police department. Chief Hughes asked for 15 additional men. He also recommends \$5,040 for the employment of reserve policemen. This would to some degree prevent the department being undermanned while regular policemen are on vacations or sick. The Mayor recommends 5 additional men for the fire department. Chief Randlett asked \$14,000 for new apparatus. The Mayor disapproved of this request. Chief Hughes recommended that the salary of Walter Hartford, radio operator of the police department, be increased from \$2,290 to \$2,450. The Mayor did not grant the increase.

The Mayor recommends a number of salary increases for clerks and other employees in various departments at City Hall, and turned down other recommendations for similar increases recommended by department heads. Miss Laura, Ellice, efficient deputy collector and assistant city treasurer, was recommended for an increase from \$2,500 to \$3,000. The Mayor did not approve this recommendation.

Officials who asked for increases included Julius Lucht, Librarian, who asked that his salary be increased from \$4,000 to \$4,500; and Andrew Prior, Sealer of Weights and Measures who asked for an increase from \$2,400 to \$2,800. The Mayor refused both. The Mayor also refused to approve a number of increases asked for foremen, inspectors and clerks in the

Street Department. A huge savings was made in the cost of snow removal because of the Spring like winter we have had. Last year \$123,000 was spent for this work. In the current budget the Mayor cuts the recommendation for snow removal from \$80,000 to \$7500. A table of budget recommendations is appended. Next week the GRAPHIC will give further details regarding the Mayor's budget recommendations.

## Auto Kills Boy At Nonantum

Richard Martin, 6, son of Mr. and Mrs. John Martin of 218 Pearl st., Newton, was killed last Friday afternoon on Pearl st., near his home, by a small truck operated by John Desimone of 180 Chapel st., Nonantum. The right rear wheel of the truck went over the child, fracturing his skull and chest. He died while being taken to the Newton Hospital in the police ambulance. The boy was riding on a toy cart, which, according to a report made to the police, rolled off the sidewalk and collided with the truck. Besides his parents, the boy is survived by four brothers.

His funeral service was held on Monday afternoon from his late home. An inspection of Desimone's truck by Serg. Cullen of the Newton police showed that the brakes on it were defective. Desimone will be arraigned in the Newton court next Monday charged with driving a motor vehicle with defective brakes.

## Waban People To Buy Land for Park

As a result of a report that a real estate operator has made an offer to the Boston & Albany Railroad Company for a small parcel of land near the Waban railroad station, the Waban Improvement Association has started a move to have the land, which has been used as a small park, purchased by popular subscription and presented to the city for park purposes. The land is between Beacon and Woodward sts. and contains 7000 square feet. It was learned that the real estate man who is trying to buy it, intends to erect a block of stores on the lot.

## D. A. V. Banquet At City Hall

Chaplain William Farrell Chapter, D. A. V., of Newton held a meeting and banquet in the cafeteria at City Hall on Monday night which was attended by about 200. The purpose of the affair was to assist the project which the chapter is sponsoring to have a mural painting made in memory of Father Farrell. Harold Haffey, State Junior Vice Commander of the D. A. V. was in charge of the meeting and explained the work which is underway to finance the cost of the mural. Edward Brodney, artist who will paint the mural, showed sketches of the proposed big painting and explained the significance of the various parts of the mural.

Others who spoke included Mayor Childs, Senator A. W. Hollis, C. P. Daugherty, Natl. Senior Vice Commander of the D. A. V.; Thomas Murray, Leon Mayer of Newton Post, A. L.; and Edward Dunbar. An entertainment was provided by Joe Antolli and Joe Delaney, songs; Fitz Gerald sisters, dances; Tocci sisters, specialty number and Mrs. M. Colgate.

## Object To Sale of Food by Drug Stores

A committee of Newton lunch room proprietors appeared before the Newton License Commission last Wednesday night to protest against drug stores in this city competing with them. The committee which included Samuel Pass of Nonantum, Robert Kinsella of West Newton and John Zahos of Newton charged that a number of drug stores in various parts of this city are not only serving sandwiches, but also coffee, soups and other food; in fact are conducting a lunch room business in violation of the law, as they are not licensed as common victuallers. The two members of the License Board present, A. L. Moriarty and John Spaulding, told the committee that an investigation would be conducted and proper action taken.

At the same meeting the License Board refused the application of the Liggett Drug Company for a common victualler license at its new store, 1241 Centre st., Newton Centre. A license for the sale of alcoholic beverages was granted to the Newton Drug Company, 564 Commonwealth ave. The Centre Lunch Company was granted a permit to change its beer license from 738 Beacon st. to 55 Union st., Newton Centre.

## Number Pool Agent Seized at U. Falls

Special Officers Stanton and Hamill of the Newton police arrested Sidney Horblit, 24, of Chambers st., Boston, at the Upper Falls on Monday afternoon after they had observed him entering stores in that village and make collections for a number pool. They found about 200 slips on his person. It was alleged that Horblit had been visiting factories at the Upper Falls in his business. In Newton court on Tuesday he was fined \$50 for conducting a lottery, and given a suspended prison sentence of three months.

## Public Relations Institute To Open Monday

Presenting specialist in various fields of publicity and covering a wide variety of subjects, the Newton Community Chest, Inc., first Public Relations Institute will open Monday night at 7:45 o'clock at the Chest office on Union st., Newton Centre. The Institute will continue each Monday night through the month of March.

Planned primarily to develop procedure for member social agencies of the Newton Community Chest to aid in presenting and interpreting their work to the public, the Institute has attracted wider enrollment because of the importance of the subjects covered.

Each session will be divided into two periods, each of which will include a presentation of fundamentals of the various subjects and a discussion of their application to Newton agencies.

The first session will consider the interpretation problem from the Agencies' angle in Newton. Charles Dillday, publicity secretary of the Newton Community Chest, Inc., and who arranged the course, will open the first session and will lead a discussion of publicity relationships between the agency and its work, its clientele, its supporters and between agency and Community Chest.

Lincoln Howe, publicity director of the Community Federation of Boston, will present the organization of an agency social work publicity program. Analysis of groups to be reached, of various media and building a year-round program will be the key points of his presentation.

## Suspend License of W. New. Beer Place

Last Friday the Newton License Commission announced that it had imposed a 10 days suspension on the beer license of the A. & M. Lunch at 1288 Washington st., West Newton. The place is operated by Mrs. Margaret Kennedy. At a hearing on February 24th before the License Board, Patrolman Mague of the Newton police testified that he had seen beer served at the lunch room on various dates after the legal closing hour on Saturday nights at midnight. Serg. Sullivan and Patrolman Walsh also testified that the place had not observed legal regulations. Thomas Donnelly, attorney for Mrs. Kennedy claimed that Patrolman Mague was prejudiced against James Rycroft, an employee at the A. & M. Lunch.

## Arrested For Stealing Car

Robert Foley of Langley rd., Newton Centre and Thomas Drew of Roland st., Newton Highlands, were found guilty in the Newton court on Wednesday of taking an automobile without authority. Each was given a 30 days' suspended jail sentence. It was alleged they took the car from Needham st., Newton Highlands and drove it to Nonantum.

## Community Chest Annual Meeting

Attended by a full complement of representatives from its fourteen member-agencies and delegates-at-large, the Council of the Newton Community Chest, Inc., held its annual meeting at the office of the Chest on Friday evening, February 26th. The following slate of officers and Directors was elected: President, Maynard Hutchinson; vice-presidents, Mrs. Lorenz F. Muther, Charles C. Dasey; treasurer, Frank L. Richardson; clerk, Kenneth S. May; directors for a three-year term: Elliott B. Church, president of the Newton Welfare Bureau, Inc.; Robert A. Whidden, president of the Mayor's Relief Committee, Inc.; Miss Margaret Dowse, president of the West Newton Community Centre; William V. M. Fawcett, president Norumbega Council, Inc., Boy Scouts.

The following members-at-large were chosen for a three-year term: Leslie D. Hawkrig of Oak Hill, A. Leslie Harwood, Jr., of Newton Centre, General Daniel Needham of Newtonville, Leon B. Rogers of West Newton, F. Wadsworth Busk of Chestnut Hill.

Sidney Rabinowitz of Newton Centre and President of the Economy Grocery Stores was elected to fill the term of Dr. Miriam Franc Skirball, late member of the Board of Directors.

Mr. Hutchinson reported a total of approximately \$193,500 with late returns on the 1936 campaign, emphasizing the outstanding fact that there were almost 14,000 subscribers, which augurs well for the future of the Chest and speaks emphatically of the growing interest of Newton people in the Chest and its member-agencies. He also urged rotation in office and positions in the Chest and member-agency volunteers to a sufficient degree to assure vitality and progress and also that each be sure it fully represents the entire community in its directors.

## Budget Committee Extremely Active

Mr. Walter R. Amesbury, Chairman of the Budget Committee, told of the monthly meetings of his group, with careful study of each agency's monthly financial report, its needs and possible expansion to meet growing demand from the city. Each agency has a member of the Budget Committee assigned as the contact-man, to keep the Chest and its agencies in closest touch with each other.

Mr. Frank L. Richardson, Treasurer, submitted a detailed report of his work during the year, showing skilled and effective handling and disbursing of the Chest funds. The Board voted thanks to him and to the Trust Company for providing the Chest with an office free of rent, light, and heat charges.

The Executive Director of the (Continued on Page 5)

## Wrecked Car, Held For Grand Jury

Edward Murdock, 28, of 194 Pleasant st., Watertown, was arraigned in the Newton court last Thursday, charged with taking without authority an automobile valued at \$1400 from a garage where he was employed at Newton and wrecking the car at Merrimac, N. H., on February 13. The car crashed into a tree and was practically demolished. It was owned by George Standish of Laurel st., Newton Highlands. Murdock received severe injuries to his head and face and was taken to the Nashua Hospital. Murdock was held for the grand jury on the charge of larceny.

## Newton Centre Dog Owners Fight to End Restraining Order on Their Dogs

Hearing on Petition Has Already Had Two Long Sessions and Will Be Continued Next Saturday

Whether, or not, a number of dogs owned by Newton Centre residents shall be restrained, or permitted to resume complete freedom, including unwanted visits to neighbors' estates, is the question which was argued for two days in the Newton district court the past week. The momentous legal battle is in the form of a petition asking for the dissolution of restraining orders placed on several Newton Centre dogs recently. As a result of complaints made by Edward M. Poulin of 16 Everett st., Chief Hughes of the Newton police issued restraining orders on dogs owned by Charles W. Bond, 112 Gibbs st.; Mrs. Otis Johnson, Dalton rd.; George W. Pratt, 19 Chestnut terrace; Priscilla Ordway, 111 Gibbs st.; Malcolm Dunn, 106 Gibbs st.; and Mrs. Charles Walhour, Grant ave.

Mr. Poulin complained that the dogs trespassed on his lawn, dug holes in it, and polluted the lawn in addition to ruining flowers and shrubs. Taking advantage of a recently passed statute, Mr. Bond, an attorney, in behalf of himself and the other owners of the dogs involved, applied for a hearing to have the restraining orders reviewed. Judge Henry Fabian of Brighton was assigned to conduct the hearing. It has already taken two days of this judge's time, and the end is not in sight.

When the hearing was started last Saturday in the Newton court, the order sent to Mrs. Walhour was revoked as it had been learned that her husband, and not she, is the owner of the Walhour canine. The Saturday session was occupied largely by a technical discussion of some phases of the case. The real arguments started at the second session on the hearing, which was held on Monday. Mr. Bond cross questioned Chief Hughes at considerable length in an effort to prove that the Chief did not possess details which ought to have been procured before the restraining orders were issued.

Herbert A. Brown, dog officer for Middlesex County testified that he had received instructions to visit the Poulin property after Mr. Poulin had complained to county officials. He found the Poulin yard littered with dog filth, and a number of holes which had apparently been dug in the yard by dogs. In cross questioning Mr. Brown, Charles W. Bond called attention to holes made by dogs using their front paws and longitudinal holes made in lawns by dogs when the canines use their hind paws. Mr. Bond gave a realistic demonstration of this sanitary custom peculiar to canines. Mr. Bond also asked Mr. Brown if he, as a former dog owner, knows of any method which can be used to prevent male dogs from frequenting the yard of a house where a female dog is kept. Mr. Brown agreed that he knows of no effective method. The testimony developed that Mr. Poulin, notwithstanding that for the past two or three years, had been annoyed by neighbors' dogs trespassing on his lawn, obtained several months ago a three pound female Chihuahua dog.

Mr. Bond subjected Mr. Poulin to a long cross examination after Serg. King who is conducting the case for the Newton police, had concluded taking direct testimony from Poulin. The dogs which trespassed on Poulin's lawn, and which allegedly have also been attracted by the diminutive Chihuahua, include a big Shepherd dog owned by Bond, a huge Great Dane owned by Pratt, and big collies and Shepherd and a bull dog owned by Dunn, Mrs. Johnson and Miss Ordway. None of the alleged offenders were lap dogs. Mr. Poulin testified that when he tried to eject some of the big animals, they turned on him savagely. He also testified that the Pratt's Great Dane had been escorted across his lawn repeatedly by William Pratt, age 11, despite his protests. Poulin testified that one of Bond's dogs, a large female Newfoundland, never trespassed on his lawn. It was revealed that this dog, "Paprika," has been sent to the country at certain periods. Bond questioned Poulin regarding a small target rifle bought by the latter a few months ago, in an effort to show that the weapon was procured to be used on the dogs. Poulin said he bought the BB rifle just for target practice.

Mr. and Mrs. Dunn testified that their bull dog was kept reasonably restrained and that they had never received complaints about the dog before getting the restraining order. Mrs. Dunn said she noticed a gathering of dogs on Poulin's property after he acquired the female Chihuahua. Miss Ordway testified her collie had been restrained since last December. Mrs. Charles W. Bond and her daughter, Mrs. Hallett, testified they had never received complaints about their dogs. Mrs. George Pratt said the Great Dane had been entrusted to their care on January 18 by its owner, Paul Shaw. She had received one complaint from Mr. Poulin about her son trespassing on his property. Patrolman Carley testified that he had received complaints about the Ordway and Johnson dogs from others than Poulin.

## Leniency Given to Speeding Consul

A large number of speeders were arraigned in the Newton court yesterday. Many of them were fined \$5 each. Most of those arraigned and fined were non-residents of Newton. Cases against several speeders were filed. These included that of George Barrel of Wayland, who is the Swiss consul at Boston; Margaret Olson of Montvern avenue, Brighton and Stanley Vikler of Wellesley. Joseph Cucci of Waltham was fined \$5 for not slowing down at an intersection. Fred Davis of Beethoven ave., Waban, was fined \$3 for not having proper lights on his car. George Waring of Maplewood ave., Newton Centre, was fined \$3 for not stopping his car before entering a through way.

## A STEP IN THE RIGHT DIRECTION

Mayor Childs has made his budget recommendations to the Board of Aldermen. The outstanding feature of the 1937 budget is the fact that it totals slightly less than that adopted last year. The basic cause for the difference is found in the matter of cost of snow removal. The lack of snow and icy streets this winter in contrast to the conditions of 1936 with increasingly heavier appropriations should redound to the taxpayers' benefit. Pending further scrutiny of various budget items it is gratifying to note the inclusion in the proposed budget of appropriations for additional police, and the employment of the reserve force. While this is not the only solution to Newton's safety problem it is one of the essential steps in the right direction.

## A NOTEWORTHY ANNIVERSARY

Today is the anniversary of the Boston Massacre. While it is often construed as one of the black spots of our early history it is nevertheless a noteworthy date. It not only marked the beginning of attempts to throw off the yoke of oppression and tyranny which later caused the colonies to take up arms against the mother country and found this land of independence, but it also served as an example of justice that has few parallels. John Adams, later president of the United States, defended the British soldiers in a court of law, despite his sympathy toward the Colonists. His action brought justice. Would that today there were more frequent examples of this kind to help us retain the fundamental principles upon which our country has prospered.

## Altar Guild To Hold Services at Highlands

The Altar Guild of St. Paul's parish, Newton Highlands, will conduct a quiet day on Tuesday, March 9. At 7:30 and 9:30 a. m. there will be a celebration of the Holy Communion as a memorial to the late Mrs. George Loud, president of the Altar Guild. A meeting of the guild will be held at 4 p. m. and at 5 o'clock a retreat for the women of the parish. The retreat will end at 8 p. m.

The children of the parish are again making their Lenten Pilgrimages to the Children's Corner. Last Lent over 1700 visits were made. The church is open daily for all who wish to enter, rest and pray.

Every Friday evening at 8 p. m. in St. Paul's Church evensong is sung and an address given by the rector of the parish. All are cordially invited to attend.

## Girl Scouts

On March 12th at 12:30 o'clock the Newton Girl Scout Council is planning a birthday party to celebrate the 25th anniversary of the founding of Girl Scouts. A small project which began March 12, 1912, in Savannah, Georgia, with eleven girls now includes 400,000 girls all over America. The Newton celebration is to be a luncheon at Brae Burn Country Club, Mrs. Joseph Merritt of Hartford, Conn., chairman of the Public Relations committee of the New England Region will be the guest speaker. Mrs. Sargent Wellman of Topsfield, Mass., will be the guest of honor.

## Newtonville Branch Library Fund

To be used toward the proposed library at the corner of Highland Avenue and Walnut Street, Newtonville. A convenience and a necessity for every resident of Newtonville, and, as a large reference library, of great use for years to come to the pupils and teachers of our High Schools.

Its acquisition merits the interest and support of all our citizens.

Contributions are earnestly solicited, and may be sent to the Newtonville Branch Library Fund, 87 Fair Oaks Ave., Newtonville, or may be left at the desk of the Newtonville Branch Library, 259 Walnut Street.

## Newtonville Girl To Study at English College

Miss Constance Brickett of 25 North st., Newtonville, a senior in the preparatory department of Monticello College, Godfrey, Ill., has been appointed

CONSTANCE BRICKETT

ed exchange scholar to Roedean School, Brighton, England, for the school year beginning next September. She goes to Roedean under full scholarship privileges in accordance with an arrangement between the two schools by which an English girl is now in residence at Monticello.

Miss Brickett leads her class with a straight A average. She is president of the International Relations Club, librarian of the chorus, secretary-treasurer of her class, feature editor of the school paper, and has played important roles in dramatics.

## Central Club To Present Radio Revue

Central Club, men's organization of Central Church, Newtonville, will present on Friday and Saturday evenings, March 12 and 13, in the social hall of the church, as its 11th annual show for the benefit of the memorial organ fund, "A Radio Revue," in which members of the club, the Central Club male chorus and the Central Club orchestra as well as some outside talent will participate.

Titled a "Broadcast to End All Broadcasts," the scene is laid in the broadcasting studio of a radio station with skits, musical specialties and dancing acts under the sponsorship of Newtonville and Boston merchants. The whole program is replete with wit, fun and melody.

One of the amusing features is an amateur hour under direction of "Major Groves," during which both local and out of town talent will be given an audition. A number of clever juvenile singing and dancing acts are featured.

The production is under the personal direction of Jack Knell, chief radio announcer of Station WHDH, Boston. Alan D. Duff is chairman of the show committee. The male chorus is under direction of Joseph R. Ludwison, while George B. Rowlings is leader of the orchestra.

Those taking part in the various features include George Hardy, Russ Eddy, Chet Hervey, Joseph R. Ludwison, Leonard Hole, James Brickett, Willard Wentworth, Ernest Nichols, Winslow Ayransen, R. S. Merrill, Charles H. Mergendahl, Robert Quinn, Ian, Roscoe Brown, Mr. and Mrs. Edward Carl, C. W. Waldron, Mrs. Margaret J. Rowlings, Richard Whitney, Barbara and Jackie Condon, Ruth McBain, Jerry Long and Elmer Pillsbury.

The orchestra comprises George B. Rowlings, Charles Goddard, Charles Benson, Jr., Lester Patterson, Dr. D. T. Gallison, Miss Anna Sherman, James Stevenson, Linder Hamblen and Harold L. Stillman.

In the male chorus are: J. R. Ludwison, F. C. Alexander, W. E. Ayransen, W. F. Kidder, G. E. Hardy, A. H. Burdick, E. A. Carl, Willard Wentworth, E. L. Nichols, C. R. Eddy, C. S. Merrill, P. Martin, H. L. Stillman, R. E. Brown, R. E. Quinn, L. S. Hole, Chet Hervey, J. Q. Erickson, C. W. Waldron, Chester Doten and Dudley Hovey.

## Noted Trio at Highland Glee Club Concert

The Highland Glee Club of Newton at the last concert of the season on Tuesday, March 9, will present the Goding-Thiede Trio, piano, violin and cello. Each artist is distinguished in solo performance and their trio has gained the highest praise during the four years before the public. Their appearances at Jordan Hall and the series of concerts at the Art Club have met with great favor in the musical life of Boston.

Federated Glee Club competition having been voted out for the present, the club is devoting all its rehearsals to this close of the season's performances at the Newton Highland School Auditorium.

## OSTEOPATHIC AUXILIARY TO MEET

The Newton-Waltham Auxiliary of the Massachusetts Osteopathic Hospital will hold its regular monthly meeting at the home of Dr. Mildred E. Greene, 56 Harris street, Waltham, on Wednesday, March 10, at 8 p. m. Regular business of the Association will be discussed and refreshments served. All women in the Newton and Waltham districts who are interested in the work of the Massachusetts Osteopathic Hospital are cordially invited to attend the meeting.

## ALL NEWTON MUSIC SCHOOL

The pupils of the Clafin School Branch of the All Newton Music School will give a recital in the Assembly Hall of the Clafin School, Newtonville, on Friday evening, March 12th, at 7:30 o'clock to which the pupils, parents and their friends as well as the general public are cordially invited. There is no admission fee!

## EPWORTH LEAGUE HAS PARTY

All members of the Epworth Leagues in the Newtons are invited to attend a splash party on March 17 at the Boston Y. W. C. A. After an hour's swimming, dancing and a general social time will be enjoyed for the rest of the evening.

## Letters To The Editor

### THE WEBSTER PLAYGROUND

To the Editor:  
Upon May 3, 1933, the Edwin S. Webster Playground at Newton Centre was accepted as a gift from Mr. and Mrs. Webster and was so named for Mr. Webster. It is not possible for a donor to make any disturbance about the improvement of such unless it were stated in the agreement that it must be improved within a certain time as has been done by some gifts of playgrounds since that date.

Any one living in Newton Centre as I do would have the same reaction as to the matter as I have when I am asked to tell them when the nuisance of dumping will be abated and the improvement as a playground be started. Every Wednesday and even every day there are loads of material of burnable and other matter that are carted past the residences to this playground which should have been stored long since. In fact, I was told over a year ago that when a layer of the burnt material from the incinerator was placed over the deposited material that it would be stopped. Now it is not the lack of funds but some other reason that is unexplained, for I am told that another sum has been appropriated to wheel gravel at the Cold Spring playground. These same wheelers with wheelbarrows could do some leveling and smoothing at the Webster playground perhaps to better advantage to the region, to the peace and contentment of the citizens and taxpayers in that region and also in helping to improve the taxable property in that vicinity.

We are trying to improve Newton to make it a really residential city and then to have this nuisance put a dampener upon the efforts of public-minded citizens is unfair. To have a big appropriation for its completion right away but it can be treated as other playgrounds have been done, a yearly sum to carry on and eventually finish the plan. The portion next to Warren street was filled years ago with ashes largely, and can be readily turned into some use without too much expense. Then the portion near the railroad, with its unsightly mess as seen by commuters every day, can be covered up and left to settle until some future time. As one person said, "It is a rotten mess."

I ask it is fair for other sections to receive treatment and care and this be left to the future? I think in the deed there is a limitation of 50 years for playground use. If so, with this dumping, then the present generation will be dead before they ever see a playground there.

## ZONTA CLUB

The Zonta Club of Newton held its regular meeting on Monday, March 1st, at 6:30 p. m., when a dinner was served by the hostess, Miss Caroline Freeman of West Newton. Nineteen members and guests were present. Miss Alice Drayton of Boston Zonta was a guest and was invited to tell of her work and plans for organization in this district. Miss Cora McKeen of Cambridge Zonta was also a guest and discussed several Zonta questions. The speaker of the evening was Mr. Drake, Director of Vocational Guidance at the Newton High School. He gave a very interesting talk on "Travelling Through Europe."

An executive board meeting will be held on Monday, March 8, at 7:30 p. m. at the home of the president, Miss Sturgis at 62 Madison ave., Newtonville.

The next meeting will be International Night with the meeting at Miss Freeman's at 7:45. Miss Edith Fisher of Boston will be the speaker. She is well versed in International affairs through her activities as chairman of International Relations Committee of Zonta International. Miss Anna McKeen of Framingham, chairman of Region A, will be a special guest.

## ASSOCIATION OF BANK WOMEN

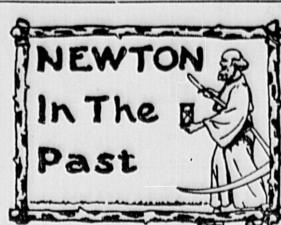

The Newton members of the New England Division of the Association of Bank Women had charge of the dinner meeting on Feb. 26th at the Fox and Hounds Club, Boston. Mr. Edward E. Wing was the speaker. Among the guests was the president of the National Association and five bank women who have recently been graduated with honors from the American Institute of Banking, one of whom was Miss McAusland of the Newton Trust Company.

Previous to the dinner, a committee meeting was held at the Hotel Somerset to plan for the National Convention of the Association which will be held in Boston in October. Among the Newton bank women active at the convention will be Miss Ethel T. Gammons of West Newton who will be chairman of the Hospitality Committee, and Mrs. Dorothy King Blair of West Newton who will serve on the committee, and also Miss Lillian McDade of Newton Centre who will be a member of the Entertainment Committee.

## LEAGUE OF WOMEN VOTERS

Mrs. B. Alden Thresher attended the Tea Conference held at the home of Mrs. Richard D. Fay, Cambridge, March 1st, to launch the Contributors' Campaign for the benefit of the Massachusetts League of Women Voters. Mrs. Thresher represented the Newton League of which she is president. Other guests were officers of the State League, members of the Budget and Finance Committees and volunteer solicitors.

The League is now entering its seventh year of service in the field of adult political education. A pioneer in this field, it is recognized by educators and public-minded persons to be an achievement in citizen participation in government.

## City of Newton SIDEWALK NOTICE

Having been instructed by the Joint Standing Committee on Highways to enforce the city ordinance in relation to the removal of snow from sidewalks and brick sidewalks, I hereby give notice to all owners, tenants or other occupants of any building or lot abutting on said sidewalks that the city ordinance will hereafter be enforced.

Auburndale is a smart village and is growing quite rapidly despite the dull times. The prospect is that in due time it will be one of the most stirring villages in Newton.

## 50 YEARS AGO

Newton Graphic, March 5, 1887

The darkness of the streets this week is in striking contrast to the brilliant illumination furnished by the electric light company. It would be easy to get up a mammoth petition to have the electric lights restored at once.

Messrs. Fred A. Hubbard and T. Walter Proctor have bought out Charles F. Rogers and will continue the business at the old stand. Mr. Rogers has been in the drug business in Newton for 33 years and has won a high reputation. His successors have been in his employ for 5 years.

At the Newton almshouse are four old ladies whose ages are 85, 90, 95 and 100. Last year one of the inmates died whose age was 106. Evidently the inmates at the almshouse are well cared for.

Last Sunday night at Eliot Hall Rev. Calkins of Eliot Church had a crowded audience to hear his sermon—"Strikes, and How to Prevent Them." During his visit to France Dr. Calkins paid particular attention to the labor question. He found great establishments employing hundreds where strikes are unknown. They had adopted the co-operative system paying the employees a certain percentage of the profits in addition to their wages.

William H. Mague of West Newton has gone to Canada for a carload of horses.

March has come in like a lion, and stove coal is \$7 a ton and furnace coal \$6.75.

Representative Walworth of Newton Centre made an eloquent speech in the Legislature on Tuesday in favor of abolishing the poll tax as a requisite for voting. He believes that the poll tax is the last relic of property qualifications for voting. He said—"It used to be that if a man owned a jackass worth \$20, he could vote, but when the jackass died, the man could not vote. Now I submit it was the jackass who voted, and not the man. The poll tax is a source of corruption and nothing else. Men who have their poll tax paid, are not free agents. Many poor but honest men realize this, refuse to have anyone pay their poll tax, and do not vote. Only six States impose this qualification."

The Charity Department has started a new plan this week to furnish aid to the outdoor poor in the most efficient and economical manner. A room has been fitted up at the City Home on Winchester street, Newton Highlands, as a store. Groceries are purchased in wholesale quantities and delivered to the homes of the poor by department employees. Grocery orders issued by the department have averaged about \$6800 annually the past few years. It has been found that in some cases the applicants obtained money for transfer on part of the order. The new plan will prevent this abuse.

## Powers' Paragraphs

In this column last week we referred to the recent action of the Newton Board of Aldermen in abolishing a city ordinance more than 60 years old which had compelled the removal of snow from sidewalks in most thickly settled sections of this city. A special committee had been appointed many months ago to study the question of snow removal, after protests had been received because of the almost impassable condition of many sidewalks after snow storms. The committee, after prodding, gave some attention to the matter before it, and made a report. This report stated that the committee had made a survey of snow removal ordinances in 17 cities and towns in this State, and it found that in several towns, which the committee alleges are comparable to Newton, snow has to be removed by abutments only in business sections. The towns so named are Melrose, Needham, Norwood, Winchester and Woburn. Therefore, there is a precedent; so the committee recommended that the ordinance which Newton had for over 60 years be abolished and snow removal be compelled only in business districts.

The committee's report stated: "Our present ordinance is not based on any general, fundamental principle, is antiquated in the light of the growth of our city, and is not equitable in its requirements. It discriminates against owners or occupants of property who have gone to the expense of improving their sidewalks, while exempting unimproved sidewalks."

The ordinance referred to, which is now "past" instead of present, as a result of the action of the committee and the Board of Aldermen, was based on a general, fundamental principle. It was based on the ancient, fundamental principle that the lives and safety of the public are entitled to consideration. It was realized long ago that when snow is not shoveled off sidewalks it becomes either icy or slushy and thus endangers the safety and health of pedestrians. It is an old and fundamental principle that people residing in communities have mutual obligations to promote public welfare and convenience. The former snow removal ordinance was a good example of such a principle.

The committee was correct in stating that the former snow removal ordinance discriminated against owners of property abutting improved sidewalks by exempting owners of property abutting unimproved sidewalks from clearing snow off such walks. The proper way to have ended such discrimination would have been to compel the shoveling of snow off unimproved sidewalks on streets where there is considerable pedestrian traffic.

This has been a very unusual winter. For the first time in the memory of most living persons there has been no snow. But wait until next winter, when it is reasonable to assume, there will be a normal number of snow storms. Wait until thousands of Newton people who have lived for years in this city and have enjoyed the advantage of shoveled sidewalks, realize the purport and import of the retrogressive action recently taken by our Aldermen as regards snow removal. The Aldermen will then read and hear plenty of protests from Newton citizens who walk.

From time to time through past

## ONE THING AND ANOTHER

By L. D. G. BENTLEY

### Timely Warning!

The poet Shakespeare's many truths, Deep words of wisdom, succinct all, Remain within our memory. If we remember things at all; "Beware the Ides of March!" is one, Its portent you, of course, recall; "Beware the Slides of March," I'll say, Will save us many a nasty fall.

### One Way Out

Those whose tender hearts lead them to do things against their better judgment will sympathize with the office manager with whom this story deals. Also, they will probably envy him his resourcefulness. Urged to give employment to a young man who seemed not especially qualified for the job of office assistant, the manager was sufficiently moved because of a hard luck appeal to put him on the payroll. It was not very long before he found the youth was not only inefficient but stupid. How to get rid of him without any hard feeling? The question seemed impossible of solution until the manager read the advertisement of a correspondence course on "How To Get a Job." Promptly he called it to the attention of the undesirable employee and suggested he might engage himself in such a study and possibly get a much better position. The young man jumped at the bait, passed the course and did get another job. These office managers have to know their stuff.

### On the Esthetic Side

Not so long ago this column told of the interest of city dwellers in their vacation homes, providing they are lucky enough to have small country establishments or seaside cottages for summer retreat. With some, I find, the place becomes a shrine. They want it comfortable as well as attractive but they like to keep it about the same as when they dream of it in the winter. Really, some go so far as to become indignant if any change, violent or partial, is made. Only recently I met a man who had visited on Washington's Birthday the little farm which he rents year after

year.  
"How did you find things?" I asked.  
"Hang it all," he replied, "I'm mad as a hatter. You know that picturesque old red barn I never used? Well they've gone and shingled it. A downright shame, if you ask me."

### "It Takes All Kinds—"

Delay in obtaining the service of one of our local taxicab companies the other evening so surprised a well known Newton resident that he asked an explanation. What he heard was a revelation. He happened to have encountered him when the experience was fresh. Seems the taxicab offices get all kinds of fake calls. "Two or three a night, regularly," an official said. Calls to Watertown, Arlington, Boston and Cambridge from people who give phony names and addresses are the regular thing, it appears. I began a little snooping myself. One driver told me that the night before he had answered a call to Belmont only to find that it was false. All that distance, back and forth, for nothing.

What puzzles me is what fun there can be in misleading taxi drivers or anybody else for that matter. Would it be any funnier if the jokester were on hand to see the exasperation of the victim of his plot? And where do these idiotic ideas come from? I thought that consumers of alcoholic beverages might be so inspired but the taxi man told me that there is no special class addicted to this silly sport. "The people who do it are as likely to be sober as drunk," he said. "What their game is I don't know unless they like to make trouble for other people." Possibly they think every day is April 1st.

### "Backward, Turn Backward"

The statement in the report of the special committee of our Board of Aldermen that "there is no precedent for an ordinance providing for general removal of snow except in cities more thickly settled than Newton" reads as if it were taken from the Graphic's "62 years ago in Newton" column.

## RED CROSS

Newton responded so generously to the Red Cross appeal for funds for flood relief that the following items will be of interest to contributors:

Newton's first quota \$2400.  
2nd quota, \$4800.  
3rd quota, \$12,000—subscribed \$13,715.67.  
National 1st quota, \$2,000,000.  
2nd quota, \$4,000,000.  
3rd quota, \$10,000,000 at least and as much more as possible subscribed \$21,000,000.

The extent of the disaster was so great that it is estimated that all of the \$21,000,000 will be needed for rescue and rehabilitation work. Some idea of the work involved can be seen from the information received from Headquarters February 26th that 1700 nurses were sent out into disaster service and at that date were still on the job.

## Newton Girls Attend Sargent Camp Reunion

The annual reunion of campers and counselors of the Sargent Camps for Girls at Peterboro, N. H., was held last Saturday at the Boston Y. W. C. A. Nearly one hundred and fifty old and new campers, counselors and parents attended the affair. Among those from Newton were the Misses Jane Hesslein, Alleen Davis and Mrs. Charles L. Foss, counselors, and the Misses Virginia Rowland, Harriet Dodge, Elizabeth Dempsey, Odette Hatch and Betty Ann Branch, campers.

## Symphony Harpist To Play At Second Church

A special program of music will be presented on Palm Sunday evening, March 21, in the sanctuary of the Second Church in Newton, West Newton, for all persons interested in the melodies of harp, piano and organ. Mr.

ELFORD CAUGHEY

Elford Caughey, a member of the Boston Symphony Orchestra, will be the guest artist. Mr. Caughey has been a member of the Boston Symphony Orchestra since 1925. He has studied with Alfred Holy and also with Marcel Grandjany. Not only in New England

is Mr. Caughey known as an unusually capable soloist. His programs reveal a catholicity hitherto unknown in the programs of harpist; not only are the great writers for the harp represented, but with these names figure those of Bach, Liszt and Wagner of the classic schools, and those of Ravel, Debussy and Respighi of the modern school. In this program Mr. Caughey will include compositions of Bach, Holy and Respighi.

Assisting Mr. Caughey in the program will be Miss Elinor Vaughan, pianist, and Mr. Clendenning Smith, Jr., organist, who will present several solos and duets. Miss Vaughan and Mr. Smith are members of the parish of the Second Church.

## Gang of Boys Robbed Churches

Ten boys, 12 to 14 years old, residents of Newton Corner and Watertown, near the Newton line, have been questioned the past week by Newton and Brighton police regarding a series of thefts which have occurred the past few months in Newton and Brighton. Four of the gang will be tried in the juvenile session of the Brighton court on Saturday, and the entire gang will appear on that day before Miss Emily Hickey, assistant probation officer of the Newton court.

The apprehension of the gang was brought about last week by the capture of a couple of Newton boys in the Church of the Presentation at Oak Square, Brighton. Poor boxes in that

church were robbed. The church was watched, the culprits caught, and questioned by Brighton police. Newton police were notified and after questioning the boys caught at the Presentation Church, a number of other youngsters were involved. According to alleged admissions of the boys a pocketbook was rifled in the parish house of Grace Church while a party was being held there; flash lights and a pocketbook were stolen from the Y. M. C. A. A pocketbook was stolen from a customer at a Newton drug store. Gum on the end of a stick was used to extract money from the poor boxes at Presentation Church. At the Church of Our Lady, Newton the boys stole a key which opened depository boxes at shrines, and then looted the boxes. Altar linen was also stolen at this church.

## Recent Engagements

Mrs. Edwin R. Will of 21 Standish st., Newton Highlands has announced the engagement of her daughter, Miss Theodora Jones, to Francis W. Hamilton of 65 Duncklee st., Newton Highlands.

Mr. and Mrs. James Russell Clarke of Beaumont ave. have announced the engagement of their daughter, Elizabeth, to Mr. George Wing Briggs, son of the late Franklin W. Briggs, and Olive M. Briggs of West Somerville and Marion. Miss Clarke is a graduate of the Katharine Gibbs School and Mr. Briggs attended Boston University. No date has yet been set for the wedding.

Mrs. Walter C. Whitney of 17 Willard st., Newton has announced the engagement of her daughter, Miss Eleanor Whitney, to Abram Thurlow Collier, son of Mr. and Mrs. Forrest F. Collier of Billerica, Mass. Miss Whitney is a graduate of Wheaton College, 1935. Mr. Collier graduated from Harvard in 1934 and is now a member of the class of 1937 of the Harvard Law School.

Mr. and Mrs. Andre Gay of 14 Stoneleigh rd., West Newton have announced the engagement of their daughter, Miss Marguerite Florence Gay, to Ralph Leon Chisholm, son of Mr. John Duncan Chisholm of Boston.

Mr. and Mrs. Frederick Manley Ives of Highland ave., Winchester have announced the engagement of their daughter, Miss Charlotte Ives, to John Harding Bishop, son of Mrs. Elias Bullard Bishop of The Ledges rd., Newton Centre and the late Judge Bishop. Miss Ives graduated from the Winsor School in 1936. She is a provisional member of the Junior League and is a member of the Vincent Club. Mr. Bishop is a graduate of Phillips Andover Academy.

## Tip Top Cleaners Redecorate New Show Room

One of the most beautiful show rooms in Newton has just been completed and is now open to public inspection, by Tip Top Cleaners and Tailors.

The front store has been redecorated and remodeled. The color scheme is two tone pink, with maroon and white trimmings. Half round counters of the same tint finished with chrome strips, a mahogany colored floor, a pedestal flanked by three full length mirrors are the outstanding features that meet the eye of the customer.

A unique Neon sign outside the store and a neat Neon sign in the window serve to give notice to the public of the location of this enterprising firm.

The shop itself in the rear of the establishment has been newly equipped with the most modern pressing machines, cleaning vats, driers, etc., and this interesting department is open for public inspection during the remainder of this month.

Tip Top Cleaners and Tailors was organized five years ago. Due to increase in the volume of business it was found necessary to move to the present location. Since occupying the store at this address it again became necessary to enlarge the quarters about two years ago.

The modernization just completed gives Newton one of the most up-to-date cleansing establishments for its size in the State.

The business is operated by H. H. Tevekalian and H. K. Tevekalian, who invite their many friends to visit their modern shop, of which they are justly proud.

## STORY TOLD ON GLASS

The Newton Glass Co. this week is advertising a set of tumblers bearing a design which graphically depicts a beautiful Chinese love story. The story goes as follows:

Many years ago there lived in a beautiful home in China a mandarin whose only daughter was in love with a peasant boy. The mandarin had forbidden his daughter to see her suitor, but clandestine meetings continued, until one night the boy and girl eloped. They went to the shore of a large lake where a boat had been hidden, and sailed away to an island upon which the boy had prepared a home for his loved one. The mandarin and two servants pursued them but were unable to overtake the runaways. Many years later the mandarin discovered the hideaway of the daughter and her lover, forgave them and persuaded them to live with him in his mansion.

The story unfolds itself when the tumblers are revolved slowly.

## LASELL JUNIOR COLLEGE

Boisvert of 1037 Beacon st. in honor of the 15th wedding anniversary of Mrs. Boisvert's sister and brother-in-law, Mr. and Mrs. Anthony Perrault of Bellingham, Mass. About 25 guests were present. The decorations were in white and silver. A luncheon was served, followed by an entertainment and bridge. The couple received many gifts of crystal.

—Marianne Cappadona, of 22 Lyman st., was soloist last Wednesday afternoon at the regular meeting, in the Hotel Kenmore, Boston, of the Italian Women's Club. The speaker was Robert Rosegrant, assistant director of the Gardner Museum, who spoke on the history of Italian painting. Little Miss Cappadona, who is but 12 years old, sang a group of classical songs, including the famous aria from "Madam Butterfly." "Un bel di." She was accompanied at the piano by Mrs. Florence Wood Russell. Marianne will be soloist next week, March 8th, for the Daughters of the American Revolution, in their chapter house in Newton Lower Falls.

#### Sardines

The name sardine is derived from the island of Sardinia in the Mediterranean sea, where these small fish abound. Sardines include fish of several different varieties; among them pilchard, the bristling or sprat, and the herring.

**CHRISTIAN SCIENCE**

"Man" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, March 7.

The Golden Text is: "Ye are my witnesses, saith the Lord, and my servant whom I have chosen" (Isaiah 43:10).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I have manifested thy name unto the men which thou gavest me out of the world: thine they were, and thou gavest them me; . . . They are not of the world, even as I am not of the world. . . . Neither pray I for these alone, but for them also which shall believe on me through their word; that they all may be one; as thou, Father, art in me, and I in thee, that they also may be one in us: that the world may believe that thou hast sent me" (John 17:6, 16, 20-21).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Man is the idea of Spirit; he reflects the beatific presence, illumining the universe with light. Man is deathless, spiritual. He is above sin or frailty. He does not cross the barriers of time into the vast forever of Life, but he coexists with God and the universe" (p. 266).

**Newtonville Scouts Plan  
Annual Entertainment**

The Sixth Norumbega Group, Boy Scouts of America, Newtonville, is making plans for their third annual entertainment for the benefit of the Scout Building. Billed as an "Old Fashioned Vaudeville Show," and featuring the greatest collection of vaudeville talent ever to appear on a Newtonville stage, according to Edward Gough, Chairman of the Production Committee, the full evening's entertainment will include acrobatic tumblers, magicians, dancers and musical acts. The entertainers, who are all professional stars well-known in New England, will appear in a special arrangement directed by Everett L. Rich, well-known theatrical producer, at the F. A. Day Junior High School on Friday evening, April 2.

General Daniel Needham is the Chairman of the Sixth Norumbega Group, which is an organization of Newtonville parents sponsoring the Cub Pack, Boy Scout Troop, and Senior Scout Patrol which make up the group. During the past year and a half they have erected the Scout Building on Court st., Newtonville, to serve as a meeting place for the hundred boys in the organization. Since no professional workers are employed, the leaders being all parents of boys in the group with the exception of Wm. Bradford Gove, Senior Scoutmaster, all the money which the group raises through their entertainments goes for improvement of the building and for equipment. Through this entertainment the group hopes to liquidate the small debt on the Scout Building, provide funds for its upkeep for the coming year, and have a small balance to be the nucleus of a fund for erecting a new cabin at Nobscott, the Scout week-end reservation of Norumbega Council, for the Sixth Troop.

Frederick B. Eastman is the Chairman of the Finance Committee of the Group, which is sponsoring the show. John B. DuPont is in charge of the program, advertising, with a committee including Edgar Burkhardt, William J. Kidder, Mrs. Howard Thomas as chairman of the Patrons' Committee.

**Community Chest**

(Continued from Page 1)

Chest, Mr. L. A. Bruce, Jr., said that there are 45 Chests in New England, with Newton being 8th in size. Of the 45, 11 went over the top in their campaigns last year. Fall campaigns of Chests throughout the country were about 93% of their goals, while Newton was about 103%. He also reported on the work of the Social Service Index and the progress in the creation of the Council of Social Agencies.

The Board expressed its thanks and appreciation to Mr. Hutchinson, President and Campaign Director of the 1935 and 1936 Campaigns with a rising vote of thanks.

**Rollo Walter Brown Speaks at Newton High School**

At an assembly on Wednesday, March 3, the senior class heard an informal lecture by Professor Rollo Walter Brown. His subject was "Edwin Arlington Robinson—Poet."

Mr. Green introduced Miss Jane Dealy, class of 1937 and president of the English Club. Miss Dealy explained that Professor Brown appeared as guest speaker under the auspices of the English Club and described the speaker as a professor and writer who likes to uncover individual talent.

Stating that he first met Mr. Robinson at the MacDowell Colony in Peterboro, New Hampshire, professor Brown related many interesting sidelights on the career of the poet from Maine, who died in 1935. His later life was more whimsical, less serious. He achieved no great success until fifty-seven years old. Always concerned with the "whence and whyness of everything," Edwin Arlington Robinson urged people to have a wide scope and not a special scope, and to remember to be self-reliant. Said he, "when you begin to do as others say, you're lost."

A poem, entitled "While Cleaning," which appeared in the latest copy of "World Youth," a fortnightly newspaper review, was written by Noel Allen, a junior in Newton High School.

Mr. B. Floyd Rinker talked on Monday evening, March 1 to the Mothers' Club of the Stearns School Centre, comparing home life aboard with home life here in Massachusetts.

Norma Ross, class of 1938, has designed and executed a splendid poster about eight feet square, which advertizes the Drama Club play, "The Three-Cornered Moon."

Mr. John B. MacNamara, Program Director of Radio Station WBZ, spoke this week before the Microphone Club of Newton High School. His address, given in the lecture hall was warmly received by an enthusiastic audience of radio fans.

The Newton Teachers' Federation sponsored a meeting on Thursday, March 4, in the Music Room of Newton High School, when Mr. Lent, Secretary of the Teachers' Retirement Board, discussed the Massachusetts Retirement System.

**Attend National Convention**  
 Mr. Julius E. Warren and Mr. Paul E. Ellicker represented the Newton Schools at last week's convention in New Orleans. This was the annual winter meeting of the Department of Superintendents, and the affiliated organizations, which include the Department of High School Principals, the Department of Elementary School Principals, the Bureau of Educational Research, the Conference on School Outlining, and other groups. All of these meetings are under the direct sponsorship of the National Education Association.

Mr. Warren, the Superintendent of the Newton Schools, participated in a Panel Discussion in the program of Placement of Teachers in Teacher Training Institutions of the Country. Mr. Ellicker, the Principal of Newton High School and now on a year's leave of absence to work in a National survey of secondary schools was elected First-President of the Secondary School Association.

**Model Plane Meet**  
 The Newton High School Aviation Club, under the guidance of its adviser, Mr. Daniel P. A. Willard, will sponsor a model plane meet open to all students enrolled in the Newton Public Schools. This meet will take place April 10, in the Newton High School Stadium. If the weather makes necessary a postponement, the meet will be on May 1.

Superintendent Julius E. Warren and Acting Principal Raymond A. Green have expressed their hearty approval of this innovation in the Newton Schools. Mr. Willard in a preliminary report of the Club's plans says there will be three divisions of contestants: senior high school, junior high school, and grade school. In each class there will be four events. They will be Cabin R. O. G., Flying Scale, Gilder H. L. on Tow-Line, and Stick Hard Launched.

Complete data and entry blanks will be ready for distribution to every public school in the city.

**Mr. Drake Speaks on Research and Guidance**  
 Mr. C. Edwood Drake, Director of the Research and Guidance Department of Newton Schools, recently addressed the members of Mr. Paige's block A Problems of Democracy class. He discussed the personnel and organization together with the functions of the Division of Research and Guidance. The personnel includes the director, who is responsible to the superintendent and the School Committee; a psychologist; records and certificate clerk; attendance supervisor; adjustment teachers and their testing representatives in secondary and elementary schools; chairman of guidance in secondary schools; counselors, and finally the teachers. He stated that the division brings about better school efficiency through group testing, classification of pupils, evaluation of methods and materials of study, and records and reports. It aids pupil adjustment and guidance through the psy-

mulative records, and occupational mulative records, and occupational studies.

**Bigelow Junior H. S.**

The seventh grade dramatic clubs under the direction of Miss Anna McPhee and Miss Margaret Osborne joined in presenting an entertainment at the seventh grade get-together on Thursday, Feb. 18. The members of the cast in the first number, a short melodrama called "Virtue Triumphant" were Phyllis Carlton, Helen Manter, Arthur Nash, Ray Eusden, and Frederick Pearson. Karoline Rubin gave a monologue in Irish dialect, "Nora and the Twins." Frederick Pearson and William Powers put on a skit entitled "The Whole Works." Arthur Nash recited a poem, "The True Story of a Kicker." Every member of The Bigelow Funsters participated in a short play, "The Home Run." The boy was acted by William Powers, the girl by Glory Cotting. Lloyd Howard accompanied on the banjo a band of singers including Robert Sander, Edward Maynes, Leo Flanagan, in a group of western songs. Lorene Pyatt did a tap dance. The last feature was a skit, "Joy Riding" showing a human automobile. This group comprised Phyllis Carlton, Florence Luchini, Marjorie MacNeil, Mildred Foster, Karoline Rubin, Ray Eusden, Joanne Reiman, William Powers, Glory Cotting, and Claire Reid.

The recently elected homeroom officers for grade 7 are as follows: Room 207: president Betty Ryan; vice president, Marie Murray; secretary, Claire Reid; treasurer, Franklin Minton, Room 124: President, Janet Grabe; vice president, David Ryan; secretary, Dorothy Shaugnessy; treasurer, Alfred Chamberlain, Room 216: president, George Joubert; vice president, Florence Forest; secretary, Patricia Richards; treasurer, William Powers. Room 109: president, Glory Cotting; vice president, Paul Dunne; secretary, Arthur Nash; treasurer, Francis Donalds.

## WOMEN'S CLUB ACTIVITIES

Edited by EMMA D. COOLIDGE

### Readings To Entertain Guest Night

Through the courtesy of Dr. and Mrs. Guy M. Winslow, the Auburndale Review Club will hold its Annual Guest Night in Bragdon Hall, Lasell Junior College, on Tuesday evening, March 9th, at 8 o'clock. There will be Readings by Miss Eleanor Walker, and solos by Mr. Thomas Howell, Tenor, with Mr. Harold Schwab at the piano. There will be special guests from the State and Newton Federations, the presidents of Newton Club, and the Twelfth District director, for this festive occasion.

Following the program there will be a social hour in the Library.

### Pageant-Playlet Spring Fete and Other Events

On Wednesday afternoon, March 10th, at 2.30 o'clock, the Antiques committee, assisted by members of the Dramatic committee, the Club Chorus, and friends of the Newton Centre Woman's Club will present a Pageant-Playlet entitled "In an Antique Shop" by Ethel Hawthorne Tewksbury. This quaint and novel entertainment, which has a stage-setting of real antiques, is being coached by Mrs. Edward Emerson. In rhymed speech, the spinning girl, the prairie mother, and many others describe to the shop girl the days of long ago. Tea will follow the program. The cast includes Mrs. L. Sumner Pruyne, Mrs. Thomas W. Cumner, Mrs. John W. Merrill, Mrs. Willis Pattison, Mrs. Harry Sutton, Mrs. Nelson Lane, Mrs. Edwin Ward, Mrs. Kirtley Mather, Mrs. Keith Roberts, Mrs. G. B. Hamilton, Mrs. Donald Walsh, Mrs. Harold Keller, Mrs. Allen Hubbard, Miss Francis Hamilton, Miss Diana Cumner, Miss Maud Wiggins, Miss Julia Mather, Miss Nancy Sutton, and Mr. Earl Vaughn. Tickets to Club members are 35 cents; to others, 50 cents.

The International Relations committee has announced that the supper scheduled for March 15th, at 6.45 o'clock, Mr. Basil Matthews, a distinguished English statesman, who just arrived in the United States, will be the speaker, and his subject will be "Dramatic Events in England and Abroad." Mr. Matthews recently completed an important political mission in India for the British government. The address will offer a rare educational opportunity for all who can plan to attend. Reservations must be made promptly with Mrs. E. Hoyt Weston, 19 Larch road, Waban, Telephone Centre Newton 1056. Dinner reservations are 75 cents. Admission to the lecture at 7.45 o'clock is 25 cents for Club members and 35 cents for others.

A two-day Spring-time Fete, to open at the Newton Centre Woman's Club on Thursday, March 18th, at 11.15 a. m., with a Fashion Show by R. H. Stearns Company, of which event Mrs. A. Harry Hutchinson is in charge, is to have a very beautiful pre-Easter background of Spring flowers and pastel coloring. Mrs. Victor H. Vaughan, General chairman, has carried out many new ideas, heading a very large group of committees which have been busily at work since their appointment in the past summer. The Club is noted for the unusual, colorful, and artistic settings for its Annual Bazaar, and many guests from outside Newton Centre will join in this activity.

A very full program has been arranged. After the Style Show, luncheon will be served at the Sandwich Bar at 12.15 p. m., with Mrs. Robert F. Hayden as chairman. There will be children's entertainments of moving pictures, under the direction of Mrs. Donald Walsh from 1.30 to 3 o'clock; a chicken-pie dinner at 6.30 p. m.; Mrs. Victor Vaughan being in charge of arrangements; and an Auction Sale on that evening.

On Friday, March 19th, a cafeteria luncheon, with Mrs. Edwin A. Harris as chairman, will be served at 12.15 p. m.; and there will be a Card Party at 2.30 p. m., in charge of Mrs. Alden H. Speare and Mrs. John R. Perry.

On both days two professional fortune tellers will be present, and afternoon tea will be served by Mrs. E. Farnum Rockwood and her committee. All booths will be open all the time except during the Fashion Show. The regular monthly meeting of the Centre Newton Woman's Club will be held on Friday afternoon, March 12th. The Program committee announces as speaker for the afternoon Miss Marjorie Nicholson, Dean of Smith College, on the subject "Modern Trends in Education for Women." The hostesses for the coffee and social hour, at 1.30 o'clock, will be Mrs. C. Marion Chandler and Mrs. Edmund B. Loughlin. Special guests for the afternoon are to be the staffs of the private schools for girls and of the public schools located in Newton.

On Friday afternoon, February 26th, the Board of Directors of the Newton Centre Woman's Club, and the Membership and Reception committees of the Club were hostesses at an "At Home." Special guests for the afternoon were the new members of the Club and the members of the Junior Club. A delightful program entitled "Hawaiian Memories" was presented by Mrs. Arthur B. Hitchcock, president, and Miss Ann Hitchcock. Following this, tea was served to the several hundred guests present. In the receiving line were Mrs. Hitchcock, Miss Ann Hitchcock, Mrs.

### Lend-A-Hand Masque

Mrs. Joseph C. Fuller, of 33 Fountain street, West Newton, will be hostess for the Lend-A-Hand Masque at their Annual Supper Meeting to be held at her home on Monday, March 8th, at 6.30 p. m. There will be a brief business meeting following the Supper at which the most important subject to be discussed will be the forthcoming production of "The Princess and the Swineherd" to be given at the Newton High School on the morning and afternoon of March 13th, for the benefit of the Scholarship Fund.

Assisting Mrs. Fuller as hostess will be Miss Eleanor Hall and Miss Margaret Morgan, of Newton, and Mrs. Helen Wheeler and Mrs. Eleanor Tulloch, of Dedham.

### Social Science Club

The next meeting of the Social Science Club will be held in the Parlor of Channing Church on Wednesday, March 10th, at 10 a. m.

There will be a lecture by Rev. Newton A. Merrill. This will be a Guest Meeting. The hostesses will be Mrs. Ralph H. Angier and Mrs. Ralph W. Hall.

### Fashion Show And Bridge

On Tuesday, March 9th, at 1.30 p. m., the Auburndale Woman's Club is to hold a Dessert-Social, followed by a Fashion Show and Bridge, for the benefit of their Scholarship Fund. The Fashion Show is to be presented by Mrs. Edna B. Smith, proprietor of the Silhouette Shop, Mt. Auburn street, Watertown, and of the summer shop at Terrace Gables, Falmouth Heights. The latest in fashions will be modelled by Club members.

There will be a charge of 75 cents admission. Mrs. Lysecom A. Bruce, Jr., chairman of the American Home committee, of the Club, will present as guest speaker, Mrs. L. Bedford, Child Consultant of Wm. Filene's Sons, at the next meeting sponsored by her committee, on Monday evening, March 8th, at 8 o'clock. The meeting will be held at Bragdon Hall, Lasell Seminary. Mrs. Bedford will speak on the subject "The Mother's Place in the Home."

Refreshments will be served. A musical program, presented by a group of artists known as "The Aeolians," was greatly enjoyed at the meeting of the Auburndale Woman's Club on Tuesday. The artists included in this musical group are Minot Beale, Violin; Carl Stockbridge, cello; George Madsen, Flute; and Nellie Zimmer, Harp. Included in their program was a Harp solo, "Garden in the Rain," by Presele; and violin solo, "Air De Ballet," by Adamowski; "Ave Maria," by Schubert-Wilhelm, and "Malagena" by Sarasate. The group numbers included "Barcarole," by MacMillan; "Canto Amoroso," by Sammartini; "Flight of the Bumble Bee," by Rimsky-Korsakov; "Melodie," by Gluck; "Dance of the Comedians," from "The Bartered Bride," by Smetana; Ballet Music from "Parysatis," by Saint-Saens; and "Sonata in G Major," by Valentin.

Mrs. Edward Dona Kendall, chairman of the Music committee, served as Day chairman.

Tea was served by Mrs. Silvanus Smith, chairman and members of the Hospitality committee. Mrs. James Dunlop, first vice-president, and Mrs. Henry F. Keever, a director, officiated at the tea table.

Mrs. Edward B. Gray, president, made the announcement during the business session that preceded the afternoon's program, that a tea for new members would be held on March 24th.

### Various Programs Of Interest

Newton Centre Garden Club

The March meeting of the Newton Centre Garden Club will be held at the Newton Centre Library on Monday, the 8th, at 10.30 a. m.

There will be a Horticultural Round Table discussion of "Annuals Best Suited to This Climate and Soil. Where to Obtain Them, and the Method of Propagation." Members of the Club will exchange information gained by personal experience and suggestions obtained from the best authorities.

Auburndale Garden Club

Mr. Paul Dempsey, of the Waltham Field Station, is to be the guest speaker at the next meeting of the Auburndale Garden Club on Monday, March 8th, at 2.30 p. m. The meeting is to be held at the home of Mrs. Benjamin W. Pepper, 30 Cheswick road, Auburndale.

Mr. Dempsey has chosen as his subject "Looking Forward to a Better Garden."

Newtonville Garden Club

The Newtonville Garden Club met on Thursday morning, February 25th, at 10 o'clock, at the home of Mrs. Warren K. Brimblecom. Mrs. Robert E. Bruce presented a paper on "Delphinium."

The Newtonville Garden Club will meet on Thursday morning, March 11th, at 10 o'clock, with Mrs. Carl W. Somers, 100 Hull street. The speaker will be Mrs. Anna Gale Scott, who will speak on "Backyard Gardens."

Christian Era Study Club

Mrs. Arthur Desoe will open her home, 15 Ware road, Auburndale, for the meeting of the Christian Era Study Club on Monday, March 8th, at 3 p. m. Miss Susie C. Johnson will give a paper on "Kagawa of Japan."

The Club meeting planned for March 29th will be omitted, due to the recent death of the secretary, Mrs. Harry D. Perkins, who was to have read a paper on that date for the program.

Newton Community Club

Mr. James Ernest King will be the speaker at the Newton Community Club meeting on Thursday, March 11th, in the Underwood School Auditorium.

Mr. King is associated with The Boston Evening Transcript as an editorial writer. He is recognized as a brilliant commentator on matters of public interest.

The "Art Corner" will be of special interest on this day as the Art chairman, Mrs. Edgar G. Lehmann, has planned an Exhibition of Dolls and Costumes. Mrs. Frank Denison will be in charge of the social hour following the meeting. The last lecture arranged by the Conservation and Gar-

## Y. M. C. A.

The Newton "Y" acted as host to the Employed Officers Fellowship of the Young Men's Christian Association of Massachusetts and Rhode Island on Thursday, March 4th. The principal address of the morning session was given by C. Elwood Drake, Director of the Y. M. C. A. in the Newton Public Schools, on "Social Education". In the afternoon, Sherman L. Smith, Advertising Manager of the Boston Sales Company of East Greenwich, Rhode Island, spoke to the group on "How Can We Best Present Our Message to the Public?" Members of the Woman's Auxiliary of the Newton Y. M. C. A. served the dinner and looked after the decorations.

Mr. Newton C. Burnett of Waban has presented to the Newton "Y" a very beautiful cup to be known as the Novice Squash Racquets Cup. The name of the winner of the Novice Tournament is to be inscribed on the trophy each year, but that winner will not be allowed to compete in the same tournament the following year. Mr. Burnett represents the Newton Y. M. C. A. on the Tournament Committee in the Massachusetts Squash Racquets Association, and played on the winning team which brought the Class D Trophy to the Newton "Y" in 1936.

The Annual Mother and Son Dinner, held under the auspices of the Woman's Auxiliary of the "Y", will be on Monday, March 8th, at 6:15 P. M. Music will be furnished during the dinner by the Newton WPA Orchestra. The speaker will be Leslie L'Hollier, ex-Flight Commander of the Royal Air Force, Commander of the Massachusetts Air Corps, and also personal pilot to Lawrence of Arabia. His subject will be "Flying Experiences in Mesopotamia and Egypt."

The New England A. A. A. U. Wrestling Championship will be held at the Newton Y. M. C. A. on Saturday, March 13th, starting at three o'clock. Olympic wrestling rules will be used. The classes to be contested are 115 lb., 125 lb., 135 lb., 145 lb., 155 lb., 165 lb., 175 lb., and heavyweight. Newton "Y" will be represented by a strong team. Other meets which are coming in which the Newton team will compete are the Open Meet sponsored by the Quincy "Y" on March 20th, and the "Y" Two State Championship at North Adams "Y" on April 3rd.

As a result of its defeat 37 to 36 by Upper Falls M. E. in a Church League basketball game at the Newton "Y" Thursday evening, Elliot Congregational dropped to a second place tie with Newtonville M. E. Newton M. E. holds first place with seven wins and but one loss. Other games played are Newtonville M. E. 35, Grace Episcopal 30; Newton M. E. 50, St. John's M. E. 32. Standing:

Team	Won	Lost	%
Newton M. E.	7	1	87.5
Elliot Cong.	6	2	75.0
Newtonville M. E.	6	2	75.0
Upper Falls M. E.	3	5	37.5
Grace Episcopal	2	6	25.0
St. John's M. E.	0	8	0.00

Next Thursday at the "Y" Grace Episcopal plays St. John's M. E.; Upper Falls M. E. meets Newtonville M. E.; and Elliot Congregational plays Newton M. E.

The Newton Y. M. C. A. Track Team defeated Brockton "Y" in a dual meet Monday evening at Newton 45 to 32. Newton took six first places out of nine events. ## Driver of Truck That Killed Woman Found Not Guilty

In the Newton court last Friday Judge Murray of Milford found the driver and owners of a truck which fatally injured Mrs. Josephine Simmons at West Newton, on January 15, not guilty on various charges. The woman was about to board a bus at Washington and Prospect sts. at 6:38 a. m., that date when the truck driven by Paul Keegan of Broadway, Somerville, hit her. She died later at the Newton Hospital of her injuries. Keegan was charged with driving so as to endanger the lives and safety of the public. William and Anne Driscoll of 178 Atlantic ave., Boston, owners of the truck, were charged with allowing the vehicle to be operated with defective equipment.

Serg. Carl Cullen of the Newton police testified that the brakes on the truck were in good condition, but both headlights were defective. The truck was cracked, bent downward and inward. The left headlight was bent outward. Cullen said that Regan, the driver, admitted the headlights had been in a defective condition for about a week before the accident. It was dark when Mrs. Simmons was hit.

## Purse Snatcher Robs Newton Woman

Lena Hazen of 8 Rockland st., Newton, was held up and robbed of her purse on Monday night at the corner of Jewett and Rockland sts., near her home. The robber, who was a red sweater and a cap, grabbed the purse from the woman's hand and fled toward Boyd st. The pocketbook contained about \$10 in cash and some keys.

## APPLETON WILLIAMS

Appleton P. Williams of 102 Erie avenue, Newton Highlands, died suddenly of heart failure in the Worcester union station on February 24. He was born in Providence 70 years ago and was a graduate of Brown University. He was prominent in the insurance business and had been associated with the Equitable Life Insurance Company. He served in the Legislature as a representative from Upton. Mr. Williams was moderator of the Newton Highlands Congregational Church and had served as president of the Mass. Sunday School Association. His funeral service was held at Newton Highlands Congregational Church on Saturday and burial was in Swan Point Cemetery, Providence.

## WINTER VEGETABLES

With improved methods of cooking and preparation for vegetables, many are coming to eat more and more of them. It is much less common to hear of sulfur and molasses taken in the spring than it used to be. The widespread use of vegetables and fruits is in a large degree responsible for this. New vegetables are being developed all the time and housewives are learning how to prepare the old standbys so that they are more attractive and palatable. Nutrition specialists say that if food money is limited it is well to plan the diet around milk, vegetables and whole grain cereals. Probably the most valuable and least expensive vegetables to be used in the low-cost diet are the potato, cabbage and tomato.

It is desirable to have two servings of vegetables every day, in addition to potatoes. Vegetables give minerals which are needed to keep bones and teeth in good condition and to give protection from certain deficiency diseases. They all contain vitamins which promote growth and regulate the body processes.

Vegetables help to give variety and color and appetite appeal in winter meals, which may be a little less interesting than summer ones when there is a larger variety. Use raw vegetables often. It not only saves time but it gives some vitamins which may be destroyed if the vegetables are cooked.

Faneuil Fruit Exchange carry practically every known vegetable and fruit whether in or out of season at their Newtonville store.

## Invention to Grow Hair At Community Barbers

Details of a machine designed to grow hair have been interesting patrons of the Community Barber Shop at 421 Centre st., Newton, for the past several weeks. A Crosley Xervac machine, now in operation there, is the invention of Dr. Andre A. Cueto of Cincinnati and is manufactured by the Crosley Radio Corporation.

A course of treatments will stimulate and promote the growth of hair, according to Mr. Percy Trundle, proprietor of the Community Barber Shop. The mechanics of the Xervac are quite simple. A helmet is placed over the head, covering the scalp. Through connections to a motor-driven pump and air reservoirs, controlled suction or vacuum is applied for 12 seconds. This causes the blood to flow from the arteries into the capillaries or small blood vessels in the scalp, distending them and filling them with fresh blood. Then the cycle changes and air controlled under pressure is applied in the helmet, forcing the blood out of the capillaries into the veins for a period of eight seconds. Three times each minute this cycle takes place.

The result of this treatment is that the capillaries, hardening and drying so that they do not feed the hair follicles properly, are stimulated into performing their normal functions. Following the treatments the blood vessels naturally continue to function more normally

**Community Meeting  
At Upper Falls**

About a year ago a group of Upper Falls Citizens met at the R. W. Emerson School and later accompanied by nearly two hundred residents went to City Hall in an endeavor to obtain a Community House for the village.

The officers of this committee have been working upon this project throughout the year and on Wednesday the residents met at the R. W. Emerson School to discuss with Mr. Ernst Hermann, Supt. of the Playground Department the community's needs for the youth and adult residents for recreational activities.

The use of the R. W. Emerson School is available for Tuesday and Thursday afternoons and any evenings with a part time worker provided to supervise the activities.

**Newton Archers Elect  
Officers at Annual Meeting**

The 24th annual meeting of The Newton Archers took place at the Newton Centre Playhouse on Saturday, Feb. 27th, 1937. The meeting was called to order by Pres. B. M. Harrison, after reading of reports and activities of the club for 1936 by the secretary, Mrs. D. E. Goldich, election of officers for 1937 took place. The new officers are Pres. W. E. Long, Newtonville, Vice President A. Ralph Talley, Newton Highlands, Secretary and Treasurer, Mrs. D. E. Goldich, Newtonville, Executive Committee, Miss Ruth Brewer, Newton Highlands; Dr. C. P. Moulton, Boston. Nearly a hundred members and friends were present at the meeting and the exhibition that followed it. Many interesting exhibits of rare bows and arrows, old and new books on archery, old prints and new pictures, trophies, scrap books, arrow heads and a beautiful collection of stamps having to do with archery were enjoyed. Mr. Russell B. Hoogerhyde, many times national archery champion and Mr. Jas. F. Waterman of Belmont International Archery champion, Mr. Prentz of Melrose, former Editor of the Youth's Companion, Mr. Louis B. Smith, Secretary National Archery Association, and Mrs. Lyman P. Whitney were among the speakers.

**NEWTON UPSET BY BOS.  
ENG. IN STATE MEET**

Newton High's great track team, struggling to extend a record of twelve straight major meets without defeat, finally was upset last Saturday on the Boston Garden track by Boston English High. The Boston champions surprised even their own following by placing Walter Hall and John Ballantine one-two in the 600-yard run, an event dominated by Newton's Joe Gallant earlier in the season. With this reversal of form swinging the balance their way, English gathered every possible point in their march to the team title, scoring 28 5/6 points to Newton's 22.

To offset the loss of the state title Don Enoch's athletes put two new records in the books. Paul Forte ran the semi-final and the final heats of the 50-yard dash in 5.5 seconds, taking a tenth off the record, and helped the eight-lap relay team set the new meet record at 2m. 25.9. Outside these two events, Newton scored eight points in the broad jump and five in the high jump.

Pescosolido Beats Old Record  
The high jump record was hoisted to 6 ft. 5-8 in., but it was Ralph Ryan of English and not Newton's sophomore, Smitty Pescosolido, whose name goes under the new mark. Smitty twisted his ankle last week at Andover, and rested it all week. Then, after having it expertly taped at Harvard, he showed up for the state meet. Every jump hurt, but Smitty was over on his first try at 6 ft., beating the old record even with his game leg. Mark Messier was third at the very good height of 5 ft. 11 in., a jump that equals the old Newton High record broken only this year by Pescosolido.

Forte had to better his trial jumping to win the final of the broad jump, his mark of 19 ft. 7-8, in a little more than one inch ahead of Ed Dugger of Medford. Newton's Rick Massell, at 9 ft. 9-5 in., had half an inch on Leonard of Boston English, to take third place.

Joe Gallant led all the way in his heat of the 600, after a battle for the lead on the first lap, and led Milton Swartz of Everett to the tape in the good time of 1:30.6. But when Walter Hall of English ran a wild second heat in 1:16.6 equalling Mascianica's great running of last year, English was definitely on the way to the title. Another English ace, John Ballantine, won the third heat in 1:18, after Captain Bob Muther of Newton had led away with a blistering pace for three laps. Muther tied up badly on the bell lap, but his time was 1:21.9, better than the race indicated. Elmer Ross, who swapped events with Bob Muther, won the fifth trial heat in the 300 in 34.7, then drew the unlucky outside lane for the final. Stanley Livingstone of Brookline ran a beautiful race to defeat Twomey of Medford and Ryan of English in that final, and his time was 33.7. Just three-tenths off Bud Wittens record for the heat 1000-yard race developed in the fifth heat, in which the pick of the entries were assembled. Carmen Bova of Lowell set a new record at 2:19.7, trailed by Piscione, Everett, and Holland of Trade. Bill Kelly kept Newton in for six laps, but couldn't keep the pace. Basil Babcock led Charlie O'Connell of English in 2:37.5, outrunning several boys who had beaten him in previous meetings. Babcock ran fourth after one lap, was third three laps from home, and had a thirty yard gap between him and O'Connell with only 250 yards to go. Fifteen yards back of the leader when the bell for the last lap sounded, Babcock passed him on the last bank and beat him out with a strong finish.

Forte had a close call in the dash semi-final, beating Watson of Brockton and Masters of Lynn Classical by somewhat less than a nose. In the final he was clearly the winner by a foot, leading Leonard, Montgomery and Watson, three Negro sprinters. Wesley Taylor of Roxbury Memorial set the new Class B dash record at 5.5s, keeping step with the Class A sprinters. Both final dash heats were run in faster time than the final of the Quadrangular college meet a few hours later, won by John Donovan of Dartmouth in 5.6s. In the great B. A. A. meet run a month ago, Marty Glickman of the U. S. Olympic team covered the same 50 yards in 5.4.

Bill Bassett of West Newton scored for Cornell in the two-mile run in the Quadrangular meet Saturday night at the Garden, won by Dartmouth. Bassett was second to his teammate, Herb Cornell, and had a comfortable lead of fifteen yards over Yale's great Wilbur Woodland at the finish. Cornell's winning time was 9m 35.6s, a new meet record.

Coach Don Enoch of the Newton High track team was out of school Monday, not with a headache, but with a bothersome sinus cold. Far from gloomy over the fact that Newton's long string of victories was at an end, Don considers it a real relief to be free of the strain of seeing his team through one hard-won victory after another. "We'll have a lot more fun from now on," says Enoch. "But don't get the idea that we won't be fighting to win every meet."

Brookline High's director of athletics, Tom Hines, paid young Smitty Pescosolido no small compliment when he called him "the prettiest high school jumper I have ever seen." Hines has seen many good high jumper develop, including Brookline's Al Swartz and Bob Hartmann. Likewise, Don Enoch got considerable pleasure out of Stan Livingstone's great front race in the "300" final for Brookline's only first in the state meet. It was the last appearance for Stan in the Garden as a school runner.

**OUR LADY'S HIGH WINS  
SIXTEENTH STRAIGHT**

Finishing their greatest basketball season in history, Our Lady's High School of Newton defeated St. Mary's of Lynn at Newton Monday 47-22 for their sixteenth straight victory. They already had won the championship of the Catholic League. It was the last game for Father Haley's sharpshooters, all of whom will be graduated in June. Although they were bid both to the New England Catholic high schools tournament at Taunton and the national round-up in Chicago, Our Lady's will pass up both events, and will not play again. They will be treated at a public victory banquet at the school, probably April 14th.

Our Lady's scored 35.9 points per game, topping the Catholic League with 575 points, while opponents scored 243 points. Francis "Chicken" Morris, tall center, led the league individual scoring list with 176 points, and Mario Marino was close behind with 112. George Delaney was the league's high-scoring guard, with 112 points. Louis Baccari made 49 points and Fran Doherty 30. When the league all-star team is chosen, three or four O. L. stalwarts cannot be overlooked.

**Newton Highlights**

The National A. A. U. Junior track championships will be run off at Providence tomorrow night, and there is a strong possibility that Don Enoch will be there with his two best bets. Although they will run unattached, and will not be representing the high school, it will be interesting for Paul Forte and Bill Pescosolido to compete with club and college athletes. Last year Warren Wittens won the national junior low hurdles title at Princeton, and five years ago Stan Johnson won the national junior broad jump at Lincoln, Nebraska. However, this is the first time Don has taken his protégés to a national indoor meet.

Harvard's great hockey team, which has lost only to McGill this season, was beaten Tuesday night at the Arena by Brae Burn Country Club. The game was played under regulation conditions, although it was not on the team schedule, and only a few bystanders saw the clubmen win a 2-2 victory. Johnny Garrison and Gordon Smith, former Olympic team players, and George Owen, former Newton High, Harvard and Boston Bruins star, were the outstanding Brae Burn skaters.

One unfortunate angle to Newton's defeat Saturday in the state meet was the fact that Don Enoch, Newton's popular coach, was quoted early in the week in a Boston paper to the effect that the school track program here is monotonous, and that the individual leaders were pretty well decided after the first meet. Newton's unpredictable upset by the fast-improving English High team took away some of the force of this opinion. One thing has been well established this winter, which is the deadliness of the Eastern Seaboard Relay carnival as conducted at present. It is too long, unvaried, and dull. Another year it will have to be changed, or it will die a quick and natural death. It could be made an attractive meet, with special invitation events and fewer round-and-round numbers.

Don Enoch estimates that Paul Forte ran a 33-second 300 yards in Newton's great relay victory in the state meet. Newton's quartet of Bud Hines, Forte, Jerry Allen and Bob

## Mayor Childs 1937 Budget Estimates Favor Economy

### Many Salary Increases Asked For and Disapproved

The estimate of City Treasurer Newhall for clerical assistance expenses of his office totalled \$16,330. The Mayor cut this to \$14,955. The office expenses estimate of Mr. Newhall were \$8300; the Mayor lopped this figure to \$4950. The only change made by the Mayor in the estimates of the Assessing Department was lopping \$300 off the \$4400 asked for temporary clerks. Edward Dungan, director of Soldier's Relief, asked for \$60,000 for this purpose. The Mayor reduced this sum to \$55,000. The budget estimates of City Clerk Grant were not changed by the Mayor except for a reduction of \$52 from the \$9228 asked for clerical assistance.

In the Engineering Department salary increases were recommended for nearly all of the assistant engineers and for the clerk. Mayor Childs disapproved of most of these increases, and reduced the item for engineering assistants from \$33,212 to \$31,164. In the Public Buildings Department the Mayor did not approve of four increases of \$100 each recommended by the Department for four inspectors, and a similar increase for the Supervisor of Buildings. The item for the maintenance of school buildings was cut by the Mayor from \$67,050 to \$57,000, and for other city buildings from \$18,800 to \$15,800.

In the Police Department recommendations the Mayor cut the item for new automobiles from \$9587.65 to \$7900; for new radios from \$1839 to \$1000 and for radio parts from \$400 to \$100. The item of \$6000 for a revolver range was not approved by the Mayor.

In the Fire Department budget Chief Randlett asked a \$1 weekly increase for the clerk at headquarters. The Mayor disapproved, as he did in increases for clerks' salaries asked by several other departments. The Chief asked \$14,000 for new apparatus. The Mayor lopped this recommendation off. In the Welfare Department budget, Director Reynolds estimated that \$280,000 will be required for poor outside the city infirmary (or home). The Mayor cut this figure to \$225,000, but this estimate will most likely have to be increased during the year. The item for mother's aid and aid to children was cut from \$50,000 to \$40,000 and that for old age assistance from \$75,000 to \$70,000.

In the School Department budget salaries were increased from \$1242, 127 required in 1936, to \$1,275,600.85. Executives of the School Department are allowed \$700 "out of State" expenses. Vocational School salaries are \$64,752.72 for 1937. Last year they were \$56,948. Two items were cut by the Mayor. One of \$680 to buy woodworking equipment; the other of \$318.81 to buy a stereotypewriter. In the Library Department the Mayor cut the item for assistant and pages (Continued on Page 2)

## Booklet Adds \$1500 to N'ville Library Fund

From the proceeds of the sale of the booklet, "The Story of Newton," written by John R. Prescott, the Newtonville Library Building Fund has received more than \$1500. The information is contained in a letter to the GRAPHIC citing Mr. Prescott's public service from George W. Taylor, president of the Newtonville Library Association. Two reprints of the booklet were made necessary by the demand and a total of 10,200 copies were published.

The letter is as follows:

To the Editor:

I would like to call attention to an example of conspicuous public service. When the long talked of movement for a branch library in Newtonville began to make progress about two years ago, John R. Prescott, wishing to show his deep interest in the project, conceived the idea of producing a booklet covering historical features of the City, the proceeds from the sale of which he would contribute to the Library Fund.

Single handed, he collected material, secured cuts, wrote the story, incurred the liability for the publication, and marketed the finished product. The booklet, "The Story of Newton," intensely attractive and interesting, was sold by Mr. Prescott, not on a charity contribution basis, but for value received, and the demand from banks, real estate agents, business houses and individuals was such as to require two reprints and resulted in a total sale of 10,200 copies.

Mr. Prescott has submitted his final accounts and turned over to the Building Fund the sum of \$1,504.79. In making his report, he modestly says "while the carrying through of this has involved much painstaking work, it is worth all the effort it has cost. Also it may possibly serve to stimulate others in advancing the good work already done."

Mr. Prescott, over 80 years of age, with youthful zeal and energy has given us a rare example of public service and his achievement should help materially in the raising of the funds necessary to complete the Library Campaign.

Sincerely yours,

GEORGE W. TAYLOR,

President Newtonville Library Association.

## Rev. R. T. Loring To Leave Waban

Rev. Richard T. Loring, for the past eight years rector of the Church of the Good Shepherd, Waban, has tendered his resignation, to take effect on April 12. He has accepted a call to become rector of St. David's Church in Roland Park, Baltimore, Maryland. Rev. Mr. Loring graduated from Harvard in 1924 and from the Episcopal Theological School at Cambridge in 1929. He is married and has three children.

## Survey of Pre-School Children Is Planned

At a meeting of the Newton Board of Health on Monday night it was voted to ask the State Department of Public Health to conduct a survey of the health needs of children of pre-school age in Newton. A national survey recently made states that Newton is far below the standard set by other cities of comparable size in providing for the care of pre-school children's health and was given a rating of only 50 percent in the survey referred to. The survey by State health officials is asked for in the expectation that it will result in Newton giving more attention to children under school age.

Licenses to keep fowl were granted to the following—Louis Lochiatto, 180 Adams st., Nonantum, 50 fowl; Patrick Faherty, 155 Winchester st., Newton Highlands, 50 fowl; Arthur Nash, 9 Lewis st., Newton, 3 fowl; John Carey, 102 Staniford st., Auburndale, 400 fowl. Carey was also given a permit to keep a cow.

A delegation of Newton milk dealers came before the Board to protest against a ruling recently made by the Newton Health Department which requires that on the caps of milk bottles delivered in Newton shall be printed the names of the places where the milk is pasteurized. The dealers want the place of pasteurization designated by number rather than specified by name.

Owners of two markets at Upper Falls were warned about having stale fish for sale and threatened with prosecution if they repeat the offences.

## Aeroplane Forced To Land On Athletic Field

Monday afternoon about 4:30 an airplane piloted by Charles Tubbs, 23, of Warwick, Rhode Island, made a forced landing on the high school athletic field at Newtonville. Riding in the plane with Tubbs was Norman Bishop, 19, of Johnston, R. I. The pair had taken off from the East Boston airport shortly before, and while approaching Newton motor trouble developed. Tubbs circled over the city looking for a safe landing place and picked out the athletic field as the best in sight. He made a good landing. The trouble with the motor was supposed to have been caused by a defective magnet.

The plane was a rebuilt Waco with a Ford V-8 motor and had been flown by Tubbs from Rhode Island to East Boston to have the air vehicle licensed. The plane was owned by Philip Williams of Providence. Tubbs stated that he had won prizes in gliding contests in New England. The airplane was parked on the field Monday night and on Tuesday it was dismantled. Tubbs had intended to make a take-off from the field, but, because of the steep ascent which would have been necessary in order to clear trees near the field, officials decided it would be too hazardous to attempt the take-off. The dismantled machine was loaded onto trucks and taken to Providence on Tuesday.

## Newton Centre Dogs Must Be Restrained

The legal controversy over restraining orders placed on several Newton Centre dogs came to an end last Saturday when Judge Harry Fabian of Brighton, who presided at the hearing, sustained Chief Michael Hughes of the Newton police, and informed the owners and keepers of the five dogs involved that the restraint orders would continue.

The orders were issued on complaints made by Edmond Poulin of 16 Everett st., Newton Centre. Mr. Poulin had complained to county authorities that four large dogs owned by Charles W. Bond, 112 Gibbs st.; Mrs. Otis Johnson, Dalton rd.; Priscilla Ordway, 111 Gibbs st., and Malcolm Dunn, 106 Gibbs st., and a Great Dane dog kept by George W. Pratt, of Chestnut ter., had been trespassing on his property and damaging it. The owners of the dogs asked for a hearing to have the restraining orders nullified, and Mr. Bond, an attorney, represented the owners at the hearing. The hearing started on Saturday, Feb. 27; a second session was held on Monday, March 1st, and the case was continued to a third session held last Saturday.

Mr. Poulin testified concerning the damage done to his lawn and shrubs by the dogs, and the owners of the animals testified that their dogs had been kept reasonably restrained and were not vicious. It was brought out in the testimony that Poulin had acquired a small, female, Chihuahua dog several months ago, and it was alleged that this was the real reason the dogs had been frequenting the Poulin estate.

Judge Fabian ruled that Poulin had made the complaints in good faith, without malice, and with justifiable cause. He told the dog owners that the State statute on this matter is clear, and that he must be governed by the statute. He also informed them that they have no appeal from his ruling. Mr. Bond asked that the restraining orders not be made permanent, inasmuch as the dogs are not vicious.

## West Newton House Burned

The residence of Benjamin Monaghan, 3 Auburn st., West Newton was damaged to the extent of \$3000 on Monday morning by a fire which started near the stove in the kitchen, and mushroomed up through the dwelling. Motorcycle Officer Dowling of the Newton police noticed smoke issuing from the house at 9:58 and pulled an alarm from Box 352. Mrs. Monaghan, who was on the second floor of the house, also noticed the smoke and rushed across the street to inform her husband who was in his garage.

The firemen were slightly delayed when a hydrant near the Monaghan house would not work because of a defective valve. This necessitated hose lines being attached to a hydrant near the Warren School and one further down Auburn st. While fighting the fire Hoseman Frank Turner of Engine 4 received a severe cut on one of his hands and was taken to the Newton Hospital for treatment.

## Col. Roosevelt To Speak At Scout Meeting

Scout Leaders of Norumbega Council Newton and Wellesley will hold their Mid-Winter Council Meeting on Saturday evening, March 13th at City Hall, Newton. The guest of honor at the Council Meeting will be Colonel Theodore Roosevelt, Vice-President of the Boy Scouts of America, who will address the Scout Leaders on development of Scouting throughout the years. It is expected that almost everyone of the 400 Scout Leaders of Newton and Wellesley will be present to hear Colonel Roosevelt. This group will be augmented by some 40 "Den Mothers" who are active in promoting the younger boy program of Cubbing.

The meeting will open with a dinner at which President William V. M. Fawcett will preside. Speakers at the dinner will be Ralph H. Nodine, Regional Scout Executive of New England; Honorable Edwin O. Childs, Mayor of Newton; Honorable J. Austin Peckham, Chairman Board of Selectmen of Wellesley. Group singing and district activity will comprise the balance of the dinner program.

Following the dinner the group will adjourn to Memorial Hall where reports covering the year's Scout work in Norumbega Council will be presented and a Troop of Scouts will present a special Jamboree Pageant dedicated to the National Jamboree at Washington, D. C. in July of this year where 30,000 Scouts will be in attendance, and the World Jamboree to be held in Harlem, Holland, in August. At the National Jamboree, Norumbega Council will have a contingent of two full Troops of 36 Scouts each and will also send two full Patrols to Holland.

## Quincy Man Given Newton School Job

Alfred Nelson of Suomi rd., Quincy, was appointed on Tuesday as engineer at Newton High School. The appointment to this position was supposed to be given to a Newton resident but when the list of eligibles was received from the Civil Service Commission, no Newton resident had qualified. The first three names on the eligible list were those of Fred Hardy, Allston; Leo Kant, Roxbury and Harry Blagdon, West Roxbury. Nelson was fourth. Blagdon declined the appointment.

The first man on the eligible list is 65 years old and Newton's pension system has 60 years as its age limit. Mr. Nelson was considered better qualified than the second man on the eligible list, George Kellar, assistant Superintendent of Schools, made every effort to find a Newton resident qualified to take the examination and received the position.

## Petition For Fuel Tanks at Nonantum

At the meeting of the Board of Aldermen on next Monday night a hearing will be held on the petition of Frank Fisher, Jr. for a permit to install five 5000 gallon fuel oil tanks at 296a California st., Nonantum. A hearing will also be held on the petition of Joseph Switzer to increase the gasoline storage at his station, 441 Watertown st., Nonantum, from 2000 to 4000.

## Newton Man Found Dead In Garage

Homer W. Aiken, 50, of 618 Centre st., Newton, was found dead in the garage at that address on Saturday night. His death was caused by carbon monoxide fumes. He is survived by his widow, Mrs. Estelle Aiken. He was a native of Gloucester and had lived in Newton for about 10 years. His funeral service was held on Tuesday afternoon at Elks' Home, Newton; Rev. Mr. Anthony officiated. Burial was at Gloucester.

## MAYOR NAMES NEWTON TRAFFIC SAFETY COUNCIL

Mayor Edwin O. Childs announced this week the persons who have been notified that they have been named for the purpose of creating a Newton Chapter of the Massachusetts Safety Council. The list includes several members of the Mass. Safety Council including General Daniel Needham and Alfred S. Miner, the superintendent of schools, the acting principal of the high school and the principals of the four junior high schools, Chief of Police Hughes, and others well-known in the Newtons. A meeting will shortly be called at which further plans for the promotion of traffic safety in the Newtons will be formulated.

The list given is as follows: Edward H. Powers, Alfred A. Miner, Charles S. Warren, Paul C. Scarborough, Kenelm Winslow, Raymond Green, William E. Pike, Mrs. Irving O. Palmer, Mrs. J. Earle Parker, Mrs. Albert S. Hutchinson, Samuel T. Emery, General Daniel Needham, Fred P. Hayward, Michael T. Hughes, Hon. Thomas Weston, James B. D'Angelo, Col. Henry D. Comerai, Herman Wells, James J. Cooney, Russell V. Burkhardt, Raymond W. Blaisdell, Haydn S. Pearson, Clarence E. Churchill, Mrs. Louis H. Marshall, Ralph Cohn, Rupert C. Thompson, Don M. Leonard, J. Edward Theriault, Charles E. Smith, J. Joseph Ward, Richard J. Dunn, Julius Warren.

## Legion Guards Win Trophy in Maine Drill

### Defeat Kora Legion of Honor Before 3,500 at Portland

The Newton Legion Guards, the drill team of Newton Post No. 48, American Legion, won the competitive drill against the Kora Legion of Honor before a crowded assemblage in Exposition Building, Portland, Maine, on Saturday last.

The affair, the most brilliant and colorful seen in Portland for years, was sponsored by the Kora Temple Legion of Honor.

Preceding the competitive drill, eight crack units, representing Maine American Legion organizations, Kora Temple, and Deering High School, exhibited their specialties before the crowd. Gov. Lewis O. Barrows of Maine, members of his staff, army officers, and Legion notables.

Exhibitions were also given by Miss Jean Budding, Newton High School senior, Massachusetts State baton champion, and also by Miss Maureen Maloney, drum major of the Harold T. Andrews, Junior Drum and Bugle Corps.

The judges of the competition were Major Ervin E. Doane, Fifth U. S. Infantry, Major Arthur Waldron, Eighth Company, Coast Artillery, and Col. George E. Fogg, 240 Coast Artillery, Maine National Guards. The judges unanimously named the Newton Guards the winner, and Gov. Barrows of Maine presented a beautiful trophy to Capt. J. Joseph Ward of Newton and his winning drill platoon of Newton Legionnaires.

The Newton group were given a most cheerful send-off by Mayor Edwin O. Childs, who gave Commander Leon Mayor two letters, one to be delivered to Gov. Lewis O. Barrows of Maine, and the other to Mr. James E. Barlow, City Manager of Portland, Maine.

## Strong Opposition Against Business Near City Hall

About 100 persons attended a public hearing held by the Claims and Rules Committee of the Board of Aldermen at City Hall on Wednesday night on the petition of Israel Nesson of Brookline who wants land he owns opposite City Hall changed from single residence to business zone. The land extends from Walnut st. westerly and is bounded by Commonwealth ave. and Lakeview ave. Mr. Nesson had submitted plans showing a large development which included a number of stores and a large apartment building. He contends that the locus is not adapted for single residences and properly belongs in business, and that if stores and a large apartment structure were erected there, the city will derive much more revenue from taxes than it will from several small dwellings. Mr. Nesson argued that because of the distance from other business sections, a new business area is needed near City Hall, and that the locating of city hall nearby, changed the area from residential to business.

James C. Irwin of Highland ave., speaking for the Newtonville Improvement Association said there are three business areas now within a mile or so of city hall and there is no need for another. Fred L. Edmonds of Lakeview ave. opposed Nesson's plans either for a theatre, stores or apartments. He said he had moved from Madison ave. 3 years ago because business had encroached near that street. Harry H. Kay of 93 Beaumont ave. said Newton has the most beautiful city hall in America and there would be a horrible mess of automobiles parked near it if a business zone is created. Joseph Leddy of 614 Walnut st. took exception to Nesson's argument that a beauty parlor is needed near City Hall. He said there are now eight beauty parlors near City Hall.

Others who spoke against Nesson's petition were representatives of the Newton Federation of Women's Clubs, Waban, Lower Falls, Chestnut Hill and Newton Centre Improvement Associations. A letter was received from Sylvanus Smith favoring an apartment house at the location.

## Want Business In Residence Zone

The Claims and Rules Committee of the Newton Board of Aldermen has before it for consideration a petition from Leo Quint of Union st., Newton Centre for a permit to be allowed to use a cement block structure at 171 Austin st., Newtonville as an upholstery shop. The building was erected in 1922 and was used for some years as a machine shop. It has been idle for sometime. It had been operated under the non-conforming clause in the zoning ordinance, but cannot be used for another type of business without a special permit being granted by the Aldermen.

## Man Drops Dead After Bowling

Gerald I. Carper, 36, of 20 Gammons rd., Waban, died suddenly of cerebral hemorrhage at the Waban Community Club about 9:50 Wednesday night. He had been bowling with his wife and friends. Doctors were summoned and the crew of Ladder 2 tried to revive the man with a pulmonary. Mr. Carper was a graduate of M. I. T. and was employed as a salesman by the General Electric Company. He is survived by his widow; two daughters, and his father.

## A FINANCIAL BENEFIT

Some thirty years ago the present Justice Louis D. Brandeis, convinced of the need for a low-cost, low coverage insurance policy for small wage earners, conceived a plan of savings bank life insurance. After several years of discussion of the plan the Legislature in 1907 passed the enabling legislation upon which Savings Bank Life Insurance is founded. The growth of the plan in the past three decades has more than demonstrated its desirability. Recently the Newton Savings Bank became the twenty-fourth institution of its kind to become what is known as a "writing" bank for such insurance. For some years it has been an agency for handling information, premiums, and other details for other "writing" banks. The writing of this insurance locally with other banks in the city becoming co-operating agencies augurs well for the future of the small policy holder here. Where there exists an opportunity for our financial institutions to benefit residents of the city in a financial way every means possible should be taken to promote such a plan. It is a community enterprise which, with education, can readily be demonstrated to be of tremendous benefit.

## A CONSPICUOUS EXAMPLE

As an example of public service the interest which John R. Prescott has shown in Newton and particularly the proposed Newtonville Library Building is conspicuous. It has just been announced that the final accounting of the proceeds from the sale of Mr. Prescott's booklet, "The Story of Newton" has added more than \$1500 to the building fund. Mr. Prescott has set an example of industrious application to the building of a better community which we all might strive to duplicate.

## TWENTY-FIFTH ANNIVERSARY

Today is the twenty-fifth anniversary of the founding of the Girl Scout movement in America. Patterned somewhat after its slightly older brother, the Boy Scouts, the opportunities the movement has brought to the girls of the nation are immeasurable. It has promoted their health, character development, and many avenues of training in the arts and crafts. The Girl Scout movement is one to which many parents point with great pride in the development of their daughters. May it continue to advance toward its goal for many years to come.

## Claffin Club To Hear Talk on Communications

Mr. James C. Fair, General Commercial Engineer of the New England Telephone and Telegraph Company, will address the members of the Claffin Club of the Newtonville Methodist Episcopal Church on Friday evening, March 19.

Sound film motion pictures will be shown describing ship to shore telephone service, radio network broadcasting, and modern communication methods used by police.

A musical program will be presented by the members of Northeastern University Glee Club under the leadership of Mr. Charles A. Sewell.

## Tip Top Open House Continues Over Week-End

Due to the tremendous response to the advertisement of Tip Top Cleaners and Tailors in last week's Graphic this wide awake firm has found it necessary to continue their Open House and Modernization Specials through this week end. So many Newton residents found it advantageous to avail themselves of their offer of last week that it necessitated the employing of two additional girls. Tip Top has also added to their facilities two new trucks to enable them to more efficiently service their steadily increasing number of satisfied customers.

## Discuss Savings Bank Insurance At Meeting

A meeting of representative Newton citizens, including bank officials, heads of various industries, and directors of welfare work, was held Wednesday evening at the Brae Burn Club. The gathering was called to discuss savings bank life insurance and its aspects as affecting Newton citizens. Frank L. Richardson presided and told of the recent decision by the investment board of the Newton Savings Bank to become a writing bank for this form of life insurance. Other Newton banks are to become agencies for the handling of information, premiums, and other details in connection with the plan. The Newton Savings Bank becomes the 24th bank in the state to become a writing agency. The first bank was the Whitman Savings Bank nearly thirty years ago on a plan originated by the present Justice Louis D. Brandeis.

The eminent jurist at that time saw the need for a form of low cost, small coverage policy for wage earners and in 1907 the Mass. Legislature passed the enabling legislation which set up the basis plan. It is estimated that insurance written by the savings banks results in a great savings to the small policyholder and it is with this view in mind that local banking officials and others are seeking to promote a movement which will tend towards the making of a better community.

Mr. Richardson introduced Lincoln Filene who expressed the value such a plan of insurance has upon a community and of the facilities which are available for the promotion of the plan. Mr. Judd Dewey, Commissioner of Savings Bank Life Insurance in Massachusetts, gave a detailed description of the workings of the plan and many comparisons of costs with other insurance policies. The interest of the gathering in the subject was shown through the questions which were put to Mr. Dewey following his talk. Representatives of industries in several communities which have had this form of insurance in their plants for varying periods of years told of their experiences in connection with it.

The formation of a local committee to promote the movement will be undertaken within a short time and further announcements will then be made.

## Mayor's Childs Budget Estimates

(Continued from Page 1)

salaries from \$44,500 to \$43,750; and the item of books and periodicals from \$19,000 to \$18,000. In the playground Department the Mayor agreed with every recommendation made by Supt. Hermann.

In the Street Department budget the Mayor did not agree with recommendations for numerous salary increases asked for foremen, inspectors and clerks. He cut the item for snow removal from \$80,000 to \$75,000 and increased the item for resurfacing streets from \$10,000 to \$13,000. The item for new equipment was cut by the Mayor from \$82,633 to \$15,000. In the Water Department budget the Mayor lopped off an item asking for an additional clerk and for salary increases for two clerks. He approved of the other recommendations of Commissioner Murray.

The Mayor did not follow the recommendations submitted several months ago by the Finance Committee of the Aldermen regarding reclassification of salaries on clerks and employees in a number of departments. The committee made an extensive survey of salaries paid to the employees and submitted to the Mayor lists giving the names of the employees, the nature of the work they perform, their length of service and recommendations for salary increases. The committee undertook this survey because of many requests which had been made on the Aldermen by numerous city employees and department clerks who want more wages. Some of the employees and clerks contend they are receiving lower salaries than others doing the same work, or even other clerks who have less responsible positions.

The Finance Committee suggested to the Mayor that there be a classification of salaries and standards established, and that the compensation of employees be made more equitable.

The report of the committee recommended many salary increases to inspectors in the Public Buildings Department, assistants in the Engineering Department, foremen and inspectors in the Street Department, engineers in the Water Department. It also recommended step-rate increases to maximums considerably above the present salaries, based on schedules received from the State Civil Service Commission and on salaries paid in some other cities.

The Mayor told the committee he would take its report under consideration. In his budget recommendations he did not see fit to follow the suggestions of the committee's report on the salary increases. The Mayor states he has requested department heads to prepare classifications of salaries for clerks and employees.

## Podiatrist Opens Office At Newton Centre

Dr. Charles J. Merna recently established offices in the Stuart Building, Newton Centre, where he is welcoming old and new clients.

Dr. Merna is a graduate of the Boston Institute of Podiatry and the New England Foot Clinics. He has formerly conducted a practice in Boston, and has a large Boston and suburban clientele.

Arch correction, muscular strain, as well as ordinary chiropody are among the various cases that come to Dr. Merna's attention.

## Newton Forum Reelects Officers

At a recent meeting of the Steering Committee of the Newton Community Forum officers for the 1937-38 season were elected. Dr. Kirtley F. Mather will again be president and Walter M. Taylor the secretary-treasurer. The executive committee: Dr. Mather, Mr. Taylor, Mrs. Francis J. Flagg, Dr. William T. O'Halloran, Mrs. Ben H. Badenock, Mr. Russell V. Burkard.

Committee chairmen were elected: finance, Kenneth S. May; publicity, Mrs. Waldo C. Peebles; speakers, Mrs. Ruth Wolfe Fuller; music, D. Ralph MacLean; reception, Miss Dorothy Barstow; ushers, Mrs. Ellis Spear, Jr.; program and printing, George L. White; junior committee, Miss Juliette Harvey; nominations, Frederick B. Eastman.

Mr. Taylor reported that 20% more families subscribed to the season membership tickets this year than last year, and that the attendance at this season's eight meetings totaled 7250 persons, an increase of nearly 100% over the previous year. This increase would place Newton in 5th place in attendance among 54 other unsubsidized and unendowed Forums throughout the country.

## "Irish Night" At Middlesex Court

Middlesex Court, M. C. O. F. held an "Irish Night" on Tuesday night, following its meeting at Elks Hall. About 250 were present. Moving pictures of Ireland were shown through the courtesy of the Cunard White Star Line. Patrick J. Lally of Brookline entertained with Irish songs; Jack Murphy sang "Pennies From Heaven"; Gentle and McDonald, Newtonville's character comedians gave a sketch, Miss Helen Cahill of Newton gave a humorous monologue, and William McCrystal of Medford, High Inside Sentinel of the M. C. O. F. urged the large number of young people present to become members of the organization. Dancing followed. The committee in charge included Miss Mary D. McDonald, Thomas Fitzgerald and James McDonald.

## Lend-a-Hand Masque To Give Children's Play

All who have read Andersen's fairy tales will remember "The Princess and the Swineherd"—how Prince Charming disguised as a Swineherd won the Princess with the aid of his magic cooking-pot. This is the theme of the play the Lend-a-Hand Masque has chosen for its youthful audience this year. The production will be the eighth since the club was formed in 1928 as an outgrowth of the "Lend-a-Hand Dramatic Club of Boston."

The latter organization was the first of its kind in Boston to give plays for children. "The Princess and the Swineherd" will be given in the Newton High School on Saturday, March 13th, with a morning and afternoon performance. As usual, the proceeds will be given toward a scholarship for a Newton High School girl. Newton people prominent in the large cast are Mrs. Joseph C. Fuller, Mrs. Walter T. Tower, Miss Ruth Perkins, Miss Eleanor Hartel, Miss Jill Beckwith, Miss Helen White, Miss Isabel Skipwith and Miss Margaret Morgan. Others in the cast from Brookline and nearby towns include Miss Elizabeth Hamilton, Miss Phyllis Bergen, Miss Katherine Hastings, Miss Edith Quinn, Miss Georgia Burford, Miss Margaret Arnold, Miss Dorothy Johnson, Miss Bertha Chase and Mrs. Eleanor Tulloch. The extra parts and Court Ladies will be cast from the members of the newly-formed Junior Masque, an auxiliary group of High School girls.

The play is under the direction of Mrs. Eunice Braaten of Dedham. Mrs. George S. Fuller of West Newton is a large costume committee; Miss Virginia Joss of Brookline is in charge of scenery; Miss Ruth Perkins, tickets; Mrs. William Prescott of Sudbury, Business Manager and Miss Muriel Pearce of Brookline, Program and Publicity.

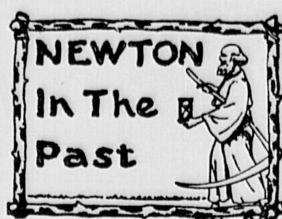

## Woman Not Guilty Of Reckless Driving

Mabel Atkinson of Hopedale was found not guilty by Judge Allen in the Newton court last Friday on two charges made by Patrolman Charles Mague. Mague complained that the woman failed to slow down the speed of a car at the corner of Washington and Elm sts., West Newton on February 18 and that she allowed another person to interfere with the operation of the car. The latter complaint was made because there were two other persons and a baby occupying the seat with the driver. The car driven by the Atkinson woman collided with a car driven by George Gordon of Jamaica Plain. Mague was riding with Gordon when the collision occurred.

Judge Allen found Mrs. Atkinson not guilty. He commented that a criminal court should not be used to help in a civil case.

## Liquor Dealers To Confer With Comm.

Friday afternoon at 5:30 a conference will be held at City Hall between members of the Newton License Commission, a delegation from the Newton Package Store Dealers Association and persons interested in the regulation of the sale of alcoholic liquors. The conference is being held at the instigation of the liquor dealers and one of the matters to be discussed will be alleged violations of the liquor laws by certain drugstores in this city.

62 YEARS AGO

Newton Republican, March 20, 1875

The City Council has more talk this year than last. It doesn't take much of a question to create a discussion of an hour. Time is of no account when once the subject gets started.

The committee to which was assigned the duty of awarding the prize for the best essay on "Beautifying and Improving the City of Newton," have attended to the same and hereby make this report.

"While no one of the ten essays submitted to them comes fully up to the hopes and expectations of the committee, they are entirely unanimous in the opinion that the paper presented by Dr. D. D. Slade of Chestnut Hill is superior to any of the others."

(Signed)  
J. F. C. Hyde, Chairman; Increase N. Tarbox, George H. Jones, Otis Pettie; Henry Ross.

At the meeting of the Board of Aldermen on Monday afternoon petitions were received from Michael Keillher and others asking for the acceptance of West, Chapel, Green, Middle and Cook streets in North Village; from H. W. Phelps to run a railroad track across Beacon st. to carry debris away from the tunnel being excavated for the Boston water works; from John Nevins for damage resulting from defective culvert on Chapel street; from Walter Allen calling attention to the disgraceful condition of Lincoln and Walnut streets, Newton Highlands.

The highway committee of the Aldermen reported favorably on the petition of John Worcester for a concrete sidewalk on Highland avenue, Ward 2, the same not to cost over \$200. The committee recommended a sidewalk on Bowers street, Ward 2, not to cost more than \$75. The committee on Street Lights reported that 610 coal gas lights cost the city each \$29 annually, and 255 naphtha lights cost \$18 each yearly. They believe a great savings can be made by substituting naphtha lamps for coal gas and ask authority to contract with someone to furnish said naphtha lamps.

Among the bills passed by Congress near the close of the session was one giving a pension increase of \$24 per month to Stillman Spaulding of Newton Centre. He was granted a pension of \$6 per month in 1866 for a gun shot wound in his shoulder. In 1871 he lost his right leg as a consequence of disease resulting from the gunshot wound. He deserved recognition at the hands of the Government.

50 YEARS AGO

Newton Graphic, March 12, 1887

Dr. Utley came out this week with a handsome, new doctor's carriage with all the latest improvements.

Joseph Harris has sold out his barber shop to John T. Burns who has been his assistant for so long. Mr. Burns is to put the shop in first class order and make it an attractive place. Instead of having to wait hereafter, patrons will be served promptly as assistants will be kept and the shop will be opened at 6:30 a. m. for the accommodation of business men.

At the meeting of the Board of Aldermen on Monday night a large number of petitions were received from citizens asking that the principal streets and squares of the city be lighted by electric lights. Upper Falls was heard from in a petition headed by H. W. Fanning stating that the streets of the village are poorly lighted and asking that they be partially illuminated by electric lights. Alderman Harwood presented a petition signed by over 40 prominent residents of Ward 7 asking for electric lights. Other petitions were received from Auburndale and Newtonville taxpayers asking for electric lights.

At the meeting of the Aldermen on Monday night Alderman Hollis submitted an order from the Committee on Street Lights recommending that a contract be made with the Newton Electric Light and Power Company for 30 arc lights from April 1st to June 1st, and for 71 arc lights from June 1st to January 1st; said lights to be lighted from sunset to sunrise on 20 nights in each month, or when the moon did not light the streets, at a cost not to exceed 50 cents a night per light. Alderman Ward asked where the proposed lights will be placed? Alderman Hollis said it had been planned to place 12 lights in each ward, but the number would have to be scaled down proportionately. A map had been made by the City Engineer showing the proposed location of each light.

Alderman Pettie made a lengthy speech in which he said he represented those who have to pay the tax bills. He thought any appropriation for electric lights this year will be but an entering wedge, and more will be demanded every year. Some had suggested cutting down other highway department appropriations so we can pay for electric lights. This would mean cutting down the pay of laborers in this department or throwing out of work. Electric lights are a radical change and he did not see the need for it. We have got along so far with gas lamps and can get along in the future. Mr. J. W. Stover was called on and said that on dark nights when the moon was supposed to shine, but didn't there had been no lights at all because it was impossible for the gas company to send out its lamplighters and have the streets lighted at such short notice.

## Powers' Paragraphs

President Roosevelt is determined to pack the Supreme Court so that he can overcome the opposition of the judges who have been balking such progressive movements as the NRA and the minimum wage law. His efforts to secure control of the Court have aroused the ire of conservatives all over the country. So far as progressive labor legislation and concessions for the masses of the people are concerned, the President, his supporters and his foes, need not worry so much about the Supreme Court. John Lewis and his C. I. O. appear to be rapidly changing things.

Newspapers throughout this country have received a communication from the Post Office Department ordering them not to publish the lists of winners of the Irish Sweepstakes or any other lottery, and to send written assurance to postmasters that they will not print such lists.

The Irish Sweepstakes lottery is conducted twice or three times each year. Other similar lotteries are conducted a couple of times each year. One pays from \$1 to \$2.50 for a ticket in these lotteries. The great majority lose, but they only lose a few dollars during the year. A trifle compared to what our respectable citizens who are bridge addicts lose (or spend) during a year in satisfying their gambling lure.

But, the ridiculous thing about the closing of the mails against any publicity regarding the big lotteries is the fact that newspapers are permitted to print pages and even special editions regarding horse and dog races. The most complete details are given regarding the gambling odds and results. Horse and dog races are legalized gambling, infinitely worse in their effects on the American people than lotteries. Instead of gambling a couple of dollars two or three times a year, gambling on horse and dog races is conducted every day, except Sundays, the year around. The minimum bet is \$2 on each race and there are eight or ten races every racing day at each track. So, instead of losing a few dollars a year as on lotteries, many of the millions who have been sucked into the horse race gambling craze lose many dollars day after day, neglect their business or their employment by travelling daily or frequently to race tracks. We haven't read of public employees or men employed by private corporations who have stolen thousands of dollars to bet on lotteries, but, we have read of plenty.

## ONE THING AND ANOTHER

By L. D. G. BENTLEY

Is the Fun Gone?

If the Legislature sees fit to make it legal to rent a bicycle on Sunday, heretofore a criminal offense, I suppose nothing I can say of do will affect the situation. As is the custom in this country, no sooner was the so-called "old blue law" enforced than people began thinking of ways to get around it. Evasion of both the spirit and letter of State and Federal statutes is a leading industry with many and there is seldom complaint of repression.

When the craze to ride bicycles returned with a rush last year (or was it two years ago?) there came a demand for rented "bikes". Few wanted to put out money enough to own a machine but many were willing to leave a small deposit (to be returned, of course) and expend a specified sum for use. As it could not be legally done on Sunday the transaction began Saturday, when the "wheel" was rented and concluded the following Monday, when it was returned to proprietor.

As exhilarating as a ride on a bicycle proved to be, many got as much thrill from evading the Sunday law in the manner already described. Not that every enthusiast had such thoughts in mind but a lot of folks believed it smart and got a good laugh out of it. Now, with a law that permits bicycles to be rented on Sunday, will there be a falling-off—in business, not from the saddle—and will they be as much interested in Sunday bicycling? I cannot answer, but it seems to be just one of those things to prove there's nothing like the American way.

Uncommon Honesty

Offsetting the drab stories that appear in the press now and then of the rifling of telephone pay station coin boxes comes a pleasing example of honesty in this very same connection. We all have been informed, through police records, of the way petty thieves stuff these coin boxes in both quarters accumulate. They then go around and release the plug, letting loose a handful of change. With a number of visits at various booths a fair-sized haul is made. Here, however, is an instance where the thieves lost out completely. A business man of standing happened to use a pay station where thieves had evidently done their preliminary work. Unexpectedly, through some twist of the mechanism, he encountered a small shower of money. Being in the first principles a good citizen he forwarded the money to the telephone company. I have no knowledge how the company received it but feel they must have been grateful if not surprised.

Happy Harmonica Players

When I read of the proposal to hold a civil service examination for harmonica instructor in the Newton Playground Department my thoughts drifted

to my boyhood days when there was one or more harmonica soloists in every group of boys. I could not master the instrument myself, though I was something of a drummer. Yet I enjoyed the mouth-organ melodies and to today. O, yes, there's plenty of pleasing music in them. Proof of that is the official recognition by Newton that children should have a teacher.

The boys I played around with and who distinguished themselves "just blew it up" but they were skilled in the art. Gathered on a street corner—I lived in a thickly settled city then—the boys would respond to the strains of the harmonica with a sort of shuffling dance. It was never an exertion and if the night was chilly it kept the boys warm. Often I have seen the player using one hand at a time, the other thrust in his pocket to shield it from the cold. But harmonica music always meant happiness to me and does to all youngsters, say I.

Professional harmonica players have numerous clever stunts, including varied forms of manipulation that are better appreciated when seen. I have watched a man play a guitar accompaniment to his harmonica tunes. The latter instrument would be set in a frame that fitted his head, leaving his arms free for the guitar.

It isn't often that I encounter a harmonica player. I'd like to meet them more frequently. If Newton playgrounds are going to produce these soloists I hope it may be my privilege to be invited to hear them.

Listen and Learn

There isn't any question but what attendance at public lectures on current topics provides listeners with opportunity to gain knowledge or at least new ideas. One need not be in full sympathy with the speaker, either. Having attended many lectures in the course of my pursuit of a living wage and also because I hoped to be enlightened and entertained, I have wondered how many of the audience "got anything" out of the speaker's words. Some seemed attentive, some casually interested and some indifferent.

Now, however, I have reached the conclusion that more people than we think derive benefit under such circumstances. The other evening, when I called on a local family, life-long friends of mine, it was revealed that the wife gathers many opinions, facts, fancies and whatnot from the lectures she quite frequently attends. She showed me a sheaf of notes made during the course of several years. Points that interested her and she desired to remember she had jotted down. Altogether her gleanings made a collection decidedly worth possessing. In answer to my questioning she declared that this semi-reportorial task was not work but rather a pleasure. Furthermore, she knew of a number of women who did the same thing. Well, there was something that hadn't occurred to me so I made a note of it.

## LUCY JACKSON CHAPTER, D. A. R.

The Lucy Jackson Chapter, D. A. R., held the regular monthly meeting on Monday, March 8, at the chapter house in Newton Lower Falls with the regent, Mrs. J. Walter Allen, presiding.

After the opening exercises, little twelve year old Marianne Cappadona sang most delightfully two selections. She was accompanied at the piano by Mrs. Florence Wood Russell.

The regent introduced Prof. Robert Parkin, Ph.D., who spoke on "Forgotten Men of History." He said some men are remembered by a single episode in their career, which may have been only a minor incident as compared with their other achievements.

Such a one was Cornwallis, whom Americans think of only as the general who surrendered his sword at Yorktown, while the English esteem him for memorable services in India and in the English parliament.

Sometimes a man looms large in his own time and even does much for succeeding generations who may be quite unmindful of his great work. Sir William Johnson came to Amer-

ica and settled in what is now New York state. At that time fur trading with the Indians was a most important industry and upon the proper attitude towards them depended the success of the fur trade. He was made commissioner to the Indians and by his friendliness and tact with them and his efficiency in organization, he established a most satisfactory situation.

It is unfortunate that a man should be remembered longest for his evil deeds and leave to history an unsavory name. Such is the fate of Niccolò Machiavelli, the unscrupulous Florentine politician, whose philosophy is the forerunner of modern Fascism.

## NEWTON CIRCLE

The March meeting of the Newton Circle, Inc., of the Florence Crittenton League, will take place at the home of Mrs. Phillip K. Brown, 112 Monadnock rd., Newton Centre, next Monday afternoon at 2:30. Mrs. Horace Skilton is to be the speaker and following the meeting tea will be served.

## Girl Scout Birthday Poster

This is the composite portrait by Lawrence Wilbur of a Girl Scout, that familiar girl in green who, born on March 12, 1912, in Savannah, Ga., celebrates her 25th birthday this year in 4,366 American communities. There are now nearly four hundred thousand members in the Girl Scout organization which Mrs. Juliette Gordon Low founded so unobtrusively a quarter century ago. Mrs. Franklin Delano Roosevelt is honorary president of the Girl Scouts and Mrs. Herbert Hoover, who joined the movement in 1917, is national president.

## Junior Class Play Of Sacred Heart High School

On Tuesday evening, March 16, at the Women's Club, Newton Centre, the Junior Class of the Sacred Heart High School will present the sparkling comedy, "Paddy, the Next Best Thing."

The leading roles are played by Mary D. Uhl and Fred R. Condon, and other members of the cast include Louis A. Mulkern, Agnes M. O'Grady, Robert E. McCourt, Mary E. Roberts, Mary A. Conway, Gertrude M. Mueller, Charles J. Quirk, John J. M. Morrison, Margaret E. Maloney, Mary E. Sheehan, Margaret A. Ellingwood, Clement J. Hasenstus, and Mary A. Waters.

Included in the dances and choruses are Henry J. Wessling, Charles J. Simpkins, James J. Galvin, William P. De Bourke, Bernard J. McGrath, Warren P. O'Neill, William R. D'Angelo, George O. Chapman, Joseph G. Calnan, Walter F. MacInnis, John W. Casey, Lawrence J. Simpkins, Edward J. Bouzan, Catherine V. Burke, Catherine A. Boylan, Jacqueline E. Habel, Mary E. Leahy, Catherine E. Coffey, Eleanor K. Murphy, and Esther D. Coffey. Bernard A. O'Donnell will be trumpet soloist.

The guest of honor of the evening will be Bishop Francis J. Spellman, pastor of the Sacred Heart Church.

## To Form Boy Scout Troop At Lower Falls

Mr. Maxwell P. Gaddis, Dist. Commissioner, spoke on the work of Boy Scouts at a meeting of the Newton Lower Falls Improvement Association on Monday night in the Hamilton School. Rev. Roger W. Bennett, Harold Bruce and Montague Knott were appointed as a committee for the purpose of selecting a scoutmaster and forming a Boy Scout Troop for Newton Lower Falls.

The association also appointed Henry Corcoran, chairman of the Civic Committee to represent the Association Wednesday night at the hearing to protest against the changing of property around City Hall from a residential to a business zone.

The members of the Association are gratified that the Waban bus line has been extended to Lower Falls as its members headed by Daniel Corcoran were sponsors of the change.

President Francis A. Tanner presided at the meeting.

## N. C. Improvement Ass'n Plans New Improvements

The Executive Committee of the Newton Centre Improvement Association held a meeting Monday evening in the Newton Centre Library Building. The Association is at present working on several problems involving the physical improvement of the Centre, and the committees in charge reported progress on most of them. The new fence along the Tyler terrace side of the Playground has been completed; the end of the Webster dump and the beginning of the Webster Playground is in sight; and with the spring the plans for the re-landscaping and replanting of the park about the Memorial Flagpole are to go forward. A committee is working for a solution of an appropriate use of the piece of property on Crystal Lake formerly occupied by the ice-house, which burned sometime ago.

Plans were made for the annual meeting, which will probably be held April twenty-first. Vice-President Otis D. Fellows has assumed the duties of President Nevins, who resigned when it became apparent last fall that he would be in Florida for most of the winter and spring months.

## Girl Scouts

The Girl Scouts of Troop 18 Auburndale are celebrating the twenty-fifth anniversary of the founding of the Girl Scouts in the United States with a Father's and Daughter's Supper at the Congregational Church on Monday, March fifteenth, at six-thirty. A feature of the supper will be the lighting of the candles on the birthday cake by Eleanor Sampson and Betty Gardner, the oldest and youngest members of the troop. Among the invited guests are Mrs. Walton S. Redfield, Commissioner for Newton, Miss Margaret E. Adams, Local Director, Miss Kathleen Twombly, Field Captain and Mrs. Frederick D. Goode, village chairman for Auburndale. Following the supper movies of Camp Mary Day, Four Winds, and Wind-in-the-Pines, will be shown.

Troop 13 had an International Party to which all the parents were invited. Mrs. Waterman, the Personnel chairman, and Mrs. Kenneth Crafts. They have completed their work for the World Knowledge Badge and each girl is to give an act about the country she studied. The party was held Tuesday, March 9th, at Captain Rand's home on Gibbs street, Newton Corner.

On Saturday, March 6, nine girl scouts of Troop 18, Auburndale, with Captain Adelaide B. Ball and with Mr. Earle F. Pearson and Mr. Norman S. Wade a leader, spent the day at Wapack Lodge, New Ipswich, New Hampshire. After short climbs in the morning, a hot dinner was served at the lodge. A real climb up the ski trail to the top of Barrett was the big event of this trip.

A Fashion Show will be presented by the Newton Girl Scouts at the Newtonville Women's Club on Wednesday, March 17, at 2:30 in the afternoon. Tea will be served. The committee in charge consists of Mrs. John C. Duff, Mrs. A. H. Meyer, Mrs. F. L. Pierce, Mrs. Walter Phillips, Mrs. Louise Steltz, Mrs. Charles Burke and Mrs. Horace Kidger.

## A Lecture on Christian Science

Entitled

### Christian Science: The Revelation of Spiritual Power

PAUL STARK SEELEY, C. S. B.  
of Portland, Oregon

Member of the Board of Lectureship of The Mother Church,  
The First Church of Christ, Scientist, in Boston, Massachusetts

An authorized lecture on Christian Science was given under the auspices of First Church of Christ, Scientist of Newton in the Newton Centre Woman's Club House Thursday evening, March fourth.

Mr. Raymond Wilson, First Reader, introduced the lecturer as follows:

"Friends:

First Church of Christ Scientist of Newton, Massachusetts welcomes you tonight. A Christian Science lecture is always a happy occasion and if we all open the door of our thought to this lecture we will surely take away enlightenment, a greater measure of helpfulness to our brother man and a surer application of the healing power of Christ Truth.

Our lecturer this evening will speak to us on the subject "Christian Science: The Revelation of Spiritual Power." He is a member of The Board of Lectureship of The Mother Church, The First Church of Christ Scientist, in Boston, Massachusetts and it is my happy privilege to introduce to you Mr. Paul Stark Seeley, C.S.B., of Portland, Oregon."

The word "power" occupies a place of growing importance. The greatly increased development of machinery for manufacture and transportation, and of appliances to lessen labor on the farm and in the home has multiplied many fold the use of electrical power. It is estimated that there is today in the United States an average of one installed mechanical horsepower—the equivalent of ten man power—continuously working for each of us.

Great as has been the development of electric and other mechanical power, but a small part of the available physical power has yet been harnessed. The reason is that men have not discovered how to do so. An expert says if the sunlight which falls on the earth's surface in one minute of time were harnessed it would supply the world's present heat and power requirements for an entire year. This vast supply of solar power is just at hand. Ignorance as to how to lay hold of it deprives us of the fuller use of it.

But our most vital needs cannot be supplied by any amount of electrical power, or solar energy. Who would say that electricity—as useful as it is—can change an unhappy mentality into a happy one, a diseased body into a healthy one, contentious mortals into peaceful ones, or a sin-enraptured thinker into a wholehearted man? Christian Science teaches that the power of God can be supplied only by Mind power. This vital, spiritual, and intellectual power Christian Science shows us is immediately available to each individual. Men have not yet discovered how to use the vast energies of the sun, but the way has been discovered to utilize the limitless power of eternal Mind, and this power is being systematically used in Christian Science to supply health, goodness, and harmonious being. It is with this limitless power of supreme intelligence, God, and its immediate availability to you and me that this lecture deals.

#### The Meaning of Power

What is power? Where is it, and how can you and I lay hold of and use it? These are the important questions. Power is the native ability of creative Mind to constitute, maintain, and govern its infinite manifestation, spiritual creation and man. Says the Psalmist, "Power belongeth unto God," and Paul says, "There is no power but of God," and "The kingdom of God is of God, and of His power." God is often referred to in the Bible as the Almighty. To be almighty, God must possess all the might there is, that is, have all power. Then to find real power men must find and know God. Mrs. Eddy speaks of "spiritual understanding—the true knowledge of God—as imparting the only power" (Miscellaneous Writings, p. 3). If you wish to possess the power to solve mathematical problems, you obtain it by acquiring an understanding of the principle of mathematics, by opening your thought to mathematical facts. In the proportion you understand mathematics, you possess the ability to solve mathematical problems. The understanding of mathematics includes the power to demonstrate mathematical rules. The understanding of God reflects God's power. You reflect God's power as you understand the Life, or divine Principle, which we call God.

#### God is All That Is

Since all power is with God, and we possess it only as we understand God, it is of first importance that we have a correct concept of God. God, Christian Science teaches, is not anywhere in matter, is not in what we think of as the sky, the earth, or the sea. God is not in the material sense of universe. God is Mind, Spirit, and Mind. Spirit, cannot be in its opposite, the negative and material order or consciousness. God's creation is not material, but spiritual, and so never findable in the material concept of existence. Said Jesus, "God is a Spirit; and they that worship him must worship him in spirit and in truth." Much of the confusion in religion has arisen because men have supposed God to be where He is not; have tried to conceive God as something which eye can see, or material sense can grasp. Darkened material thinking cannot commune with or understand the divine intelligence or Mind which is God, but as you think spiritually you find your mental oneness with the presence and nature and substance of the source of spiritual thinking, God, Love, Mind.

Christian Science teaches that God is not merely an important factor in

creation. God is the sum of all that is real, intelligent, the totality of true Mind, including its every manifestation. "God," says Mrs. Eddy, "must be found all instead of a part of being" (No and Yes, p. 12); also, "God is everywhere, and nothing apart from Him is present or has power" (Science and Health, p. 473).

#### Mind Power Is the Messiah

Christian Science teaches that the power of divine Mind is the Saviour, or the Messiah for humanity. Jesus explained and proved that the spiritual power of the Father, divine Mind, is the Saviour of men from the ignorant, mindless, material forces which are evidenced in sin, sickness, and death. Said he, "The Father that dwelleth in me, he doeth the works." In other words, divine Principle or Mind, operating in the human consciousness accomplishes the subjection of every evil force and condition which would contradict the supremacy of God. Mind-power accomplishes this saving of men by enlightening, that is, educating them out of material, ignorant thinking into spiritual, God-empowered thinking.

#### Man Endowed with God's Power

Christian Science is in accord with the Bible teaching that man's real being is not in, or limited by, a material, organic body, but is the individual expression of Spirit, Mind, God. As God, Spirit, cannot be found in the material order, no more can God's man, the expression of God, be in matter, the opposite of God. Physical science attempts to find life in material, chemical elements, physical organs, physical sense, and physical action, and makes no headway at all in its attempt. Recently a well-known physical scientist expressed his conclusion, resulting from many years of endeavor to discover what man is, in these words: "Man is an ensemble of one million billion specialized amoebae (cells) tied together with unknown bonds." Surely this is not a conception of man which aids in the attainment of a truly scientific and satisfying sense of Life.

Paul says, "They which are the children of the flesh, these are not the children of God." Mrs. Eddy designates the material creation, including material man, "an enigma" (Science and Health, p. 124), that is, something that is unexplainable. Every effort of physical science to explain it, confirms the correctness of her analysis. One of the leading members of the medical profession in the United States of America recently published a book entitled, "Man the Unknown." Christian Science disagrees with the assumption that man is unknown. It teaches that both God and man are altogether knowable, but not knowable through the physical senses. They can only be apprehended through spiritual sense, the perceptive power of eternal Mind. Man, as taught in Christian Science, is the individual, spiritual manifestation of God, mentally like God in quality. God, divine Mind, manifests Himself through the spiritual creation and spiritual man.

#### Power in Spiritual Thinking

If you desire electric power for your home, you establish connection with the power plant. Power is there to make your home light, but it will not force itself upon you. You must do your part in order to obtain it. So with God's power. It forever exists to enlighten man, but each individual must, by the quality of his thinking, find God's power within him. God's power is found within us in the degree that we entertain God's thoughts. They bring God's power to us. No one can ever find and use the power of God except as he thinks spiritually, for it is spiritual thinking alone that unites us with God and His unlimited power.

Men spend much time in improving the methods of agriculture, manufacture, transportation, and so on. Would that we might spend much more time in improving the quality of our thinking, and by so doing, bring our human affairs under the control of God's healing, omnipotent power. Spiritual thinking is the activity of divine power.

To Philip, Jesus once said, "He that hath seen me hath seen the Father; and how sayest thou then, Shew us the Father?" Jesus, of course, did not mean that everyone who had seen his physical personality had seen God, but what he meant was that those who were able to appreciate his spiritual qualities of thought would thereby discern the manifestation of God. "Honesty," says Mrs. Eddy, on page 453 of Science and Health, "is spiritual power. Dishonesty is human weakness, which forfeits divine help." Meekness is another spiritual quality essential to the possession of God's power. Human willfulness, like dishonesty, forfeits that power. If one is truly sincere in striving to improve the quality of his thinking, he soon learns that criticism, irritability, apathy, sinful indulgence, must be relinquished if he is ever to find God and His power. The real man reflects God in spirituality, and in no other way. God is his Mind, so man reflects God, Mind, and his thoughts express the activity of Mind.

We may not all yet be able to have clothes of the best quality, but we can all have thoughts of the highest quality, divine quality. Inferior quality of thinking is what separates us from God's presence and God's power. There is one, and only one way to limitless power; it is through thoughts of spiritual quality. Spiritual power and spiritual quality dwell together. We have the former as we entertain the latter.

#### Good Will Is God's Power

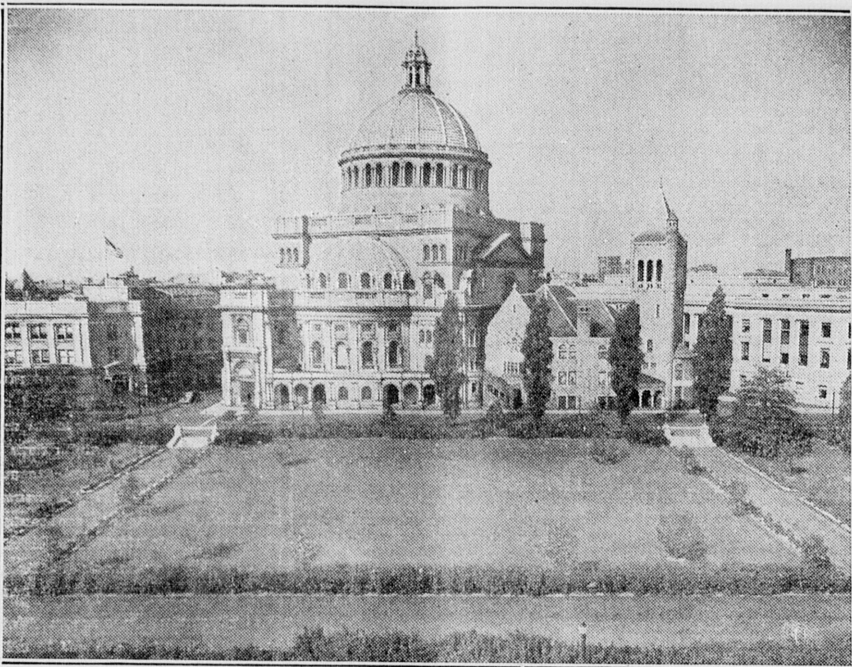

One day we were sitting in our deck chairs during an ocean voyage. Many other passengers were in their chairs on the deck near us. Some seemed not too happy. Some were evidencing an attitude of unfriendly aloofness toward their neighbors. A few were conversing in a natural way. Then down the deck came a little child with a free step, a smile that reached out to everyone, a hand that waved a greeting to all who seemed at all willing to receive it. In little more than a moment, smiles were on the faces of nearly all those passengers. A brighter light was in their eyes. Something important had happened. The power good will had touched them. They felt it, they liked it, they responded to it. The

desires from coming to fulfillment. Selfishness, self-will, apathy, material indulgence, bad temper, the letter of Science accepted as though it was the spirit of Truth, hinder the higher desires from coming to bloom.

#### God's Power Kills Fear

One of the greatest blessings that comes from the discovery that all power belongs unto God is the lessening of fear in us, and finally its complete annihilation. Why is anyone ever afraid? Simply because he believes that there is somewhere an evil and dangerous power that can in some way operate in him or on him to make him sick, subject him to accident, to loss, failure, discord. If one had to accept the testimony of the material senses such a conclusion

er, and proved that he did so by his healing works. Here was a man who without the least egotism said, "All power is given unto me," and proved his God-given capacity to use divine power to stop sinful thinking and subdue the forces that produce sickness and death. Says Mrs. Eddy (Retrospection and Introspection, p. 58), "With our Master, life was not merely a sense of existence, but an accompanying sense of power that subdued matter and brought to light immortality." Here is a good test as to how much real manhood we have found. Is ours just a sense of existence, running with the currents of material life, or are we gaining a sense of divine power, the power of vital, universal good, within us? Naturally, God, the substance, Mind, and Life of spiritual

atmosphere had changed. And all this was done in a moment of time by a little child. He hadn't tried to do it. He had had no well-laid plan. He just radiated, with unselfish spontaneity, the good will that God had given to him. Without design, without any human policy or selfish motive he brought to this group of people something of the power of love which is always just at hand to unify and to make joyously one all men. "Except ye be converted, and become as little children, ye shall not enter into the kingdom of heaven," said the Master; and no one has ever understood more clearly than he the quality of thought that unites men with the power of God.

We can all express more of that spontaneous good will expressed by this little child. There is a limitless store of this good-will power ready for us. It will unify homes, happy business, lighten life's way. The angel messengers who proclaimed to waiting thought the coming of the Christ made "On earth peace, good will to men" the theme of their proclamation. The love and good will of God to man must be expressed in the good will (the God-given will) of men, one to another. What we saw that day on the steamer's deck gave us an awakened sense of the power of a smile that comes from spontaneous, genuine, and pure childlike love. Nothing but God could produce it, and it was His power that made it affect the consciousness of all those on whom it so sweetly and innocently rested. It was the good will of God for man reflected by one of His little ones. Surely we can all be more willing to express more of this spiritual quality—the good will that is God's will—and God's gentle but mighty healing power.

#### Power Inseparable from Truth

Truth and power live together. What is true, when consciously known, reflects the power to free from what is false. The true sense of mathematics, when realized, carries in its truthfulness the power to immediately free from an ignorant sense of mathematics. So the true idea of God carries with it the power to free from ignorance of God any consciousness that accepts it. The true idea of man has in itself the power to completely free life from every misconception of man. The power of Truth operative in Truth's ideas is our savior from ignorance of what is true.

The primal quality of Truth is intelligence, so the primal quality of man, Truth's witness, is intelligence. Another most important quality is goodness. One must be truly intelligent in order to be truly good, and one must be truly good in order to be truly intelligent. Mistaken mortals sometimes think it is smart to be bad and useless to be good. Jesus expressed spiritual power because he was so genuinely good, that is God-like, in quality, so genuinely loving, just, meek, honest, and spiritually discerning. "The good you do and embody," says Mrs. Eddy, "gives you the only power obtainable" (Science and Health, p. 192). This was perfectly illustrated in Jesus' wonderful career. He showed that one embodies good by doing good and that power is inseparable from real goodness.

Tiny insects, sometimes almost too small to be seen, will prevent a beautiful rosebud from coming to bloom. The bud may be a good bud, but it is prevented from coming to bloom unless the insects are detected and removed. Sometimes in our experience we may have excellent desires. They grow and bud but they never bloom, and the reason is that bad or weak qualities of thought, often not recognized and corrected, prevent our

would seem justified. But through spiritual thinking one discovers that such a belief is not basically true because God, intelligent good, has all the real power there is. Power belongs to intelligence rightly, inevitably. And man is the individual expression of both the intelligence and the power of God. Man filled with the spirit of divine power is fearless because unassailable, beyond the touch of error's vain assumption to power. This fact recognized, one's fear goes as his understanding of God grows.

No one can actually have any fear of the power of God. God's power never harms anything true. It destroys only what is negative, false, fraudulent. God's power is always constructive, intelligent, loving, sustaining, and protective. It preserves, does not destroy; heals, not makes sick. Fear comes not from God, but from ignorance of God. His allness and power. Says the Bible, "God hath not given us the spirit of fear; but of power." "The spirit of . . . power is God's continuing gift to you and me."

In the chapter on Christian Science Practice in Science and Health, Mrs. Eddy says (p. 391), "Fear is the fountain of sickness," and (p. 411, 412), "If you succeed in wholly removing the fear, your patient is healed. The great fact that God lovingly governs all, never punishing aught but sin, is your standpoint, from which to advance and destroy the human fear of sickness." The Christian Scientist bases his thinking for the destruction of fear and disease on the divinely scientific concept of a God-governed man. This concept displaces the ignorant, material one of a fear-controlled, matter-dominated man. This foundational, spiritual fact of creation, as Mrs. Eddy in beautiful phrase tells us (Science and Health, p. 521), needs to be "engraved on the understanding and heart 'with the point of a diamond' and the pen of an angel."

The Christian Scientist knows that he has glimpsed only in a small degree the import of these truths of scientific perfection, but his hold on them grows and strengthens. He clings to them steadfastly as the cornerstone of the Science of Life. He refutes the whole argument of the material senses that his individuality is embodied in and limited by organic matter and so separated from God, and he strives to realize the spiritual fact that the only true self he has is forever superior to, and apart from, matter and forever united to God, and embodies God-bestowed power. The Christian Scientist knows in some degree, and daily declares, that his only real self is fearless because God, his only real Life and Mind, is fearless. He thinks and declares from day to day, and hour to hour, that real life reflects Life, God, divine intelligence, substance, and is the individualized activity of the power of God.

#### Real Life Includes Power

The coming of Jesus was a startling experience for those of his time, accustomed as the people were to subservience to the rule of priestcraft and of Judaic man-made law. Suddenly there appeared among them a man who had little regard for all their forms and rituals, a man who really understood God and His power.

man, empowers him with the ability and power to be all he should be, to do what he should do, as the perfect and immortal witness of the Almighty.

#### Human Will Not Real Power

The deceptive counterfeit of God's power is the human will which often seems so much a part of mortal selfhood. It is not the true motivating power of man, but is the negative, material sense of mind, God's opposite, driving and impelling mortal minds or mortal personalities. How is it that the human will comes to have so much influence over mortals? Mrs. Eddy gives the answer. "Elevating evil to the altitude of mind gives it power," states Mrs. Eddy (Christian Science versus Pantheism, p. 6). That is what we mortals have ignorantly been doing, elevating this blind, selfish, stubborn, ignorant force called the human will "to the altitude of mind." And it is not real mind at all. It urges, pushes, drives on the one who elevates it to the altitude of mind, posing as his own consciousness. Until he discovers its fraudulent nature he is deceived by it and is impelled hither and thither in ways quite the opposite of the ways of wisdom and intelligence. Human will is not Mind. It must be recognized as an alien outside the realm of Mind. A would-be usurper of the will of wisdom. You and I, then, need to be separating the human will and its impulses from our sense of Mind, for just so sure as we are willing to accept the human will as our consciousness we elevate it to the altitude of mind, and enthrone it with power over us. When you feel a willful urge to sin, to be angry, to have your own way, stop. Know that that is human will. Declare your unwillingness to elevate it to the altitude of mind.

#### True Meekness Gives Real Power

How does one get rid of the human will? By examining from day to day one's thoughts, desires, impulses. Are they expressing the will of unselfish good, God, the purposes of Love to bless and benefit all and to relate all in harmony and peace? If we are to get rid of the human will we must realize that our individuality is always false, never cause. God alone is the cause of everything that is true. We get nowhere by trying, in a blind and ignorant way, to be the cause of anything and so accomplish it. It is the prerogative of Deity. All-intelligent Mind is ever present to guide our every thought, decision, and judgment. In our true being we are not will-driven mortals but Love-governed children of God. "Meekness," says Mrs. Eddy (Miscellaneous Writings, p. 360), "moderating human desire, inspires wisdom and procures divine power." Again we see that the way to divine power is to strive to reflect the Mind of Christ. Meekness is a quality that links thought to God and omnipotent power.

Mortals foolishly strive, struggle, conspire, sometimes electioneer, to secure some human place and temporary power, only to find how empty such success is. Human place, of itself, cannot give any abiding satisfaction or sense of accomplishment. It is, though, often an opportunity for useful service. But what helps the individual is his unselfed serving, his spiritual attainments, not the place. Again many strive their lives through for material possessions, believing therein will be satisfaction. But no one has found it there, and no one ever will. Satisfaction is found in thinking of spiritual quality, not in possessing material things in quantity.

#### Evil Only Destroys Itself

Jesus refers to the evil sense of power as "the power of darkness." That is a most accurate description of the blind, devilish, destructive, ma-

terial forces. The seeming powers that frighten and terrify, the powers that often come to be habitual in impelling to sin, dishonesty, deceit, cruelty, are all powers of darkness. How many of these dark forms of negative power are we accepting? Christ Jesus and Christian Science have come to turn thought from these ignorant, satanic powers to the power of God. Fortunately evil's only power is to destroy itself. It is powerless to destroy one iota of intelligence and good. Evil, material forces may seem to wreck and destroy the lives of men and nations. But these experiences are always confined to the transient realm of material thinking of which they are a part. They appear terribly tragic to those who accept the material order as substantial and real. But they never come into, nor substitute themselves for, that realm of spiritual reality and activity Jesus was conscious of when he said, "The kingdom of heaven is at hand." A lie eventually exposes, and so destroys, itself. So does the lying sense of existence, the material sense, but it is more quickly destroyed as men learn of and realize, as did Jesus, the present intactness of the spiritual kingdom of God.

Error destroys itself, but neither your selfhood nor my selfhood is ever included in this self-destructive process. The negative, material order, its personalities, conditions, and forces, is always of itself and by itself in the realm of negative belief, and never overcomes or mingles with the kingdom of Life, Truth, and Love.

Jesus' statement, "All power is given unto me," applies to your real selfhood. He spoke what is true in regard to every real individuality, for the only agency through which the omnipotent power of God, good, can be manifested is in the true individuality of man. In "Pulpit and Press" Mrs. Eddy says (p. 3), "Know, then, that you possess sovereign power to think and act rightly, and that nothing can dispossess you of this heritage and trespass on Love." Christian Science is awakening men to realize that they constantly have "the sovereign power to think and act rightly," the power to think and live happily, healthfully, harmoniously, successfully, the inherent power to overcome the sense of sickness and the urge to sin.

As the individual expression of God, you have every right to deny all the lying, limiting arguments of matter and to realize and affirm that you have the power of irresistible, omnipotent Mind, working in you, for you, with you, to exalt, inspire, purify, and spiritualize your consciousness and bring you into joyous at-onement with omnipotent Love.

#### Human Thoughts Powerless

When Jesus came before Pilate, Pilate said to him, "Knowest thou not that I have power to crucify thee, and have power to release thee?" The Master's reply was, "Thou couldest have no power at all against me, except it were given thee from above." Pilate knew his power did not come from above. It was only the temporary power of the human law. Jesus knew so well that the power of God which was supporting him and his work was superior to all human power that Pilate's claim to power gave him no concern.

Many mortals suffer unnecessarily because they ignorantly believe that some Pilate or Pilates, sometimes a group of them perhaps, have power to do them harm, power to injure them with criticism, hatred, antagonism, or directed malice. Let them follow carefully Jesus' mental processes and know that no negative, ignorant, material thinking has one atom of power against God's man. The "power of darkness" can never deprive a candle of its own light. The candle light has a native power against which all the darkness in the world cannot prevail. No more can the darkened thinking of one mortal, or many mortals, affect the God-enlightened consciousness of one man. Between a ray of light and a world of darkness there is no contact. One is positive, the other negative. Between man, whose being is a beam of living, intelligent light, and the darkness of material, hateful, unkind thinking there is never even a momentary link or contact.

#### Mesmerism Powerless

In his well-known book, "Kim," Kipling relates how Kim protected his thought from the mesmeric suggestions of an Indian fakir by refusing to give his attention to the suggestions of the fakir and by clinging instead to portions of the multiplication table. The fakir commanded Kim to break a jar. Kim did so and it fell into fifty pieces. Then by mesmeric suggestions the fakir attempted to delude Kim into believing that the many pieces came together again, under magic power. Kim determined not to listen to what the fakir was saying but to observe with his eyes, and in his thinking to keep his thought fixed on certain parts of the multiplication table. While the fakir was making his well-calculated suggestions, Kim clung in his thought to the mathematical truths. He saw the jar broken, but it did not resume its original shape as the fakir asserted it did. He had found a defense against the fakir's mesmeric suggestions by filling his consciousness with mathematical truths.

Christian Science teaches of a defense even more scientific and so more powerful. It is to cling steadfastly to the true idea of God and your true individuality as God's perfect, individualized expression of Mind, amenable only to the power of real Mind, sensible only of the ideas, forces, and verities of this Mind, and never amenable to, or open to, the influence of a negative, mortal mind and its unintelligent suppositional activity.

Evil mental practice, sometimes designated malpractice, is as powerless against God's man as it is against God, for man is of and in God. It fails utterly by reason of its inherent powerlessness to touch or harm the affirmative consciousness that knows man's divine origin and power, and his natural, conscious at-onement with the omnipotent Mind. Evil thinking has not the smallest degree of

power from God. The one absolute intelligence cannot, and does not, ever yield its man or its power to darkness, malice, and ignorance. Where, then, can evil obtain power? It cannot obtain any real power from anywhere. Whatever power it may seem to have obtains from mortal mind, and we ignorantly believe in it, just as the dreamer believes in his dream. You may believe that a black cat, or the number thirteen, has some evil power, or that an evil-thinking mortal can hurt you with his thoughts, but fortunately your superstitious belief does not make such baseless beliefs true. You may suffer from your false belief while you entertain it, but whenever you are ready to think truthfully—ready to awaken from your dream—you can be free from it and its consequences. It is not evil that has power. It is your belief that it has power which needs to be destroyed. An understanding that God has all power will do this. Nothing else will.

It is a good practice daily to ask yourself the question, Where is power? Realize that to God, infinite, affirmative Mind, alone belongs all power. Furthermore Mind, intelligence, possesses every individual agency through which power can operate. This one Mind-power is always constructive, protective, sustaining, never harmful or destructive. Ask yourself the question, Since God has all the power there is, how much power is left for evil? None. I can then rely with perfect confidence on the power of God to protect me, to govern my thinking, my acts, my judgments. All my hopes I commit to the power of God. As Mrs. Eddy says in one of her poems (Miscellaneous Writings, p. 388), "Thou to whose power our hope we give." Let us give our every hope to God's loving, wise, all-embracing power.

#### God Is Everywhere Omnipotent

Orthodox religion has conceded God's power to overcome sin, but it has been uncertain and hesitant to admit God's power always to overcome sickness and subjugate matter. Yet that is what Jesus spent most of his time doing. In every detail of his human experience he recognized the spiritual power of good, God, whether the need was to make a sick body well, a base mentality wholesome, or to overcome the limiting forces of matter which said intelligence could not at once provide food for a multitude, and that material weight and space could separate man from the place where it was right for him to be. Mrs. Eddy cautions Christian Scientists not to "limit in any direction of thought the omnipresence and omnipotence of God" (Science and Health, p. 445).

Every moment we are thinking. Our thought goes out in a great many directions. Sometimes the direction is toward our homes, our dear ones, our businesses, employment, our church and its associations. Sometimes the direction may be along lines of recreation or education. Again thought goes out in the direction of pressing problems that demand our attention and solution, it may be supply, or the overcoming of ill-health, or the conquest of some sin or false appetite. But whatever the direction may be, we must learn not to limit the omnipotence and omnipresence of God in that direction. The varied human situations that our thought may go out toward must be seen as always subject to the omnipotence and omnipresence of God. His power and His presence made manifest in a perfectly ordered spiritual creation subdues the false belief in and fear of any situation which erring mortal mind may present to contradict the reality of His allness.

Our dear ones are supported and protected by His omnipotence, embraced in His omnipresence. Business activity is fundamentally the activity of omnipotent Mind and is truly expressed in that Mind's harmonious omniscience. In matters of church and other human associations the spiritual fact is the basis of our thought. God omnipotently working in the consciousness of all to govern, control, order, and unify for the accomplishment of His purposes.

Mortals are inclined to regard the matter of making a living as a pretty serious matter. It certainly is much too serious a matter to leave out of it the one fact that will make it a normal and harmonious undertaking. That one fact is the omnipotence and omnipresence of God. Recognize the fact that it is God's power which animates, controls, directs, supplies, and provides. See that there is no real presence but God's presence, made manifest by a universe of intelligent, Love-governed individualities. His power and wisdom operate so that "under the deific law . . . supply invariably meets demand" (Miscellaneous Writings, p. 45). Your living does not come basically from some person, or some company. It comes from God. So let us trust in God's power or presence to provide for you. To be sure, the supply may appear through some human agency, but always it is basically made possible by the power and present activity of intelligent Mind, God. Trust that Mind and have no other trusts. Neither possessions nor persons are the source of supply, but always the one omnipotent Mind that constitutes all, possesses all, and provides for all by working in, governing, and constituting all.

#### The Bible a Message of Power

Jesus was a student of the Bible, or so much of it as was then existent. He studied it because he knew the value of the ideas it presented. He deplored ignorance of the Scriptures among the people, and to that ignorance attributed their erroneous ways of living and thinking. On one occasion he said, "Ye do err, not knowing the scriptures, nor the power of God." Had they known the Scriptures, they would have known "the power of God," for the Scriptures exist to acquaint men with spiritual power. "The central fact of the Bible is the superiority of spiritual over physical power" (Science and Health, p. 131). Mrs. Eddy was a deep student of the Bible, and she admonishes Christian Scientists to habitually study the Scriptures. "The Bible," she says, "was written in order that all peoples, in all ages, should

## Newton Citizens Club Discusses Nonantum Affairs

The Newton Citizens Club held their General Meeting on Thursday, March 4, 1937 at 8 o'clock p. m. at the club room, 132 Adams st., Newton. The attendance was much greater than at any other general meeting, and the club room was filled to capacity.

Several matters were discussed at this meeting and a petition was drawn and signed by all the members for the Adams st. extension from Watertown st. to Linwood ave., Newtonville. Another discussion brought up by the members was to have lavatories and shower baths at the Hawthorne Street Playground, Newton.

As this playground is being used very frequently by boys, girls and adults for sports such as baseball, lawn tennis, football, Italian bowling, etc., and all the games being very strenuous ones, we believe that this building is necessary for the community as a whole. This matter has been set aside to be acted upon at the next executive meeting by the Board of Directors.

A committee was appointed to organize an Italian bowling team on the Hawthorne Street Playground, and the winning team will receive a prize at the end of the tournaments.

## Variety of Entertainment At Annual Scout Show

"An Old-Fashioned Vaudeville Show" has been announced as the title of the Third Annual Entertainment of the Sixth Norumbega Group, Boy Scouts of America, of Newtonville, according to Frederick B. Eastman, Chairman of the Finance Committee. The proceeds are to go toward the Scout Building, on Court st., which is the home of the Group, and toward building a new cabin at Nobscot for week-end camping by the Scouts. The show, which will consist of a number of Boston's finest vaudeville acts staged under the personal direction of Everett L. Rich, is to be held at the F. A. Day Junior High School on Friday, April 2, featuring the Dickson Brothers, well-known acrobats and tumblers; other performers will include Di Crosta and Ferrari, in

a number entitled "Musical Moments"; Harvey and Aiden, "New England's Neatest Dancers," and Mora, long a favorite with Boston audiences for his tricks of seemingly impossible magic.

## NEWTON FREE LIBRARY

Mrs. Eva Campbell Peterson of 11 Pembroke st., Newton, is holding an exhibition of her water colors in the Art Department of the main Library, from March 15-27.

Mrs. Peterson is a new comer to this city, having moved here from Melrose in November 1936. She is a past member of the Brighthelmstone Club of Brighton, where she gave many recitals and held exhibitions during the early days of that organization.

She began her art education at an early age under the tutelage of Professor Harry D. Williams of Earlham College. Later she entered the Art Students League in New York. Her work in landscape painting was done under the late Henry W. Rice and George W. Wing. This summer she hopes to again visit Goose Rock Beach and work with Elliot O'Hara.

Among the pictures exhibited, will be the view of the Longfellow bridge with the Custom House tower in the distance, White Mountains and Adirondack Mountain scenes as well as sea scape from Gloucester and Cape Cod.

## ATTEND OPERA

An enthusiastic party of fifty-two enjoyed the Boston University presentation of "Iolanthe" at the Repertory Theatre last Thursday evening, the group being members of the Children's Singing Guild of Newton. The Guild will stage the same opera on May fourteenth, in the Woman's Club in Newton Centre, and it was to more thoroughly acquaint them with the work that the director took them to witness the B. U. performance.

Chaperoning the party were Mrs. Samuel Courtney, Mrs. William Finn, Mrs. Fred Hochberger, Mrs. Curtis H. Mosher, Mr. W. E. Newell, Mrs. Harry Quint, Mrs. J. Frederic Sweeney, Mrs. James P. Rogan of Newton Centre, Mr. J. W. Quigley of Newton Highlands, and Mrs. Douglas D. Furbush of West Newton.

## RECENT DEATHS

### ROBERT S. JOY

Robert S. Joy of 121 Oakleigh rd., Newton, died on March 7. He was born in Quebec City 80 years ago and had lived in Newton for 9 years. Until a year ago he conducted the New England Decorating Company on High st., Boston. He had been proficient as a bowler in his younger years and founded the Old Timers Bowling Association in 1907. He was a member of Boston Lodge of Elks. Mr. Joy is survived by two daughters, Miss Martha W. Joy of Newton and Mr. C. E. Manchester of Middleboro; and five sons—Robert P. of Cos Cob, Conn., Charles R. of Newton Highlands, Henry M. of Dayton, Ohio; Thomas P. of Boston and Edward A. of Sharon. Mr. Joy's funeral service was held on Tuesday at Eastman Funeral Chapel, Boston. Rev. Harry Hill of Winthrop officiated, assisted by Rev. William Gunter of Newton M. E. Church. Burial was in Mount Hope Cemetery.

### CHARLES A. THOMPSON

Charles A. Thompson, formerly of Waltham street, West Newton, died on March 3rd at the U. S. Soldiers' Home Hospital, Washington, D. C. He was the son of Mrs. Celia P. and the late Samuel E. Thompson, and was born at Sackett's Harbor, New York on July 11, 1875. Mr. Thompson was a veteran of the Spanish War. He was buried on March 5th in the National Cemetery, Arlington, with military honors. He is survived by his mother, who resides on Highland avenue, Newtonville; a sister, Mrs. Sidney Telford of Derby Line, Vermont; and a nephew, Lieut. Sidney Telford of the U. S. Army at Fort Snelling, Minnesota.

### HERMAN DANIEL

Herman Daniel of 38 Jewett st., Newton, died on March 3 at the Newton Hospital. He was born in Germany 78 years ago and came to this country at the age of 17. As a young man he was engaged in business in Cambridge and later was employed for 30 years by the R. H. White Co. of Boston, where he was a member of the Long Service Club. He was also a member of the Boston Y. M. C. U. and the Boylston Chess Club. He had lived in Newton for 26 years. His funeral service was held on Saturday in the Mount Auburn crematory chapel. Mr. Daniel is survived by three sisters, Miss Natalie Daniel of Newton, Mrs. H. B. O'Neill of Toronto, and Mrs. Anna F. Stone of West Roxbury.

## Aged Man Burned To Death at N'ville

Freeman McPhee, 67, of 11 Clark ter., Newtonville, was burned to death on Sunday night at his home, 11 Clark ter., off Austin st., Newtonville. McPhee lived alone in a small tenement on the second floor of the dwelling at that address. He had resided there about 15 years. Mr. McPhee, who was born in Nova Scotia, had been a wood worker by trade and was employed in past years in woodworking shops in this city. Recently he had worked on WPA projects.

A woman, who resides nearby on Austin st., observed smoke issuing from McPhee's tenement shortly after 10 o'clock Sunday night. She ran to Engine 4 house nearby and gave the alarm. When the apparatus arrived at the place, Lts. Linnehan and Marchant rushed into the first floor tenement at the house and brought out Mrs. Minnie Sampson and her four grandchildren, Grace, Mary, Helen and Francis Kroatville. The fire in McPhee's tenement was soon under control and as soon as the firemen would enter, they found the man's dead body on the floor. It was supposed McPhee had been smoking in bed and fell asleep. The damage to the building, which is owned by Harry Gath of Newtonville, is about \$300. McPhee is supposed to have a brother residing in Seattle. His funeral service was held on Tuesday at Newton Cemetery chapel.

### Mr. Ellicker's Work in the South

Taking a few days from the survey work, Mr. Ellicker last week attended in New Orleans the annual Convention of the Department of Secondary School Principals. He reports that the program was a full one and helpful. Newton High School was signally honored there when our head was elected First Vice-President for 1937-1938. Mr. McClelland G. Jones of Huntington Beach High School, California, was chosen president. Mr. H. V. Kipper of West Side High School, Denver, Colorado, was elected second vice-president, giving the officers a wide geographical distribution.

Superintendent Julius E. Warren participated in a panel discussion in the program of "Placement of Teachers in Teacher Training Institutions of the Country." Mr. Ellicker presided at the fourth general session, when the theme for discussion was "The Functions of Secondary Education." Mr. Francis L. Bacon, former principal of Newton High School and now at Evanston, Illinois, Township High School, presided at the third general session, when the timely topic was "What Should the Secondary School Do About Safety?"

Mr. Ellicker, speaking of the Leisure Activity Bulletins, writes: "Thus far of the thirty-eight schools that we have studied since September 15, no school approaches this kind of activity in the way Newton is doing it. I gave my latest copy to Dr. Jenkins of the State Department of the State of Mississippi. Dr. Jenkins will teach at the University of Alabama this summer and tell Southern teachers of the works."

### Neophytes to Present Play

The Neophytes have announced that they will present an all-Irish program in the annual all-sophomore assembly on St. Patrick's Day, Wednesday, March 17. They will feature "Spread the News," a one-act play by Lady Gregory, which will be supplemented by the story of Fin, an old Celtic legend, which will be given by members of the Newton High School Pupettes, led by President Lawrence Chamberlain, who dramatized it. The cast consists of the following: Beverly Beard, Constance Elrod, Marjorie Wood, Phil Word, Felix Rogers, William Baxter, Robert McGraw, John Gahan, Paul Crocker, Nancy Blake, Miss Jessie A. Southard is the faculty adviser.

The catalogue for the 1937 summer term at Boston University announces that Newton High School's Principal will be on the faculty. In the School of Education, Mr. Ellicker will offer two courses, "The Principles of Secondary Education" and "Administration and Organization of High Schools."

For the third time, Miss E. Louise Richardson, English teacher in Newton High School, has been elected secretary of the Watertown School Committee, of which she is a member. Miss Richardson is very active both in the affairs of the high school and in those of her home community.

Miss Jeanette B. Kendrick, head of the home economics department, has been elected to membership in the Zonta Club. The executive committee of the senior class has constitutionally chosen the following committee for the senior prom: chairman, John Ryan, Joe Gallant, Chester Newey, Herbert Buttrick, Robert Bishop, Amy Corbitt, Marjorie McNaught, Jeanne Budding, and Marcella Renard. The date of the senior prom has been tentatively set for May 7. A meeting of the committee was held Monday when they decided upon the orchestra, refreshments, etc.

Mrs. Bennett Newcomb, a teacher at Newton High and one of the outstanding commercial teachers in New England, has been appointed to the Hospitality Committee of the Eastern Commercial Teachers' Association. This association is to hold its fortieth convention beginning March 24 at the Hotel Statler in Boston.

## Warren Jr. High

On Wednesday afternoon, March 3rd, the Warren Junior High School presented an interesting broadcast on Physical Education in the Junior High School over Station WBZ. The program was prepared by the ninth grade students of the Broadcasting Club with the co-operation of the physical education instructor, Mr. Everett Converse, Miss Esther Pepin, Mr. Charles Regan, and Mr. Carl Penny were the sponsors of the broadcast. Students taking part were: Marcia Wade, Brooks Heath, Ralph Burns, Douglas Whitelegg, Marjorie Black, Shirley Carpenter, Joan Concannon and Donn Ashley.

The basketball game between the girls of 204-206 and 301-302 was a very exciting game since it decided the Warren Junior High School home-room championship. The game ended with the score of 26-16 in favor of the girls of 204-206. Among those playing for the winning team were: Florence Timble, Jean Callahan, Eleanor Poor, Betty Macusky, Miriam Boynton, Betty Cort, and Helen Hart.

The assembly on Friday, March 5th, was sponsored by Miss Winchester. Kittredge Fisher had charge of opening the assembly. He then turned the meeting over to Clark Fisher who introduced the guest speaker of the morning, Judge Weston. His subject concerned the various types of courts and the different crimes which each of these courts handle.

The Junior I social on Friday, March 5th, was well attended by members of the grade and proved to be a most enjoyable affair. The program consisted of games, dancing, refreshments and an entertainment. Miss Hasty and Mr. Regan supervised the party. The chairman and members of the various committees were: Chairman of Invitations, Victor Belotti, assisted by Margaret Ansley; chairman of Hospitality, Dana Danforth assisted by all division chairmen, Barbara Kirst, Sara Lee Edson, Francis Gaw, June Crocker,

## In Salem Romance

Fred MacMurray is the dashing Virginia cavalier who steals the heart of the demure Puritan maiden, played by Claudette Colbert, in "Maid of Salem," a romance of old New England, which begins at the Newton Paramount Theatre on Sunday.

Fuller Marshall, William Mulhern, William Dempsey; chairman of Decorations, Audrey Quilly, assisted by Dorothy Kelly, Betty Meinnis, and Barbara Rohde; chairman of Music, Fuller Marshall, assisted by Phyllis Carter, Allan Clapp, and Eleanor Cady; chairman of refreshments, Sara Lee Edson, assisted by Mr. Hardy, Mrs. Gill, Norman Curtis, Nancy Savage, Patricia Maroney, Marjorie Klein, Beatrice Pearson, Eleanor Cady, Lois London, Rosemary Davis, Eleanor Nilsson, and Margaret Collinson; chairman of games, William Dempsey, assisted by Thomas Devlin and William Haley; chairman of chairs, Francis Gaw, assisted by Francis Glynn, Joseph Ingalls, Doane Cook, James Powers, Dominic Mitrano, Francis Gahan, Paul Crocker, Nancy Blake, Richard; and chairman of floor committee, Robert Monroe.

The Annual Open Night at Warren Junior High School will be held this year on Thursday evening, April 15th.

## Bigelow Junior H. S.

A popular and successful performance of a musical comedy entitled "The Try-Outs" was presented before the pupils and faculty of the Bigelow Junior High School on Friday, March 5. The plot of the revue was laid in a vaudeville agency where the principal players, Eleanor Luchini, Donald Ferguson, and Barnaby Smith, gave excellent performances. The members of the cast featured in applying for theatrical positions included Ruth Kaufman, Donald Colligan, Annetta Wallace, Albert Tashjian, Ruth Wiles, John Howard, Rita Sanguinetti, James Bellotti, Corinne Boyd, Robert Gover, Claire Glassman, Katherine Hogan, and John Carley. A variety of talent was exhibited, including dancing, singing, and humorous acting.

Members of the chorus comprised Ina Burnes, Winifred Bender, Ruth Hunter, Elsie Grundy, Barbara Moore, Virginia Wallace, Jane Finelli, Annetta Yanco, Bessie Bacon, Shirley Bernstein, Beatrice Mandelstam, John Doherty, Richard Daly, John Eusden, Hugh Mellor, Thomas Lawson, Stephen Butts, Alvin Gold, Charles Bank, Morton Harrington, Robert Gallant, and Stafford Soborn.

The Ninth Grade Dramatic Club sponsored the production, although many non-members of the club were included in the cast. The play was coached by Mrs. Jessie Gillespie, adviser of the club. Miss Marion S. Hamilton and Ivan Jacobs accompanied on the piano. The club officers are as follows: Pres., Beatrice Mandelstam; V. Pres., Annetta Yanco; Sec., Ruth Hunter; Treas., Shirley Bernstein.

## Day Jr. High School

Mr. Sulzen and the ERA Orchestra presented their last concert of the season at the F. A. Day School on last Friday during the assembly period. Helen O'Donnell of the seventh grade introduced Mr. Sulzen.

Francis Leone, Michael Farina, William Thompson and John Sbardelli, the officers of the eighth grade, announced that the annual Eighth Grade Dance is to take place on St. Patrick's Day.

The Library Council headed by Frank Brimblecom is planning to have a moving picture on some afternoon toward the end of the month, the exact date to be announced later. The proceeds are to go to the Library Fund.

### Rivers Flow Underground

Although it is frequently printed that Barbados has no rivers, this assertion is entirely untrue. There are a number of rivers, but they all flow underground. From these subterranean streams the towns are supplied with pure water. It is nevertheless true that one may travel from end to end and from side to side of the island and never see a stream or pond worthy of the name. So easy is it to tap one of the many subterranean rivers of Barbados that upward of 300 miles of pipes carry the water to all towns and hamlets on the island.

### The Council of Ten

The Council of Ten was founded at Venice in the Fourteenth century and became an important part of the Venetian constitution.

## Our Lady H. S.

During the week of March 15, there will be held Grade Spelling Bees throughout the home room classes of the high school in accordance with the procedure to be followed by the sixty Parochial High Schools in the Archdiocese of Boston which are entering the Boston Herald Fourth Parochial School Spelling Bee. The purpose is to discover the best speller in the 9th, 10th, 11th and 12th grades in the competing schools and eventually to choose the best speller in the parochial group.

The plan embodies the holding of old fashioned spelling bees in all units of the schools. At the completion of all home room spelling bees there will be a total of eight survivors as follows: 2 ninth grade winners, 2 tenth grade winners, 2 eleventh grade winners and 2 twelfth grade winners. The next step will be to find the four school winners, one for the ninth grade, one for the tenth grade, one for the eleventh grade and one for the twelfth grade. These four school winners will represent the school in the semi-final competition which will be held in the assembly hall of four Boston parochial schools. The grand final will occur at Faneuil Hall on Saturday afternoon, May 1.

### Senior Play

The rehearsals for the coming Senior Play are becoming more frequent and intensive as the time for its presentation draws near. In the past the school has presented many memorable productions and this year the school brings forth another musical comedy, "No, No, Nanette." The entertainment is scheduled to take place Wednesday evening, March 31. A matinee for the children will be held on Easter Sunday.

Miss Kathryn Morrison, of the class of '36, has been selected leading lady and Edward Murphy plays the principal part among the boys. The cast also includes: Mary Flaherty, Helene Trumble, Doris Demmons, Georgina Whalen, Rita Campbell, Esther Geagan, Mary Kavanaugh, Margaret McQuaid, Mary Keane, Pauline Pierce, Mary O'Brien, Rita McCaffrey, Mario Marino, Kevin Stokes, Donald Fleming, Louis Baccari, Francis Conroy, Paul Cannon, Francis Morris, Francis Doherty, Edward Callahan, Louis Cedrone, Bernard McCaffrey, William Gerity, George Delaney, and Joseph Cronin.

## Newton

The fourth union Lenten service held by the five Protestant churches in Newton will be held Sunday evening at 7:30 o'clock in the Methodist Church. Prof. Fred Winslow Adams of the School of Theology of Boston University will be the preacher.

Dr. and Mrs. Warren W. Marston of 148 Church st. left last Monday on a trip to Savannah, Ga., where they expect to remain until the latter part of the month. On their way they stopped in Philadelphia to visit Mr. and Mrs. Dudley Thornbury, formerly of Newton.

George Jarvis, for many years owner of an automobile painting business in Newton, died suddenly of heart failure at his home in Cambridge on March 3. He was born in Kentville, N. S., 54 years ago. His funeral was held on Saturday from the Read Funeral Parlor, Waltham, and burial was in Calvary Cemetery.

Rev. H. Arthur Kernan, minister of the First Congregational Church of West Roxbury, will be the speaker at the Lenten meeting held in the Eliot Church of Newton next Thursday evening, March 11, at 7:45 o'clock. This is the fifth in a series of Lenten meetings on the general theme, "Some Essential Things in Religion."

## CHRISTIAN SCIENCE

"Substance" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, March 14.

The Golden Text is: "If we hope for that we see not, then do we with patience wait for it" (Romans 8:25).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "But as it is written, Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him. But God hath revealed them unto us by his Spirit: for the Spirit searcheth all things, yea, the deep things of God" (1 Corinthians 2:9, 10).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Christianity causes men to turn naturally from matter to Spirit, as the flower turns from darkness to light. Man then appropriates those things which eye hath not seen nor ear heard." Paul and John had a clear apprehension that, as mortal man achieves no worldly honors except by sacrifice, so he must gain heavenly riches by forsaking all worldliness" (p. 458).

### Coastlines

Michigan has a total of 1,715 miles of coastline on the Gr. Lakes, 905 miles in the Upper Peninsula and 810 miles in the Lower Peninsula. The U. S. Coast and Geodetic Survey lists only seacoast, Florida, with a coast of 399 miles on the Atlantic and 798 miles on the Gulf of Mexico, a total of 1,197 miles, leads California with 913 miles and Louisiana with 397 miles. In tidal shore line (including islands), Florida has 2,276 miles to California's 1,190 miles. According to the methods used by the Coast and Geodetic Survey, Maine has only 228 miles of coast (not including islands); if all the indentations are measured, it would have about 3,000 miles.

IF you are 30 and earning \$40 a week, you will have earned, at the same rate, \$72,400 by the time you reach 65.

How much will you have left? Of course there is the Social Security benefit. But will it be enough?

And, how about those years before 65 when you will have need for extra cash? Need we say more about saving as you earn?

—Mr. and Mrs. Stanley G. MacMullen are returning from Florida this Friday.

—Mr. Russell Mainland and Dr. Harold Chamberlain are on a cruise to the West Indies, to the Newtonville district court building last Saturday morning and were lectured by Rev. John A. Sheridan, pastor of Our Lady's Church, Newton, and by Miss Emily Hickey, juvenile probation officer of the Newton court.

—The boys were not arraigned in any court session, to prevent any record being against them. Four of the crowd had been tried in the juvenile session of the Brighton court for robbing poor boxes at the Church of the Presentation, Oak square, and placed on probation. A 14 year old Newton boy, regarded as the ring leader of the gang, was sent to the industrial school at Chelmsford because of a truancy charge which had been previously brought against him. The others will report to Miss Hickey regularly.

At Our Lady's Church on last Sunday Father Sheridan referred to the robberies committed by the boys at that church. He said there is too much delinquency among boys today and measures must be taken to curb it. He commented that the boys involved are not "bad boys," just ordinary boys with too much idle time on their hands. Some are Catholic and others Protestant. Only one had a police record and this for playing ball on a highway. Father Sheridan suggested that troops of Boy Scouts be organized to divert the boys' activities into proper channels. He said he would talk further on the subject during subsequent Sundays and hoped to have properly organized activities for the boys by spring. He asked the co-operation of parents.

He commented that the boys involved are not "bad boys," just ordinary boys with too much idle time on their hands. Some are Catholic and others Protestant. He said he would talk further on the subject during subsequent Sundays and hoped to have properly organized activities for the boys by spring. He asked the co-operation of parents.

### Snow Removal Special Report

The report submitted recently by the special committee appointed to make a study of the question of the removal of snow from sidewalks in Newton by owners or occupants of abutting properties is printed in full below. The report was accepted by the Board of Aldermen.

1. A survey of Snow Removal Ordinances in seventeen cities and towns in Massachusetts reveals that there is no precedent for an ordinance providing for general removal of snow by owners or occupants in all districts except in cities more thickly settled than Newton, namely: Cambridge, Fall River, Haverhill, Malden, Springfield, Somerville and Worcester.

2. There is, however, precedent for removal of snow by owners or occupants in the business districts of cities and towns in which the situation is comparable to Newton, namely: Melrose, Needham, Norwood, Winchester and Woburn.

3. Our present ordinance is not based on any general fundamental principle, is antiquated in the light of the growth of our city and is not equitable in its requirements.

4. Any ordinance applicable to all sections or zones or to others than the business zone appears impracticable because such an ordinance would impose many hardships and in many instances would not serve any useful purpose.

5. The Committee has given consideration to the effect of a Snow Removal Ordinance in manufacturing, business and general residence zones. The application of such an ordinance in the general residence zone would seem to be a discrimination against one of the seven wards in the city where a major portion of the land so zoned is located.

6. At the present time the city plows our most travelled sidewalks. It is to be expected that this valuable and much appreciated service will continue to be increased in its scope as the need arises. It is further pointed out that this early morning plowing adds more to the public convenience than would be the case if dependence were placed on private shovelling.

7. In view of what has been stated above, we submit an amendment to the present ordinance, which amendment, if adopted, will require supplementary shovelling in the business zone as specified in the Zoning Ordinance.

8. In making our recommendation, we realize that there are individual instances where this requirement would seem unnecessary, but nevertheless we feel that these instances are comparatively few, and that they should not deter us from the broader purpose of the program.

9. The inclusion of other zones would impose unjustified burdens to such an extent that the Committee voted unanimously to confine its recommendations to the business area.

10. We, therefore, present the following recommendation:

BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF NEWTON, AS FOLLOWS:

Section 161 of Chapter XX of the Revised Ordinances of 1929 as most recently amended is hereby further amended by striking out the said section and inserting in place thereof the following new section:

Section 161—Every owner or occupant of a building or lot of land abutting upon a sidewalk which is within a business district, as defined by the Zoning Ordinances of the City of Newton, and every owner or occupant of a building situated in other than a business district as defined by said Ordinances, and which is used for a purpose or purposes permitted in districts zoned for business but not permitted in districts zoned for single, private or general residences, whether or not the said use is a non-conforming use under Section 562 of said Zoning Ordinances, and which building abuts upon a sidewalk or stands upon a lot of land abutting upon a sidewalk shall cause any snow to be removed from such sidewalk within twenty-four hours after such snow has ceased to fall. The foregoing provision shall apply to snow which falls from buildings, other structures, trees or bushes as well as that which falls from the clouds.

Section 162 of said Chapter XX of the Revised Ordinances of 1929 as most recently amended is hereby further amended by striking out the said section and inserting in place thereof the following new section:

Section 162—Any person who shall place snow or ice upon any street shall cause the same to be piled in the gutter, and no snow or ice except that removed from an abutting sidewalk shall be piled or put into any street or upon a bridge without obtaining a permit to do so from the Street Commissioner.

Only the treble is modern. The second, Gabriel, is in its original form as cast in 1450. The third, founded in 1601, carries in Latin the words: "My name is Mary. For my tone I am known as the rose of the world." The fourth shows coins of Charles I. on the face and the tenor, weighing 26 hundredweight, is dated 1727.

The ringers of this church have a great reputation for "singles," and are proud of their place in campanology.

At Les Saintes Maries de la Mer, near Arles in southern France, there is held a semi-annual fete known as the Pilgrimage of the Gypsies and the Blessing of the Horses. To it wend caravans of gypsies from all over Europe, along with tourists from all over the world. The fete serves to call attention to this race of widely known but little understood perpetual wanderers, the Gypsies.

In Europe these nomads belong to the horse-and-buggy age. On both continents they cling to their time worn way of life: complete freedom from all responsibilities and from being tied down in any way. About a million in number, they are extremely vague about their origin, which until recently defied research.

Most experts are agreed that before the time of Alexander the Great the gypsies lived in India. They were the same race as the Jats or Zotts hailing from the mouth of the Indus, in the western part of that country. The Sudras, as they were then called, were considered untouchables by the high caste Hindus who conquered India. Subsequently Alexander, on his expedition to southeastern Persia, probably brought back large numbers of these untouchables, who must have made valuable slaves because of their knowledge of working iron, a new and rare art in those times.

## WOMEN'S CLUB ACTIVITIES

Edited by EMMA D. COOLIDGE

### Lecture On Gold, Diamonds and Orchids

"Gold, Diamonds, and Orchids" is the alluring title of the Guest Night program of the Newtonville Woman's Club on Tuesday, March 16th, at 8 p. m., an adventure-logue, with colored pictures, by William La Varre. Mr. La Varre, has combined successfully his varied talents of explorer, author, economist, and publisher. One of the world's most famous treasure hunters, he has spent fifteen years exploring the mountains and jungles of northern South America for profit. He went on his first expedition while still a student at Harvard University. In the business world he has achieved distinction for his work as counsel to corporations in New York City, and as consultant and publisher of several southern newspapers. Mr. La Varre is a southerner, born in Richmond, Virginia. He is a member of the National and Royal Geographic Societies and of the Explorers and Harvard Clubs of New York.

Mr. Albert Raymond, Baritone, will sing several selections, and the evening will close with a social hour and refreshments.

The Annual Scholarship Bridge, which was to have taken place on Friday, March 26th, has been postponed to Friday, April 2nd, at 2 p. m.

The Art committee is sponsoring an Art Lecture on "Egyptian Art", for all Club members, to be given at the Boston Museum of Fine Arts on Thursday, March 18th, at 2 p. m. Mrs. Mary P. Sayward will be the lecturer.

### Laws Women Should Know To Be Discussed

The next regular meeting of the Woman's Club of Newton Highlands will be held in the Congregational Parish House on March 16th, at 2:30 p. m. The Club will vote on limiting the membership to 375.

Jennie Lofman Barron will discuss "Laws Every Woman Should Know." Mrs. Barron was born and educated in Boston. After receiving her B.A. and law degree, she passed the State Bar examinations, and was admitted to practice in the Massachusetts courts. Subsequently she was admitted to practice before the United States Supreme Court. Mrs. Barron has been instrumental in introducing and passing a number of laws affecting the legal status of women. She has been Assistant Attorney General, and she now is on the Massachusetts Child Council, studying the problem of Juvenile Delinquency, and as Judge sits on both criminal and civil cases.

On March 17th, at 10 a. m., there will be a lecture by Mrs. Anton De Haas, under the auspices of the International Relations committee.

On March 26th, at 2 p. m., the Drama Study Group will meet in the Workshop.

### Spring Fete at Newton Centre

The Newton Centre Woman's Club has completed plans for its Spring-time Fete, to be held in the Club House on Thursday, March 18th, and Friday, March 19th. The chairman of the tables are Mrs. Frederick D. Robinson, flowers; Mrs. John F. Capron, garden accessories; Mrs. Vincent P. Maloney and Mrs. George A. Holmes, gifts and Easter novelties; Mrs. Arthur Brooks and Mrs. Charles F. Buttrick, white elephants and second-hand books; Mrs. Ralph E. Houghton, food; Miss Elizabeth Bartlett, candy; Mrs. Stanton L. Burgess, groceries; Mrs. Donald Walsh, sub-deb table; Mrs. Walter S. Douglas and Mrs. H. K. Parker, ice cream and popcorn; and Mrs. E. Farnum Rockwood, afternoon tea.

The Fashion Show on Thursday morning, in charge of Mrs. A. Harry Hutchison, will be by R. H. Stearns Company. There will be continuous movies for the children on Thursday afternoon, under the direction of Mrs. Donald Walsh. Mrs. Alden H. Speare and Mrs. John R. Perry will have charge of the Card party on Friday afternoon. Luncheon will be served on both days. Tickets may be secured from the various chairmen and the tickets for the chicken-pie dinner on Thursday evening may be secured from Mrs. George E. Squier.

Mrs. Henry J. Ide is the secretary. Mrs. Walter I. Muldoon the treasurer. Mrs. Howard O. Winslow the publicity chairman for the event; and Mrs. Thomas B. Booth is in charge of Admissions. The General chairman is Mrs. Victor H. Vaughan. The hostesses will be Mrs. Joseph T. Bishop, Mrs. Arthur B. Hitchcock, Mrs. A. Harry Hutchison, Mrs. Harold R. Keller, Mrs. Sidney R. Porter, Mrs. George E. Squier, and Mrs. Howard O. Winslow.

The work of the Art Classes, sponsored by the Art committee of the Newton Centre Woman's Club, and the Paintings by the members of the Art committee are now on display in the Art Gallery of the Club House. This Exhibit closes March 13th. The All-Newton Show will start March 15th and extend through to the end of the Club year April 9th.

The Current Events lecture by Mrs. Frank Mansfield Taylor will be held in the Baptist Church, on Thursday morning, March 18th, at 10 o'clock, due to the Spring Fete which begins at that hour, in the Club House.

### Youth Conference State Federation

New England speaks in "Education for Living" at the Ninth Annual American Home and Youth Conference to be held Tuesday, March 30th, at the Hotel Statler, Boston. Mrs. Schuyler W. Van Ness, chairman of the State division, will preside and Miss Bess Bartlett, advisor of the division, will be present. The morning session will open in the Ballroom at 10 o'clock, when S. Agnes Donham, Specialist in Income Management, and instructor at the Garland School of Homemaking, will speak on "The Child's Share in the Family Income." Sarah E. Coyne, State Home Demonstration leader of the Rhode Island State College, will tell of "Time to Spare"; and Sanford Bates, executive director of the Boys' Clubs of America, Incorporated, will discuss "The Future of the American Boy."

Luncheon will be served at 12:30 o'clock in the Ballroom Foyer, and because of limited space only holders of luncheon tickets and of Registration tags will be admitted. The luncheon speaker will be Della T. Lutes, author of "The Country Kitchen," whose subject will be "The Simple Life: We All Love It. Why Not Live It?"

At 2:30 o'clock, Helen S. Mitchell, Research Professor of Nutrition at the Massachusetts State College, will speak in the Ballroom on "Good Nutrition—A Contribution to Health Insurance," and Cheney C. Jones, superintendent of the New England Home for Little Wanderers will explain "What is On the Child's Mind."

Members of the Conference committee are Mrs. Parkman A. Collins, secretary; Mrs. Robert E. Fowle, luncheon; Mrs. William W. Kurth, usher; Mrs. Fred W. Seaver, house; Mrs. Elmer H. Ronton, hospitality; Mrs. William F. Barnard, publicity; and Mrs. Arthur G. Fletcher, registration and treasurer. Applications for luncheon tickets and Registration tags must be made with Mrs. Fletcher, Turnpike street, Canton (Telephone, Canton 6326-M) on or before March 27th.

The last lecture in the Art Scholarship series at the Boston Museum of Fine Arts will be held on March 19th.

### Conference on Social Hygiene

The Ladies' Physiological Institute of Boston is sponsoring a Conference under the division of Public Health, on Thursday afternoon, March 18th, in Myers Hall, Tremont Temple. Mrs. William T. Hanson, chairman of the State Division, has planned an educational program on "The Next Great Plague to Go—Syphilis."

The State Federation is aiding in the program approved by the General Federation co-operating with Dr. Thomas Parran, Surgeon-General of the United States Public Health Service, that it is the duty of every clubwoman to inform herself about syphilis, its causes and its control, and to inform her family and friends.

### Council Meeting Plans Announced

Tulsa, Oklahoma, the oil capital of the world and the home of Mrs. Roberta Campbell Lawson, General Federation president, will be hostess to the 1937 Council Meeting of the General Federation of Women's Clubs this spring from April 26th to the 30th. Mrs. J. Warren Burgess, president of the Tulsa Federation, is chairman of local arrangements, and Mrs. R. H. Latham, of Asheville, North Carolina, is chairman of the Program committee.

Mrs. Lawson has chosen as the theme of the Tulsa Meeting, "Learn to do well, seek judgment. Relieve the oppressed." (Isaiah 1:17.)

Elaborate exhibits depicting the work of the General Federation are being planned. These, for the most part, will be inspired by the chairman of the nine departments of activity of the organization—Public Welfare, American Citizenship, American Home, Education, International Relations, Fine Arts, Legislation, Press and Publicity, and Junior Clubwomen.

Because Oklahoma land abounds in Indian legend, one of the features of the meeting will be an opportunity for clubwomen to see the interesting and valuable Indian Museum which forms a private collection in the home of Mrs. Lawson, who herself is a descendant of the Tribe of the Delawares. Only on special occasions is this treasure house open to the public. One large room is devoted entirely to Indian relics, said to be the most extensive private collection in existence. Collectors have valued this museum at \$250,000.

Headquarters will be established at the Mayo Hotel and Junior clubwomen will be quartered at the Tulsa Hotel, while all sessions of the Council will be conducted in the Akdar Shrine Theatre. On Tulsa Night, following a formal reception, there will be a dinner in the Crystal Ballroom of the Mayo Hotel, and later the Tulsa WPA Symphony Orchestra will be heard in concert. Nationally prominent men and women have been invited to address the meetings, and other entertainment of varied nature is being planned to fill the hours between business sessions. Play Day, the grand recreational climax of the Convention, will feature a rodeo, a Society Horse Show, and an outdoor barbecue picnic dinner. Sightseeing trips are to be arranged, including trips to Oklahoma's famous oil wells, to points of historic interest, and to the Indian Reservations within easy driving distance of Tulsa.

### Various Programs Of Interest

Community Service Club of  
West Newton

The Embassy Club will give a musical program of unusual interest at the March meeting of the Community Service Club of West Newton. The Embassy Club is a quartet of male voices composed of Eugene Conley, Tenor, who has been assistant artist with the Apollo Club; George Wheeler, second Tenor, who is well-known for his radio programs over the Yankee Network; John Metcalf, Baritone, soloist at Trinity Church, Boston; and Edward Cole, Bass, who has received high praise from New England clubs. They will be accompanied by Reginald Boardman, who has been soloist with many Symphony orchestras. Their program will include classics, characteristic music of various nationalities, and the finest works of contemporary composers.

The meeting will be held at the Second Church, at 2 o'clock on Wednesday, March 17th, with the president, Mrs. George S. Fuller, in the chair. Tea will be served by Miss Fanny Gray and her committee.

On Friday, March 19th, Mrs. Claude U. Gilson will give a lecture on Current Events.

On Wednesday, March 31st, the Club will give its Annual Card Party to raise funds for its charities, at the homes of the following members, Mrs. Norman H. Bingham, Mrs. Austin H. Decatur, Mrs. George F. Earnshaw, Mrs. Charles L. Hawthaway, the Misses Lovett, and Mrs. Elmore I. MacPhie. Mrs. Holcombe J. Brown is chairman for this event.

Auburndale Woman's Club  
The Currents Events Group of the Auburndale Woman's Club held their monthly meeting on Friday, March 5th, the program opening at 11 a. m., with Mrs. J. Anton De Haas, speaking on Current Events. Hot Coffee was served at noon, and members enjoyed a box lunch and social hour. (Continued on page 9)

Proper shampooing will make all your rugs seem like new. The colors will be brighter, the patterns clearer, the nap delightfully thick and soft. All the closely imbedded grit that it is impossible to remove by ordinary cleaning, cannot resist the appeal of gentle washing in lots of pure suds . . . followed by thorough rinsing . . . slow drying . . . and careful brushing.

You'll need no urging . . . at any price . . . if you've already enjoyed Lake Waban Laundered rugs! If it is a treat you haven't sampled . . . don't miss this March bargain!

## WOMEN'S CLUBS

(Continued from page 8)

During the afternoon session, Mrs. Edwin H. Dyer reviewed the book entitled "Great Laughter," by Fannie Hurst, and Mrs. Lawrence L. Fidalgo reviewed the popular novel about Boston and Beacon Hill, "The Late George Apley," by John P. Marquand. Following the book reviews, a play was read by the Drama committee, headed by Mrs. John H. Harding, the play being "Lady Windemere's Fan."

The Current Events Group is comprised of four committees, namely, Education, International Relations, Legislative, and Literature, and is aided by the Drama committee in its group meetings to which Club members are invited.

On Tuesday, March 16th, the Auburndale Woman's Club will meet to hear Mrs. Lorence Munson Woodside as speaker on the subject "Customs and Costumes in Norway." During her travels through Norway, Mrs. Woodside procured some of the finest peasant costumes of that land and many of these will be exhibited during her talk, with Club members modeling them.

Mrs. Ralph W. Phipps, a member of the Program committee, will serve as Day chairman. Preceding the lecture of the afternoon, there will be a business session of a half hour's duration, starting at 2:30 o'clock.

### Social Science Club

The next meeting of the Social Science Club will be held in the Parlor of Channing Church on Wednesday, March 17th, at 10 a. m.

A paper will be given by Mrs. Steven B. Wilson on "Girls and Young Women of Newton." The hostesses will be Mrs. Alden H. Clark and Mrs. Arthur J. Mansfield.

### Newton Centre Neighborhood Club

Mrs. Frank Mansfield Taylor, well-known lecturer on Current Events, will be the speaker at the "Men's Night" meeting of the Newton Centre Neighborhood Club, to be held on March 15th, at 7:45 p. m., at the home of Miss Maida Flanders, 12 Lake terrace, Newton Centre. Assisting Miss Flanders will be Miss Ruth Cousins, Miss Virginia Milner, Mrs. Gilbert Ross, and Miss Marjorie White.

### Waban Woman's Club

"Flower Arrangement in Relation to the Indoor Background" will be the subject of the address by Mrs. Georgianna Smith at the Waban Woman's Club next Monday afternoon, March 15th, at 2:30 o'clock in the Neighborhood Club House. This is a subject that should appeal to all and prove both pleasing and helpful.

The usual tea hour will follow the program.

### Newton Smith College Club

On March 12th, Miss Marjorie Nicolson, dean of Smith College, is coming to the Newton Centre Woman's Club to speak on "Modern Trends in Education." The Newton Smith Club have been graciously invited to attend this meeting on payment of a guest fee. There will be a reception for Miss Nicolson following her lecture. Attendance at this meeting will take the place of the regular March meeting of the Smith College Club and the next scheduled meeting will be the middle of April.

## American Red Cross

Red Cross Juniors have been active in raising money for the relief fund for flood sufferers. In addition to the amounts already noted, other contributions have been received.

Four Newton Centre children staged a play, made their own scenery, and raised \$5.20. Donald Kehn wrote the play and was assisted in running the movies and acting by Richard Giesberg, Joseph Friedman and Marjorie Kehn.

From the Carroll School, West Newton, the little children gave \$2.80. La-sell Junior College contributed the generous sum of \$220.40.

## Christian Science Lecture

(Continued from Page 4)

have the same opportunity to . . . become God-endued with power" (The First Church of Christ, Scientist, and Miscellany, p. 190).

A few years ago in southern Illinois a woman lay grievously afflicted with tuberculosis. Her physicians told her that one lung had ceased functioning and that only a small portion of the second was active. They told her she might live a week, a month, or possibly two months, but that they could do nothing for her, and that the end was near. One Friday a Christian Scientist visited her and left some Christian Science literature for her to read. The patient accepted it, and after reading it asked her husband to arrange for the Christian Scientist to come the next day, Saturday, to see her. She came at nine in the morning and remained until one in the afternoon, explaining to the patient the love and power of God, and God's willingness and ability to heal her. Before the Christian Scientist left, the patient asked her to give her Christian Science treatment.

The Christian Scientist prayed for the patient in accordance with the teachings of Christian Science. She worked earnestly to realize what was the spiritual fact in regard to the patient, that her only real life was God, Spirit, Mind, never infused into matter and never made subordinate to material forces that could afflict her with disease and death. She knew that eternal love makes and maintains its witness, man, indestructible as Mind's own manifestation, as incapable of being consumed as is Mind. For some hours she pondered the great, eternal facts of God and the perfection of His man, and knew that these truths existed as the savior for the patient from the godless, powerless claims of ignorant matter and material force.

What happened? Sunday morning the patient awakened with a sense of life and freedom she had not known for years. She desired to arise and dress herself, something she had been unable to do for a long time. Reluctantly her husband and nurse consented. But they could not believe such a change had taken place. She was, however, entirely able to do so and then asked her husband to take her to the Christian Science church for the Sunday service. They walked several blocks to the church and back again after the service. Her lungs were functioning normally, and she was well on her way to a complete healing which came through the further application of Christian Science treatment. Today she is a whole, healthy, active worker in a Christian Science church.

What saved this woman from the consuming forces of matter? The power of God, her real Life, Mind, and Soul, operating in the spiritual quality of thought of the Christian Scientist. Spiritual thinking is power because it is Truth, active as individual consciousness.

It is said that something more than four hundred years ago Leonardo da Vinci wrote an accurate and scientific thesis on airplane flight. But it was several centuries before the ideas which da Vinci discerned were put into daily practice, after the Wright brothers made the first actual flight in an airplane. Nearly two thousand years ago Christ Jesus both taught, and put into daily practice, the true ideas of the spiritual Science of Life. But the ideas he so clearly perceived and so definitely demonstrated were resisted by the inertia of centuries of material ignorance of spiritual reality, and after a comparatively brief period became to men largely a theory, unadapted to their everyday needs.

But the ideas he understood and utilized were true and provable. They could not remain forever lost or obscured by material ignorance, any more than the ideas of air flight which da Vinci perceived could be indefinitely hidden from men. Mind's natural purpose to enlighten consciousness cannot be indefinitely deferred by the darkness of ignorance. But the Wright brothers worked for years to make the ideas governing air flight their own. They had to make use of certain qualities of thought to

achieve their goal. Persistence, patience, accuracy, self-sacrifice were some of these.

So Mrs. Eddy, in order to perceive the meaning of the basic ideas of being which Jesus so clearly discerned, had to be willing to improve with spiritual ideas the quality of her thinking. She was naturally religious in her attitude toward life, had become affiliated in early years with an orthodox church. But that was not enough. There had to be years of patient, persistent searching of the Scriptures, years of trial and experiment in her determined search for the Science of healing by divine power. Her deep faith in God enabled her to lay hold of that most powerful quality, moral courage, and with it to press on in her search. Honesty of purpose, humility, purity, were some of the other qualities of thought which enabled her to find, feel, and use the power of the Almighty. Nothing but the power of God could have enabled her, a retiring, gentle, New England woman unaccustomed to the strivings of men, to face a world of opposition to all she had to give. But through the spiritual quality of her thinking she had found the source of all real power. She came to the place where she knew, with the Psalmist, that "power belongeth unto God."

Through her works thousands were healed. She made the demonstration of God's power the foundation of the Christian Science church, and that is its foundation today and forever. It was the power of intelligent Mind that communicated and revealed to Mrs. Eddy the true ideas which she has made available for all. In Science an Health, page 109, she says, "The revelation of Truth in the understanding came to me gradually and apparently through divine power." It was the power of true Mind working in her which wisely defined the footsteps for the establishing of the Christian Science movement and its co-ordinated activities, adapted to the world-wide dissemination of the message of God's supreme power. It is the omnipresent, omniscient power of untiring Mind that is and will continue to be the reliance of Christian Scientists for the guidance, protection, and direction of this God-empowered movement and the accomplishment of its purpose to heal from sickness, deliver from sin, and free from every condition of thought and being which is less than the expression of real Life, God.

One of Jesus' greatest statements was, "Behold, I give unto you power . . . over all the power of the enemy: and nothing shall by any means hurt

you." No stronger statement could be phrased in regard to the supremacy of spiritual power—"power over all the power of the enemy, and nothing shall by any means hurt you." No hurt can come to those who embody this power by thinking as he thought, by using the spiritual qualities of thinking he possessed. No hurt can come either, through the body, or through physical or material laws, or times, or conditions, or by means of the evil thinking of one, or a few, or a multitude of mortals. "Nothing shall by any means hurt you!" The promise of dominion over and exemption from every lie of "the power of darkness." Christian Science is bringing to fulfillment for those who are willing to recognize and use the spiritual qualities of thought which give consciousness the limitless power of man's limitless God. With John they hear a voice saying, "Now is come salvation, and strength, and the kingdom of our God, and the power of his Christ."

# HEALTH IN THE MENU

by Margaret Fossett

Do you want to win baking honors that would put mother's way in the shade? That's what you can do if you will follow these few simple rules:  
Before you start baking have all your utensils and necessary materials assembled on your work table. Follow your recipe carefully and work quickly and efficiently. Be sure of your oven temperature as most of the success of your product depends on the baking. A modern insulated heat-controlled gas range gives you perfect oven temperature. Use your gas oven to its full capacity and plan to prepare food for several meals.

The thrifty housewife uses basic recipes and varies them in accordance with the contents of the cupboard, the refrigerator and the pocket-book, always remembering of course the family tastes.

**Master Butter Cake**  
1/2 c. shortening  
1 c. sugar  
2 beaten eggs  
3/4 c. milk  
2 c. cake flour  
1/4 tsp. salt  
3 tsp. baking powder

Cream shortening, add sugar gradually and continue creaming until very fluffy. Add eggs. Beat until light. Sift flour, measure, add salt and baking powder and sift twice more. Add vanilla to milk. Add dry and liquid ingredients alternately to creamed mixture. Beat until thoroughly blended. Bake in a 375° gas oven for 30 minutes.

**Chocolate Layer Cake**  
Bake Master Cake Batter in two greased 8-inch layer pans. Join layers with Fudge Frosting between. Frost top and sides of cake. Bake in a 375° gas oven for 30 minutes.

**Fudge Frosting**  
1 c. brown sugar  
1 c. granulated sugar  
2 sq. unsweetened chocolate  
1/2 c. milk  
1 tsp. vanilla  
1/4 tsp. salt  
1 tsp. butter

Cook sugar, chocolate and milk together. Stir constantly until sugar is dissolved. Then occasionally, to prevent burning. Cook until small amount of mixture forms soft ball in cold water. Add butter, salt, vanilla. Cool. Beat until thick enough to spread.

### Annual Concert Of Glee Club

The annual spring concert of the Highland Glee Club of Newton attracted a large audience on Tuesday evening. This closing event of the local musical season, held in the auditorium of the high school, featured the Goding-Thiede-Zeise trio as guest artists. The selections rendered by this stringed trio of pianist, cellist and violinist were enthusiastically received. Director D. Ralph MacLean of the Glee Club conducted the singers through a well-balanced program of songs which included such numbers as "Prayer of Thanksgiving," "When I Was a Lad," "The Drum," and closed with "Song of the Marching Men." The concert marked the close of the thirtieth season of this popular Newton musical organization which has maintained a high standing among glee clubs of New England for several years.

### Leniency Given Noisy Motorist

The case of William Babb, 19, of 44 Frederick st., Newtonville, was placed on file by Judge Murray in the Newton court last Thursday. Babb was charged by Patrolmen Gaquin and Scott with having made unnecessary noise with a siren which he had on his automobile. The defendant was represented by his father who told the court that the defendant was away at college.

#### NEW OFFICE OPENS

The Home Specialties Company, Inc., located on the Worcester Turnpike, Newton Centre, has announced that due to increased business in the territory they are opening a new office in the Mullaney Building, 129 Concord street, Framingham. Tel. Fram. 3131.

This company specializes in the equipment for the home, such as window shades, screen, awning, Venetian Blinds, metal weatherstripping, etc.

### Alleged Car Thief In Terrific Crash

Frank Dundon, 24, of Mansfield st., Framingham, escaped death twice when a stolen taxi he was driving at high speed on the Worcester turnpike early Tuesday morning, tore away 50 feet of heavy fence and hurtled on for 200 feet before being stopped by a granite curb. The place where the crash occurred was near the Newton-Wellesley line at the high overpass, and where the bridge crosses the Charles River. Passing motorists observed parts of the broken fence and wrecked taxi littered on the highway, and Dundon lying, apparently unconscious on the turnpike. They tried to revive him, when he suddenly arose, rushed to the bridge and landed in the river 20 feet below. Newton police had been notified and when a cruising car arrived with Serg. Sheridan and Patrolmen McKenna and Rogers, the policemen found Dundon standing knee deep in the river washing blood off his face. Dundon miraculously escaped serious injuries. He received possible fractures of two ribs and injuries to his head and face. He was taken to the Newton Hospital for treatment and will be turned over to Boston police upon his release from the hospital. Some minutes after the accident occurred at Upper Falls, Boston police were notified of the theft of the taxi which Dundon was driving.

### May Object to New W. New. School Site

At the last meeting of the Board of Aldermen a communication was received from Mayor Childs asking that action be taken for the purchase by the city of land near Cherry and Derby sts., West Newton, as the site of a new school to replace the old Franklin School on River st. The land was designated by the Mayor as the "Berwald land." The School Committee favors the site because of its proximity to sections where many houses have been erected in recent years near the Newton-Waltham line. But, as the site is a considerable distance removed from some of the parents of children who reside near the old school, a hearing will probably be assigned by the Aldermen on this matter.

### Obscene Pictures Seized In Raid

Wednesday night Serg. Bannon and Patrolman Foley, Walker, McGrath and Whalen raided Phil's Spa at 273 Centre st., Newton, and arrested Abraham Grobman who was in charge of the store. A number of alleged obscene pictures were seized. Complaints had been received that school boys had been buying the pictures at the place. Grobman was arrested on charges of keeping and intending to sell obscene pictures and with promoting a lottery. He was arraigned in the Newton court on Thursday and his case continued to March 19. His father bought the store several months ago.

### Newton Dogs Biting People

Several more Newton dogs were ordered restrained last Friday. William Bancroft of Loring st., Newton Centre was ordered to restrain his dog after it had bitten Bernard Ellis of 11 Carleton st., Newton. John L. Pierce of Bartlett ter., Newton Centre was ordered to restrain his dog. The animal had bitten Albert Warren of 56 Cypress st., William Melea of 103 High st., Upper Falls was ordered to restrain his dog after it bit Robert Blue of Dearborn st., Wellesley. Carroll Robinson of 191 Valentine st., West Newton was ordered to restrain his dog. A neighbor complained that the dog was causing a disturbance by its barking.

### Powers' Paragraphs

(Continued from page 2)

Owners of stores in Newton which sell alcoholic beverages in packages display more optimism than common sense if they think that leaders of the "drys" in this city will co-operate with them in regulating the liquor business in Newton. The "drys" have been, are and will be consistently opposed to the sale of alcoholic beverages, either by drug stores or package stores. If drug stores in this city are violating the liquor laws the proper and practical way to correct such abuses is through the medium of the police department, the local license commission and Federal authorities.

few strappings or even horsewhippings would be more effective to correct many boys than pampering them, and eventually sending them to so-called reform schools where they meet others worse than themselves. How many, proportionately, have been reformed at the Concord Reformatory?

England is planning to spend \$15,000,000,000 on new armaments. France, Italy, Germany, all are spending, or planning to spend proportionately huge sums. But they won't pay the U. S. A. even the interest on the billions they borrowed from us, and they want the debts cancelled, or practically so. And we have a lot of gullible dupes in this country who believe we should abate or annul the huge sums our former loyal allies owe us, and become entangled with them again through the League of Nations or some similar scheme.

**Single Species of Rodent**  
Paca is a rodent represented by only a single species in South and Central America.

### Judge Lenient With Confirmed Speeder

Gordon C. Seavey, 21, of 187 Pleasant st., Arlington, who has been convicted three times for speeding within the past year, was found guilty in the Newton court on Wednesday by Judge Allen and given the mandatory fine of \$50. But, the judge then suspended the fine. Patrolman John Foley was the complainant. Foley testified that on the night of Feb. 26, when people were going to church young Seavey operated a car along Washington st. at 35 miles an hour as he approached the dangerous spot where Church and Jewett sts. enter Washington st. A number of persons have been killed and injured at this spot in past years, and several of the victims were persons going to evening services at the Church of Our Lady. It has been repeatedly urged that a pedestrian traffic signal be installed at this intersection. Patrolman Foley is watching this danger spot and apprehending autoists who speed by it nights.

On the same day in the Newton court Judge Allen imposed fines of \$5 each on the following who were found guilty of speeding—Walter McKenna, 10 Cambria rd., West Newton; Jeremiah O'Connor, 33 Washington st., Newton; Donald Bruce, 28 Winchester rd., Newton; Chester Moody, Jr., Waverlytown, Robert Brown, 18, of 24 Newtonville ave., Newton, was found guilty of not slowing down his car where his view was obstructed. He was given a suspended \$5 fine.

### Bag Snatcher On Centre St., Newton

As Millicent O. Bentley of Ripley st., Newton Centre, was walking along a lonely section of Centre st., Newton, opposite the estate of Henry I. Hariman at 8:15 Wednesday night, a young man dressed in an army overcoat and wearing a brown stocking cap attempted to snatch her pocketbook. When Miss Bentley resisted the fellow fled.

**The Clarinet**  
The clarinet is a reed instrument with a clear or clarion tone. Its tube is about two feet long, slightly flared at the end. It is the dramatic soprano of the woodwind choir with a tone that varies in its range from a dark sonority in the low register to bright clarity in the upper tones. The bass clarinet is very long and for the sake of convenience it is doubled upon itself so that it resembles a large saxophone. Its lowest tones resemble certain pedal tones in the pipe organ.

## Service Clubs Joint Meeting At High School

A joint meeting of the Rotary and Kiwanis Clubs of Newton was held on Monday evening in the cafeteria of the high school. Many members of the Boston Rotary and Kiwanis Clubs who reside in Newton were among the one hundred and fifty in attendance at the dinner which was served at six o'clock. President Walter H. Gregg of the Newton Rotary Club presided and after a short welcome introduced President Bill White of the local Kiwanian organization. The meeting was then turned over to Superintendent of Schools Julius E. Warren who introduced the various features of the entertainment program which followed. The program showed many of the activities carried on in the Newton schools, particularly the high school, in addition to the ordinary school curriculum.

A group of sixth grade boys from the Car School gave a demonstration of rhythm dramatizing the customs and practices of Egypt in the days of the building of the pyramids under the direction of their teacher, Miss Vana. Readings were given by Miss Anna Kern and William Stark and piano selections by Miss Dorothy Kovitz, all of the class of 1935, N. H. S. A group of songs was sung by the boys of the High School Glee Club under the direction of Mr. Haydn Morgan, director of vocal music in the Newton schools. A demonstration of tap dancing was given by girls of the high school physical education classes under the direction of Miss Harper. Music during the evening was played by members of the school orchestra under the direction of Mr. C. Ralph Spaulding. The programs for the meeting, giving many interesting facts and statistics of the Newton schools, were printed by boys of the Trade School and electric Rotary and Kiwanis signs were made by boys in the electrical course of the Trade School.

The waitresses for the dinner, were girls of the Home Economics department, the aprons and caps were made by the girls in the sewing classes. Paper flower decorations were made by girls in the handwork classes. The committee on arrangements included Raymond Green, principal; chairman, C. Elwood Drake; G. Winthrop Brainerd, James Forbes, Haydn Morgan, Ralph Spaulding, Julius Warren, all members of either the local Rotary or Kiwanis Club.

## Elks Nominate 1937 Officers

Newton Lodge of Elks nominated officers for the ensuing year at its meeting last Thursday night. Those nominated included—Exalted Knight, Douglas Furbush; Loyal Knight, John S. Grant; Lecturing Knight, Harry McPhee; Secretary, Thomas Coppinger; Treasurer, D. Walter Kearns; Tiler, Mathew Hurler; Trustee, Robert A. Vachon; Alternate, Delegate, David Greer. The election will be held on March 29.

## Auto Hits Woman On California St.

On California st., Nonantum, the scene of several fatal auto accidents the past year, Anna Oppel, 19, of Framingham was hit on Monday evening about 6:30 by a truck driven by Thomas Biggieri, 18, of 30 Beach st., Nonantum. The girl was employed in a nearby factory and was on her way home. She received severe contusions and was taken to the Newton Hospital.

## City Wins Fight on Oak Hill Gravel Pit

The City of Newton received a favorable decision in the fight to end operations of the big gravel pit at Oak Hill, when on Wednesday Bennett Sanderson of Littleton, who has been serving as master to hear the evidence in the litigation between the city and George Wilbur, owner of the pit, announced that from the facts presented to him, the city has acted properly in the enforcement of the zoning ordinance as regards the gravel pit. The finding made by Mr. Sanderson was in draft form, and his complete findings will be made later. The matter will now be referred back again to the Superior Court for the application of the law to the findings of Mr. Sanderson.

About 10 years ago the Highland Sand & Gravel Company received a temporary permit from the then Building Commissioner, Cecil Chadwick, to erect a large structure off Wiswall st., Oak Hill and to operate a gravel pit there, to conduct a business in a residential zone. The following year George Wilbur, principal owner of the gravel company, came before the Aldermen for an extension of the permit to continue the non-conforming business. He told the committee that there were about 1,000,000 tons of material to be excavated in the 60 or so acres he owned, and it would take 5 years to remove the material. Wilbur received successive renewals for several years despite protests from Oak Hill residents against the traffic nuisance caused by the big pit. Some years ago it became known that Wilbur, after excavating sand and gravel from the large area he owned, had leased land owned by the Estes and Wiswall estates and had stripped additional large areas.

Last year the Board of Aldermen refused to again renew the permit for Wilbur. He then went to the Superior Court and obtained an injunction to prevent the city from interfering with his operations at the pit. Mr. Sanderson was appointed a master to hear evidence on the case. The hearings occupied nearly two weeks. Mr. Sanderson's decision is a victory for City Solicitor Bartlett and for the citizens of Newton.

## Drawn For Jury Service

Eight Newton residents were drawn to serve as jurors at sessions of the Superior Court in Cambridge next month. Those drawn to serve at civil business sessions included—Edgar W. Green, 14 Loring st.; John F. Shea, 30 Middle st.; Adrian Bessey, 8 Vincent st. The five whose names were drawn to serve as jurors in criminal business sessions are—Anrose Gallagher, 16 Lincoln Park; Louis A. Cook, 16 Rockland st.; Richard P. Halliwell, 65 Suffolk rd.; Bennett Atwater, 18 Wauwinet rd.; John G. Waddell, 50 Shaw st.

## Injuries Slow In Appearing

John Petrie of Friend st., Waltham, reported to the Newton police last Friday that he and his mother, Mrs. Marion Petrie of Natick received injuries to their back when the car in which they were riding collided on the preceding day at Washington st., near Adams st., Newton. The car was hit in the rear by a truck driven by James Ward of Elko st., Brighton. Petrie said that neither his mother nor himself were aware of the injuries after the accident, but some hours later the alleged injuries became evident.

## Legion Plans Twelfth Annual Welfare Concert

Newton Post, No. 48, American Legion, is preparing for its twelfth Annual Welfare Concert, which will be held on the evenings of April 15 and 16 at the Newton High School Auditorium, Newtonville. The chairman of this year's entertainment will be John B. Foley, junior vice commander of the post.

Each year the local post stages its annual welfare concert to secure funds to carry on its welfare work and community service program; it is the only method which the local Legionnaires use to secure funds for this purpose. All revenue derived from these annual shows is placed in the post welfare fund, where a welfare committee, serving without charge, investigates all cases where assistance is needed and properly disburses the money to assist those needy veterans and their families.

This year's show will be somewhat different from the annual minstrel shows which the post has conducted in the past; it will be a two-act musical comedy entitled "Hi-Sailor," written by Commander Leon H. Mayer. Mr. Mayer has also written several new songs which will be sung for the first time on any stage; he will also serve as coach and director of the entertainment.

A cast of well-known entertainers are rehearsing twice each week to present to the citizens of Newton one of the finest musical shows ever staged in Newton. Director Mayer has called the next rehearsal for Sunday at 2:30 p. m. in the Memorial Building, Newton Centre.

## Public Wks. Com. Studies Budget

The Public Works Committee of the Newton Board of Aldermen held a long session last Thursday afternoon and night discussing budget recommendations of Mayor Childs. It voted to request the Mayor and the Finance Committee to increase the item for snow removal from \$7500 to at least \$20,000. The Street Commissioner asked \$80,000 for this purpose but the unprecedented winter, with no snow, necessitated only an expenditure of about \$2000 for sanding. The committee believes \$7500 is not enough to provide for the removal of snow which may fall next November and December. If money is not provided now, the cost of such removal would be added on to the 1938 tax bills.

## Motorists Fined In Newton Court

In the Newton court last Friday, Fenton Turner, 137 Waltham st., West Newton, and Oswald Feldman, of Wellesley, each was fined \$3 for not stopping before entering a through way. James Lewis of 38 Brookline rd., Newton Centre, was fined \$5 for not slowing down at an intersection. Frank McGaugh of Maple st., Needham, was fined \$5 for speeding. George Bonvallot of Dexter ave., Waltham, who ignored a red light set against him at a traffic signal, was fined \$5.

## City Laborers To Return To Work

Forty-two employees of the Newton Street Department who were laid off several weeks ago will return to work on next Monday. The action of the Mayor in recommending and the Aldermen in appropriating money for a drain in Islington rd. and a sewer in Grove st., will provide the employment for the present.

## Campbell Made Public Bldgs. Com.

Arthur Campbell of Troy Lane, Waban, was confirmed as Public Buildings Commissioner on Monday night by the Board of Aldermen. A communication was received at the meeting from Mayor Childs appointing Mr. Campbell to this position. On motion of Alderman Temperley, chairman of the Public Buildings Committee, the rules were suspended to permit the confirmation of the appointment at the same meeting at which it was received.

Mr. Campbell was born in Lowell and studied architecture at Mass. Inst. of Technology. He then entered Yale University where he took the course in civil engineering and graduated in 1912. From 1912 to 1914 Mr. Campbell was employed by the government in the Philippines and from 1914 to 1922 he was engaged in engineering work in China. He entered the employ of the Public Buildings Department of Newton in 1925. On January 5 of this year he was appointed Acting Public Buildings Commissioner by Mayor Childs to succeed Harry Hageman. Mr. Campbell is married and has two children.

## Newton Man Made Captain in Marine Corps

Another step upward in his profession has been made by Captain Luther Samuel Moore, of Newton, whose promotion from Lieutenant to his present rank was recently recommended by a Marine Corps selection board, and approved by President Roosevelt. His commission as captain merely awaits confirmation by the Senate.

Born in Newton, September 26, 1907, prior to entering the service Captain Moore made his home at 113 Beaumont Ave., Newtonville. He graduated from the U. S. Naval Academy, Annapolis, Md., in 1931, and was commissioned a Lieutenant of Marines. Subsequently he was assigned to duty with the Fourth Marines at Shanghai, China, and while abroad he completed a special course in service accounting through correspondence with the Marine Corps Institute at Washington. He received the praise of Major General John H. Russell, who was commandant of the Marine Corps in 1934.

In recent months Captain Moore has been on duty with the U. S. Marines at Quantico, Va., the headquarters of the eastern units of the Fleet Marine Force. At various times he has been associated with Marine Corps rifle teams.

## Newton Squadron Amateur Night

Newton Squadron No. 48, Sons of the American Legion, is having an amateur night Friday, April 2, at 8:00 p. m. at the cafeteria of the War Memorial Building, Newton Centre. This contest will be open to the sons and daughters of members of Newton Post or sons and daughters of those residents of Newton who are eligible for membership in the American Legion. Admission to this affair will be free and contestants will be judged by their ability by some person not connected with the American Legion and by the applause of the spectators. It is planned to be a regular amateur night—songs and all. There will be a try-out of contestants at a date to be announced later. The application blanks may be obtained from Chairman John Foran of the Newton Post Sons' committee, Mrs. Sylvia Hudson, President of Newton Post Auxiliary; Barbara Walker, Chairman of the Junior Auxiliary, and Bruno Castagnino, Captain of Squadron No. 48, Sons of the American Legion.

## Women Organize In Fight For the Control of Cancer

To bring the truth about cancer to every man, woman and child in the country, the Women's Field Army of the American Society for the Control of Cancer has been formed. This year it is launching the first wave of a series of major offensives against cancer and its allies of fear and ignorance. Under the slogan "Early Cancer is Curable. Fight it with Knowledge" the Women's Field Army is determined to carry on the battle against the disease that last year killed 150,000 persons until the rising figures of mortality are checked, and until these figures have been sharply reduced, perhaps even cut in half.

Mrs. Francis B. Flagg of Newtonville is vice-commander and Mrs. Charles B. Floyd of Auburndale is captain of the local organization participating in this work. They are organizing a group of workers in each of the villages of the city to aid in the drive. The National Advisory Board of the Army includes such outstanding personalities as Mrs. Franklin D. Roosevelt, Mrs. Herbert Hoover, Dr. Mary E. Woolley, Congresswoman Edith Nourse Rogers, Miss Frances Perkins, and the presidents of fifteen national women's organizations, among them the General Federation of Women's Clubs, the National Council of Jewish Women, the Catholic Daughters of America, the National Federation of Business and Professional Women, the National Association of Colored Women, and the National Society of the Daughters of the American Revolution.

The purpose of this Army is twofold: first, to carry out the all essential educational program; second, to provide the means of continuing this work and building a permanent cancer control organization in every State. For the achievement of this second aim, March 21st to 27th has been set aside as Enlistment Week. At that time the Army will go to all women in the state and urge them to enlist in this great movement. There is an enrollment fee of one dollar. Seventy cents of each dollar raised will be spent here in this State where it was contributed under the direction of the local Executive Committee of the State Division of the Army. Thirty cents goes to the American Society for the Control of Cancer to meet the overhead of the drive and to prepare for future offensives. While men may not enlist as soldiers in the Army, they are welcome as contributing members.

## Charged With Drunken Driving

John Cochrane, 21, a student at Babson Institute, Wellesley, was arrested early last Saturday morning at Lower Falls by Patrolmen Dwyer and Tobin on charges of drunkenness and driving while under the influence of liquor. He was arraigned in the Newton court on Saturday and his case continued until March 18.

## Middlesex Court Bridge and Whist

Middlesex Court, M. C. O. F., will hold a bridge and whist party next Tuesday night at 8:30 in Elks' Hall, Newton. The proceeds will be devoted to the charity fund of the court. Chief Ranger John P. Tierney heads the committee in charge of the party.

## Pumping Station To Be Studied

The pumping station of the Newton Water Department which was rebuilt and reequipped a few years ago at large expense, is to be expertly surveyed relative to its fuel system and George H. Perkins of 161 Devonshire st., Boston has been retained for this purpose. When the station was rebuilt in 1933 new boilers and heating equipment were installed. David Eames, the consulting engineer at that time, recommended a coal pulverizing system. Nut and slack coal were to be mixed and reduced to powder by pulverizers, and then blown into the fire boxes under the boilers. Intense, gaseous flames were created and this type of combustion was expected to be quite economical.

The pulverizers have not stood the gaff, as expected. They have, at times broken down and this condition causes concern to Water Commissioner Murray. So he suggests that steps be taken to replace the burning of coal and the use of pulverizers, by an oil burning system.

## Liquor Merchants Make Complaints

A committee of members of the Newton Package Store Dealers Association conferred with the Newton License Commission last Friday evening at City Hall. The conference, which was also attended by leaders of the "drys" in this city, was called at the request of the liquor dealers so that they could tell of alleged violations of the liquor laws in this city. The spokesman for the liquor dealers was Angelo Annicelli, a partner in a package store at Nonantum. Annicelli told the License Board that certain drug stores in this city have been violating the liquor laws. It was stated that in one drug store customers were solicited to buy liquor, that some drug stores sold when they were not supposed to sell, and that at one drug store alcoholic drinks had been served at the soda fountain.

The statements were made that in Nonantum weekly about 100 gallons of bootleg liquor is sold at bargain prices and that in some beer saloons a game is played which results in excess drinking of beer. According to the information given the License Board, this game consists of matching fingers and turning over playing cards. The package store merchants suggested to the License Commission that a full time investigator be employed to regulate liquor traffic in Newton.

## Order More Dogs To Be Restrained

A dog owned by Frank Hinckley of Pennsylvania ave., Upper Falls, was ordered restrained last Friday after it had bitten a small girl, Patricia Condon of Ohio ave. According to police records the dog had provoked. The child pulled his tail while he was chewing on a bone. A dog owned by William Cronin of Ellis rd., West Newton, was ordered restrained after it had bitten Edwin McKay of Glenwood rd., Wellesley. A dog owned by Anna C. Foley of 242 Park st., Newton was ordered restrained. A neighbor complained that the dog's barking was a nuisance.

## West Newton People Differ on School Site

At the meeting of the Board of Aldermen on Monday night a hearing was held on the taking by the city of the Beraldi land near Cherry and Derby streets, West Newton, as the site of a new school to replace the Franklin School on River street. The site has been selected by the School Committee, and the joint committee of Aldermen and School Committee members as the most practical for the new school. The Mayor recently recommended that the city take this property.

Joseph Guzzi of Ellsworth road spoke in favor of the taking. He said all the residents in his neighborhood are in favor of building the school on the proposed location. Charles J. McKenna of 18 Cambria road said a large number of children live in that section near the Waltham line. Nineteen of these children attend St. Charles Parochial School in Waltham because it is much nearer than the nearest Newton school. If the new school is built where planned, these children will attend it. John Smith of 215 Derby street asked the Aldermen to take land for a playground as well as for the new school. Former Alderman Alfred Guzzi favored the Derby street site but suggested that a street be laid out from River street to Derby street so that children living in the River street section will not have to take a long walk around Cherry street.

John J. Glynn of 171 Cherry street favored the proposed location and said his mother-in-law and her mother, owners of land abutting the Beraldi land are willing to make sacrifices in case some of their property may be needed for the new school site. Glynn said the area in that part of West Newton has been rapidly developed the past 15 years and a school is badly needed there. Others who favored the Derby street site were Charles Flagg of Falmouth road and John McKenna of 212 Derby st.

Mrs. Frank Maloney of 311 Cherry st. opposed the Derby st. location for the new school. She said the people in the vicinity of the present Franklin School were told they would have more time in which to circulate a petition of protest; otherwise one with many signatures would have been presented to the Board of Aldermen. Mrs. Maloney wants the new school built near the present school site. She said there has been a school there for over 60 years. She asked that another hearing be held. Mrs. Arthur McCann of 250 River st. asked why the school should be taken away from the neighborhood where it has been. She commented—"all we get in our neighborhood from the city is the dump. The least the city can do is to build the new school there."

Eugene McMahon of 306 River st. said he has lived in that section of the city for 50 years and that it will be very difficult for children to get to the site of the proposed new school. They would have to walk away around River and Cherry sts. He said that if the new school will be located to the rear of the present school, it will be fair to both the River street section and the section North of Derby st.

## THE APARTMENT PROBLEM AGAIN

Occasionally we have commented upon the apartment house problem which frequently comes to the forefront in Newton. We have continuously and vigorously opposed any slackening of the restrictions which would permit the construction of apartments in a manner similar to that which has taken place in some of our neighboring communities. There is no question of the desirability of the proper type of apartments in the proper locations. It is quite true that many persons in Newton would prefer to take up their residence in an apartment of a few rooms rather than to maintain a large home, particularly after their families have grown to maturity and have forsaken the shelter of their home and parents. The percentage of these people in relation to the total number of Newton families is, however, small, and it might be feasible to adopt a city ordinance which would restrict the building of such apartments to a percentage of the families of Newton in a similar ratio. The town of Weston recently adopted a provision which prohibits the sale of land in small lots and a similar idea applied to apartment house permits might be practical.

Such a method, however, would not solve the problem of location. That is a function which will always be vested in the Aldermen, as will also be the type of construction permitted. We favor the limited construction of apartments of the English type which have an outward appearance similar to a large residence, but we oppose the erection of large apartment buildings whether or not of pleasing and more modern architecture such as suggested for a site near city hall.

## IMPROVING EDUCATION

Some one hundred and fifty representative men of Newton obtained a wider insight into the accomplishments of our schools at the joint meeting of the local service clubs at the high school the other evening. A program of entertainment by various groups of individuals and groups of pupils clearly demonstrated that our school officials are attempting to use every opportunity possible to educate the youth of Newton in a most effective manner. The dramatization of history implants itself in the pupil's minds and the mastery of many accompanying details is naturally absorbed. The appreciation of music through the opportunity to give expression to it through one's own activities as well as the development of the art of public speaking are other elements of our educational program which were unthought of a generation ago. We have come a long way on the road to improved educational programs and unquestionably we can continue to improve our methods. It is doubtful and probably desirable that we never reach the goal of perfection, but we can at least be certain that our Newton school system is approaching the problem with understanding and reason.

## THE COMING OF SPRING

Spring! At this particular time of year no other one word is as full of meaning. Although it is still a few days before the official arrival of the new season and although it may still be a few weeks before the weather actually proclaims its advent, there are many signs of Spring in the air. The annual flower show, which attracts thousands of nature lovers, is one harbinger. The approach of Easter is another. And it will take but a few days of warm sun and milder temperatures to start the buds bursting on their way to the glory of nature. The significance of Spring is but a natural development. It is the new life created in the earth that develops into the beautiful things of nature. So, too, does it create new life, new hope, new inspiration in the lives of humans.

## Autos Crash on Crafts Street

Cars driven by Paul Dangelio of 112 Chapel st., Nonantum and Sophie Ramsden of 22 Melville ave., Newtonville collided on last Thursday night at Crafts st. opposite California st., Newtonville. Grace O'Meara of 510 California st., who was riding with Dangelio, received injuries and was taken to the Newton Hospital for treatment. Nina Castagnino of 680 Boylston st., Newton Highlands, a passenger in the other car, claimed she received injuries to her head and side.

## LASELL JUNIOR COLLEGE

The Lasell orchestra gave a pops concert, "The Round Up," in the dining room at Bragdon Hall, last Friday evening, under the direction of Miss Anna Eichhorn, with Walter Kidder as soloist. Rae Salisbury of Waban is leader of the orchestra, and Sarah Gwen Davies of Lansford, Pa., is general chairman.

A tea for the first year secretarial students and their guests was given Thursday afternoon at Woodland Park. Miss Abigail Elliott, director of the Ruggles Street Nursery Training School, was the assembly speaker on Friday morning.

Norumbega Cubs To Hold Craft Palava

The Cub Packs of Norumbega Council, Boy Scouts of America, will hold their Annual Craft Palava on Saturday afternoon, March 20, between the hours of 2 p. m. and 6 p. m., at the F. A. Day Junior High School, Newtonville.

The Palava program will be divided into two parts: Exhibits of Handicraft and Demonstration of Activities. The first, under the supervision of Herbert Smith, cubmaster of Pack 10, Waban, is designed to give the Cub Scouts an opportunity to show craft work they have done and to view that done by others. This includes Indian costumes, painted dishes, drums, maps, woodwork, baskets, wagons, rope, neckerchief slides, kitchen utensils, and other small projects.

The second part of the program is directed by Arthur Peterson, chairman of the pack committee of Pack 15, Pack 4 of Newton Highlands, with Cubmaster Nathaniel Doten, will present Cub opening and closing ceremonies. Pack 7C of West Newton, under the leadership of Cubmaster Kenneth Hight, will demonstrate the proper method of conducting pack meetings. Pack 19 of Newton Centre, Stanley Merrill, cubmaster, will present the initiation of a new Cub. Herbert Smith's Pack 10 will give a skit on the Den Dads. William V. M. Fawcett, president of Norumbega Council, with the assistance of Pack 22 of Newton, will demonstrate by actual awards the proper ceremonies for such functions. Pack 20, Warrenton, will present various games. Pack 7A, under the guidance of Cubmaster James Walton, will present den stunts, while Pack 6, with Cubmaster Clarence Doten, will demonstrate the Indian council meeting. Cubmaster Philip Shute with Pack 15 will hold graduation ceremonies for the Cub advancing into Scouting.

## Girl Scouts

On Tuesday evening, March 16th, Girl Scouts of Troops 7 and 17 of Newton Upper Falls had a get-together in celebration of the 25th anniversary of the founding of Girl Scouts. This meeting was held in the Emerson School Kindergarten, and all former Scouts and leaders were invited. Many were able to attend and enjoyed renewing old acquaintances. On the program were the giving of the Girl Scout oath by the girls, the reading of the Girl Scout Promise by Miss Caroline Freeman of West Newton, who was the first captain of Troop 7. The members of Troop 7 gave a short skit, and the seniors presented several scenes from the life of Juliette Low. Movies of Camp Mary Day were then shown by Miss Margaret Adams, Newton Local Director. A special feature of the evening was a large decorated birthday cake with 25 green candles. After this everyone joined in a large circle and sang Taps.

## St. John's Men's Club Hears Talk on Socialism

At the regular monthly meeting of the Men's Club of St. John's Church in Newtonville on Thursday evening, March 18, the well-known lecturer, Mr. F. G. R. Gordon of Haverhill, told about his evening with Leon Trotsky and showed the dangers of the socialization of privately-owned businesses. Mr. Gordon believes that this nation is facing its greatest danger since the second election of Abraham Lincoln. As an example of the disadvantage of organizations run by the government, he pointed out that in Europe, the railways pay less wages, charge higher freight rates, pay no taxes, and are yet unable to make both ends meet. In this country, however, the privately-owned railways show a profit in spite of higher wages, lower rates, and taxes.

Our taxes, cost of government, and federal, state, and municipal debts have been considerably increased since 1913. "What is the trouble? Too much government, too many offices, too many laws. We will soon be divided into two groups—the tax eaters and the tax payers. Socialism would abolish poverty by making every man, woman and child a pauper."

A claim was received from A. L. Federico who wants the city to pay him \$4200 in connection with the laying of a water main along Boylston st. a few years ago. He claims unreasonable requirements from the city delayed him. An offer of \$300 was received from C. C. Temple for a lot of land owned by the city on Stetson Way, Waban.

A petition was received from the Lincoln Realty Company for an extension of a non-conforming use for the conduct of a gasoline station at its property on Commonwealth ave. near Chestnut st., Newton Centre. The petition asks that the storage of gasoline be increased from 500 to 1500 gallons, the tank to be at the rear of the building and a dual pump be permitted on the curb at the sidewalk in front of the building on Commonwealth ave. at number 558. A public hearing will be held on this matter. The Newton Corner Nash Company was given a permit to sell second hand cars at 51 Elmwood st., Newton.

## SARAH HULL CHAPTER, DAUGHTERS OF THE REVOLUTION

Sarah Hull Chapter, Daughters of the Revolution held the March meeting on Wednesday, the 10th, at the home of Mrs. Edson J. Gould of Washington st. Mrs. Albert Hinkle of the recent, called the meeting to order and after the pledge to the flag there was a short business session. Reports of the previous meeting and committee reports were read and approved. The annual gifts to the John A. Andrews Home at Newtonville and the Pine Mountain School in Kentucky were recommended. It was voted to have a series of small card parties and the first will be a dinner bridge on the 19th at the home of Mrs. Franklin E. Smith of Fairmount avenue.

These parties are for the benefit of the chapter's philanthropic work. Following the business meeting Mrs. Florence LeBuff, councillor for the afternoon, introduced Professor Payson S. Wilde of Harvard University. Professor Wilde gave a very interesting and instructive talk, his subject being "Neutrality."

There was a social hour and refreshments. The dining room was in charge of Mrs. Gertrude Whiting and the pourers were Mrs. Sidney R. Carter and Mrs. Daniel M. Goodridge. Hostesses for the afternoon were Mrs. Edson J. Gould, Mrs. Charles E. Morrow, Mrs. Sidney R. Porter, Mrs. George N. Putnam and Mrs. Freelar

O. Stanley. The April meeting will be at the home of Mrs. W. L. Ratcliffe of Franklin st.

## Aldermen Meet

At the regular meeting of the Board of Aldermen on Monday night all members were present except Alderman Inches, who was ill. The first business on the docket was a hearing on the petition of the Edison Company for pole locations on Anna rd., Waban. No one opposed and the permit was granted. Hearings were also announced on petitions of Arthur Claffee for a 3-car garage at 14 Trowbridge st., Newton Centre, and H. L. Hammond for a 3-car garage at 170 Dartmouth st. There was no opposition and the petitions were granted.

A hearing was held on the petition of Joseph Switzer for a permit to alter his gasoline filling station at 441 Watertown st., Newtonville, and to increase the storage there from 2000 to 5000 gallons. Mr. Switzer stated he desires to modernize the station. There was no opposition and the petition was granted. Another hearing was on the petition of Frank I. Fisher, Jr., for a permit to install five 5000-gallon tanks for the storage of fuel oil at 296A California st., Nonantum; the tanks to be underground. No opposition to this petition appeared at the hearing. Chief Raylett of the fire department informed the Licenses Committee that he considers it hazardous to store so large a quantity of fuel oil so close to wooden buildings. The Chief expressed the belief that a storage maximum of 10,000 gallons is sufficient. The committee took this matter under consideration.

On motion of Alderman Rawson, Chairman of the Claims and Rules Committee, the Board voted to change from manufacturing to general residence zone the district bounded by the Boston & Albany Railroad, Elliot st., and Margaret rd. This section of Upper Falls, although developed for residential purposes years ago, was kept in a manufacturing zone, thus jeopardizing the future of the homes located in it. Mr. Rawson commented that Alderman Templey, who is, of course, known to the Upper Falls, had advocated the change, and that owners of properties affected had also asked for it.

On motion of Alderman Goddard of the Traffic Committee, the Board voted to make Short st., Waban a one-way st., going from Chestnut toward Beacon st., and that left turns from Beacon st. onto Short st. be prohibited.

Appropriations made by the Board included—Street Department, resurfacing of North st., Newtonville, \$35,000; tools and equipment for WPA projects, \$1000; Water Department, to eliminate dead-end on North st. main, \$2210; new mains in Court st. and other streets, \$3315; pension for Antonio Cedrone, retired city laborer, \$814.40; pay deficit 1936 bills, \$3170.65. An unused issue of bonds to the amount of \$172,000, authorized on October 3, 1935, was ordered cancelled by vote of the Board. The amount of \$5872 remaining from the appropriation made for drain work at South Meadow and Stearns Brooks, was authorized to be used to extend a concrete culvert to a point 35 feet northerly from Dedham st. To pay medical expenses for Patrolman George Henricks, injured while on duty, \$155 were appropriated.

A claim was received from A. L. Federico who wants the city to pay him \$4200 in connection with the laying of a water main along Boylston st. a few years ago. He claims unreasonable requirements from the city delayed him. An offer of \$300 was received from C. C. Temple for a lot of land owned by the city on Stetson Way, Waban.

A petition was received from the Lincoln Realty Company for an extension of a non-conforming use for the conduct of a gasoline station at its property on Commonwealth ave. near Chestnut st., Newton Centre. The petition asks that the storage of gasoline be increased from 500 to 1500 gallons, the tank to be at the rear of the building and a dual pump be permitted on the curb at the sidewalk in front of the building on Commonwealth ave. at number 558. A public hearing will be held on this matter. The Newton Corner Nash Company was given a permit to sell second hand cars at 51 Elmwood st., Newton.

## Central Church To Observe Palm Sunday and Holy Week

In Central Congregational Church, Newtonville, Palm Sunday will be observed with an appropriate sermon by the pastor, Rev. Randolph S. Merrill, and the singing of "The Psalms" by the combined Young People's and Carol Choirs. Also, Franklin G. Field will sing an offertory solo. At 5:00 in the afternoon Central Church will unite with the other Newtonville churches for the last of the Lenten Vesper Services, in the Church of the New Jerusalem, with the Rev. J. Franklin Knotts as preacher and music by an inter-church chorus choir under the direction of R. B. Capon, organist of the entertaining church. On Thursday evening in Holy Week a communion service will be held, at which a large class of adults and young people will be received into membership. On the evening of Good Friday a service of worship will be held, with an address by the pastor and music by the combined Chancel and Young People's Choirs.

## REAL ESTATE

The Carley Realty office has found homes for the following satisfied customers: Property located at 109 Glen avenue, Newton Centre, leased for Edmund I. Howard to Ronald W. Adams; property located at 15 Turner st., Newtonville, leased for Hazel B. Atwood to Willard S. Fawcett; property located at 96 Central avenue, Newtonville, rented for W. P. Varnum to R. Irving Blanchard.

62 YEARS AGO

Newton Republican, March 27, 1875

At the meeting of the Board of Aldermen on Monday afternoon the committee on Licenses reported in favor of permitting B. F. Houghton to erect a building for business purposes between Elm and Cherry sts., Ward 3.

Mr. Leland, who has charge of the choir of Grace Episcopal Church at Newton, proposes to ring the bells every morning at sunrise during Easter week. Upon every festival thereafter occurring on a week day the peal will be rung at 7:30 a. m.

The "dry hole" (fire department reservoir) in Nonantum Square, Newton, about which there has been so much talk as to its uselessness, now contains 8 feet of water.

On Wednesday night of last week a portion of Deacon Stone's barn at Newton Centre fell, precipitating three horses into the cellar. The most valuable of the three was killed; the other two uninjured.

The Mayor stated a generally acknowledged fact last Monday when he said that the streets of Newton were never in better condition, and that the authorities never got so much work in proportion to the expense as last year. This is probably true of all departments of city work.

The Water Commissioners are said to be looking with envious eyes on Institution Hill as a location for the central reservoir.

A fine entertainment was given in the Catholic Church on Tuesday evening to aid in paying for the organ. A crowded house attested the interest felt in the object. The program was well arranged and acceptably given by a choir of 40 singers who rendered songs, dialogues, declamations, etc. Mr. C. P. Harkins and other members of the committee are entitled to much credit for successfully carrying out the program.

## 50 YEARS AGO

Newton Graphic, March 19, 1887

E. P. Burnham is the first to bring out a wheel this year and on Monday he rode to Newtonville on his tri-cycle. It was not a long ride, but it was long enough over such roads.

The policemen have been distributing the water bills with strict impartiality the past week. The recipients cannot fail to admire the esthetic color of the paper on which the bills are printed, as well as the size of the bill itself.

E. J. Estabrook of Boyd st. sent a carriage after some of the Aldermen during the thaw last week and had them inspect conditions of things on that street. Water in every cellar, water on the crosswalks up to the top of a man's rubber boots and several inches of water on sidewalks, gave the Aldermen a better idea of the situation than several hours of discussion at City Hall would have done. The Boyd st. drain will probably be built this year.

The Newton Library will be closed until further notice while the work on the new addition is being completed. No books will be delivered this week as the books belonging to the library must be returned before April 1. This is an imperative necessity and such action should have been taken several weeks ago. The librarian and her assistants have had their health seriously endangered working in the building since openings were made in the addition, which have let in cold air, dust and noise in about equal proportions. About half the shelves have been taken down and the books piled up in heaps, which made the work of sorting and delivering them about quadruply hard. In a few weeks the library will be opened. The patrons will appreciate it more after having been deprived of its privileges for a time.

The first robin of the season appeared on Newtonville ave. Wednesday morning. He was not a cheerful-looking bird and his voice was rather wheezy, as well it might have been with the thermometer at 22 degrees.

Editor, Newton Graphic: I noticed in one of the Newton papers a recent letter advocating a new station on the Boston & Albany Railroad between Newton and Newtonville and advancing very sensible reasons therefore. Not to minutely repeat the reasons, they are, in brief, that perhaps 200 persons, probably more, would daily avail themselves of the new station and it would be an additional inducement for newcomers to occupy this most desirable section of our city. A new station at this point would in the future be a source of profit to the railroad and a benefit to the City of Newton.

(Signed) Progress.

The new water meters will soon become as unwelcome as gas meters, judging from the size of this year's water bills, which gave an unwelcome surprise to consumers.

## Powers' Paragraphs

A petition is before the Board of Aldermen from the Lincoln Realty Company asking for a permit to keep and store 1000 additional gallons of gasoline at the rear of the building at Commonwealth avenue and Chestnut terrace. Also that a permit be issued to erect a dual gasoline pump at the curbing on the sidewalk in front of 558 Commonwealth avenue. A hearing will be held at City Hall on this petition.

So far as the petition for the dual pump on the sidewalk is concerned, a precedent was established on this phase of gasoline merchandising years ago by former Newton Boards of Aldermen. The stand was taken that no more permits would be granted for gasoline pumps on sidewalks, and none was granted. Some of the existent sidewalk pumps have been in their locations since before zoning was adopted in Newton. In fact, sidewalk pumps came into vogue in the early years of the automobile.

One very good reason why the Newton Board of Aldermen stopped granting permits for more sidewalk pumps is—that they have no legal authority to grant such a permit. Sidewalks are public property and no permits for stationary objects or structures for the conduct of private business may be granted of them. The City Solicitor of Newton ruled years ago that such is the law.

The letter in a recent issue of the GRAPHIC from Herbert Kellaway of the Newton Planning Board, relative to the continued use as a dump of the land at Newton Centre donated by Edwin S. Webster in 1933 for playground purposes, merits serious attention by city officials. It is not fair to Mr. Webster to have his generous contribution for civic purposes undeveloped. It is not fair to persons residing in the vicinity to have an eyesore in their neighborhood indefinitely. Incidentally, when the very expensive incinerator was erected at Newton Highlands it was asserted and reasserted that no more rubbish would be deposited in dumps or burned in dumps. As Mr. Kellaway suggested, why not use some of the WPA workers at the Webster playground (?) area instead of keeping so many at the Cold Spring area, much of which will not be used for many years.

We congratulate Mrs. Mary McAffigan of Boyd street, Newton, on the good luck which came to her this week and we hope it will be increased many fold before the week is over. Years ago we were employed at the Shepherd Worsted Mills where Mrs. McAffigan has been a forelady for the past 20 years. Like all who have been associated with her, we respect her for her fortitude, honesty and unselfishness.

The success of the first big sit-down strike out of Detroit way, the complaisance of Governor Murphy toward the strikers and the sympathetic attitude of the President, naturally have encouraged others to indulge in similar strikes. Just where this movement will end, is the question which is worrying many now. Our radical friends are more than pleased with the way things are going. We predict that when the sit down strikes reach the

point where they will make life disagreeable for the majority of plain Americans, public opinion will insist on some other method being used to settle the differences between capital and labor.

With social conditions in the state of unrest they have been in for the past several years, it wouldn't be a bad idea for those who possess plenty of wealth and who oppose radical economic or social changes, to discourage the inordinate display of luxury by themselves or members of their families. Photographs in the newspapers and periodicals of young ladies garbed in mink and ermine and adorned with jewelry which cost a fortune, are not apt to make the masses satisfied with their lot.

The action of the British and U. S. A. government in reducing the cost of visas on passports from \$10 to \$2 is belated, but quite acceptable. The fee for United States passports should now be reduced from \$10 to about \$2.50.

The victory gained by City Solicitor Bartlett in the litigation over the operation of the Highland Sand & Gravel pit at Oak Hill will be appreciated by residents of Oak Hill, and should be appreciated by all citizens of Newton. The issue at stake was the right of the people of Newton to enforce the zoning ordinance passed in 1922, through their representatives, the members of the City Government. The managing owner of the big gravel pit area, George Wilbur, by use of a court injunction, nullified for months the action of the Board of Aldermen in refusing to again renew the permit for the operation of the gravel pit business in a residence zone.

The writer, with Warren K. Brimblecom, conducts the Newton Steamship Agency at 11 Centre ave., Newton and will be pleased to be of service to anyone who intends to travel by steamship. For those who may want a more extended cruise—there is the North Cape-Russia Cruise on the FRANKONIA sailing from New York on June 26 and returning August 15, the cost ranging from \$525 up. One can take a six days' tour to Washington on the Merchants & Miners Line from Boston for \$35—or a 10 days' tour to Savannah for \$66. There are cruises to satisfy those who can only spend a little, or those who can afford to spend considerable. We shall be glad to receive your patronage. Our phone number is Newton North 4501.

## ONE THING AND ANOTHER

By L. D. G. BENTLEY

### As to Sneezing

There may have been little severe weather this winter but there has been plenty of sneezing. In fact, I have involuntarily witnessed the sneezing of it that it has become something of a study. What has most impressed me is the varied reaction. In one instance a man will sneeze as if committing a crime. Fearful of having been detected he will glance furtively about him to see if he has been caught in the act.

Another man may be walking along the street at the time when the sneeze overtakes him. He will halt, sneeze violently, shake his head as a lion tosses his mane and then march on proudly, making as much of the achievement as possible. Then there is the person who seeks to stifle this perfectly natural experience. His face will redden, his eyes fill with water and he will blink and stare until the sneeze—usually in such a case a mild one—is emitted. His efforts at repression are made, I suppose, because he thinks that sneezing should be done only in the privacy of one's chamber.

There are men and women who sneeze with the utmost indifference to those about them. After several sneezes they will look around, defiantly, saying to themselves, no doubt, "If these people don't like my sneezing they can go to the devil."

Some people, having once started, have the full course to go—sometimes as high as 25 sneezes—before they can stop. Another sneeze has the horn effect, almost terrifying in the volume of its tone. On the other hand there are staccato sneezes which can be quite as irritating. There are other forms, too, and altogether a wide variety is maintained, which proves that people differ as much in their sneezing as in their thinking.

### Puzzling Question

Let this be a warning to those whose weight is increasing but who continue to disregard that fact and reveal it only if adipose tissue did not reveal itself in embarrassing forms. Take for instance the jowls, or rather the double or even triple chin. I have in mind a Newton man whose good looks are marred by three rolls of

flesh between his mouth and the collar of his shirt. The other day, in commenting upon a business deal, he growled, "I had to take it on the chin," whereupon his chin inquired, "Which chin?"

### The Way to "Take It"

Among the minor heroes and heroines of everyday life, as I look about me, are men and women who maintain their dignity and calm when they are given the wrong telephone number. Some people become exceedingly angry at an error in the connection and not only condemn the operator but blast the innocent party whose number has been called by mistake. I myself have suffered abuse—until I hung up—from persons who made a call on my phone when it should have been a different number.

An instance where the caller was thoroughly good natured came to my personal attention in my office on Beacon Hill last week. When I answered the ringing, a pleasant voice inquired, for someone of whom I had never heard. Said I, "Do you want the State House?" To this came a cheery reply, "No, thank you, I couldn't use it this morning."

### Literary Lapses

Bravely enough I promised myself to keep track of the books I should read this current year. That was late in December of last year, the period when a lot of splendid ideas and excellent intentions crowd our minds and compete for fulfillment. Well, I did for a while maintain a fairly accurate list of books that interested me as well as those that did not.

One day I paused, asking myself why I had gone to the trouble of writing down title, author and publisher along with a word of comment. What had inspired me and what did I hope to accomplish? For the life of me I could not remember. I was confident that when the idea presented itself there was some reason—no doubt a noble one—and yet it had slipped from my memory. At present I am still reading but am not making notes. If and when I recall what it was all about I may resume.

## Second Sport Lecture For Library Building Fund

The second of the two lectures by local sportsmen for the benefit of the building fund of the Newtonville Library Association will be given this evening in the high school auditorium, Newtonville. Charles B. Floyd of Auburndale, well-known bird-banding authority and secretary of the North-eastern Bird Banding Association, will speak on "Birds and Bird Banding."

The lecture of last Friday by "Pete" Blodgett on "Bears, Salmon and Beaver" was enthusiastically received by the large audience which was in attendance. Moving pictures accompanying Mr. Blodgett's talk showed graphically many of the incidents experienced on a trip to Alaska a few years ago. From the start of a trip in a small aeroplane of unknown capabilities until the completion of the journey's objective, the hunting of Kodiak bear in unfrequented parts of Alaska, the story unfolded in a series of thrilling experiences like that of Alaska fiction. A subsequent showing of films of the life of beavers, while without the thrills of danger and sport, gave a most interesting insight into the habits of these industrious animals amid the intimate surroundings of their habitat.

In presenting these lectures the Newtonville Library Association maintains a twofold purpose of aiding in the promotion of education and in the accomplishment of providing that section of Newtonville with a branch library adequate to meet the community's need.

## Lower Falls Girl Selected in Syracuse U. Beauty Contest

Selected by John LaGatta, well-known illustrator, as one of the 15 most beautiful junior women at Syracuse University, Miss Mary L. Bettinger of Newton Lower Falls, will compete in the final contest to determine the six 1937 Junior Beauties.

The selection was made from a semi-final group of 27 coeds, chosen from more than one hundred entrants. Final choice of the six winners will be based on personal interviews to determine poise and personality as well as natural beauty.

Announcement of the winners will be made at the annual Junior Prom, to be held in April. Junior Beauty portraits will also be a main feature of The Onondagan, campus yearbook. Miss Bettinger, daughter of Mr. and Mrs. Hoyland B. Bettinger, is majoring in art in the College of Fine Arts at Syracuse. She is president of Haven hall, women's living center, a member of the Chapel choir and of Sigma Chi Alpha, honorary public school of art society.

## Rep. Bowker Speaks At Young Republicans' Meeting

Representative Phillip Bowker of Brookline was the guest speaker at the March meeting of the Young Republican Club of Newton, which was held Tuesday evening in the auditorium of the Clafin School, Newtonville.

Representative Bowker spoke on "The Present Situation on Beacon Hill." He commented on the significant changes and developments on Beacon Hill since the inauguration of Governor Hurley and the evacuation of the Curley forces.

Mr. William F. Garcelon, President of the Massachusetts Club who introduced Representative Bowker, prefaced the introduction with a talk on "The Need for Organization for Preservation of American Principles."

At the close of Representative Bowker's address, the meeting was thrown open for a general discussion.

## Auburndale Girl In Vocal Recital for Lasell Students

A capacity house of nearly five hundred attended the vocal recital given to Lasell College students at the Auburndale Woman's Club on Friday morning last by Miss Eleanor Harris of Washington St., Auburndale. Miss Harris is a pupil of the noted teacher, Mme. Adelaide Gescheidt of New York, and although but a young singer, gave a performance which would do credit to a mature and experienced artist and bids to be one to be heard from in the musical world.

Miss Harris was accompanied by Miss Laura Kelly of Lexington (a pupil of Lefler). A special composition was accompanied by Mrs. Moses Gulesian of Chestnut Hill. Miss Harris has also sung on two occasions for Mme. Geraldine Farrar, and will sing in May for the Newton Center Woman's Club and the New England Women's Club, Boston.

## Watertown Girl Crowned Snow Queen At Carnival

Miss Barbara Woodland, daughter of Charles L. Woodland of Watertown, was recently crowned Queen of the Snow at the Carnival Ball of Cushing Academy where she is a student. Miss Woodland was presented with a silver cup. Attired in a black net gown with a corsage of white gardenias and with a Crown of white gardenias she made a most striking and charming picture. Miss Woodland attended Oak Hill Seminary before entering Cushing Academy. She has many friends in the Newtons who are pleased to hear of her selection as the Snow Queen.

## LYDIA PARTRIDGE WHITING CHAPTER, D. A. R.

On Tuesday, March 23rd, at 2:15 o'clock the Lydia Partridge Whiting Chapter will meet at The Workshop, Columbus street, Newton Highlands. Mr. William H. McCarthy, State Director of Division of The Blind, will speak on "What the Commonwealth is Doing for the Blind."

Miss Helen Goodwin of Cambridge will be a guest of the Chapter with her "Seeing Eye" Dog and will demonstrate this unusual work for the blind.

## HOME MODERNIZING & GENERAL BUILDING PAGE

GEORGE P. STUART, Consulting Architect

This feature section is designed to help readers with problems pertaining to home modernizing and general building. During the past few years there have been many improvements made in building products, furnishings and construction methods that makes for comfort, attractiveness and permanency, and we hope to present articles along these lines from week to week.

Most homes need improvements of one kind or another, and people are interested in bringing their residence up-to-date. Modernizing of various kinds can do much to make the home more enjoyable. The field for new building in Newton has steadily increased with over four million dollars expended last year for building construction. At present many fine estates are being developed in various sections and for those planning to build we hope to be of service.

Churches throughout the City require more or less attention. Masonry walls need repointing and waterproofing to stop further deterioration. New painting, decorating, windows and furnishings are needed. Much can be done to other buildings to make them of more value. Improved store fronts and renovations are continually in demand.

We trust the articles represented will be helpful and that readers will feel free to call upon companies, for information and estimates, who make this section possible. Requests for advice on modernizing and general building may be sent to the consulting architect.

## A House Is No Better Than Its Frame

The average person building a house gives little thought to the lumber that goes into the frame and yet the durability of the building depends largely upon this very item. So-called green or inferior lumber is sure to shrink and probably warp during the slow drying process that takes place in the house. This shrinkage and warpage will effect the doors and windows, crack the plaster, ruin the floors and cause trouble with plumbing and heating lines.

The cost of the framing lumber to the builder is a small item compared with the total cost of the house, but for the sake of saving a few dollars on inferior lumber that is covered up, the future durability of the building is sometimes sacrificed. This situation can be avoided when a house is built to specifications under supervision.

## Cheap Window Cords Cause Trouble Later

One of the things that is least thought of when building a home is window cords. To the average person all sash cords look more or less alike. Nevertheless, there is a great difference in them; in the materials they are made of, in the way they are constructed and in the service they give.

A good sash cord cost but a few cents more per window but is worth dollars more in wear. Like most things inferior window cords look good when new but can cause considerable damage and expense later. Be sure your specifications call for best quality window cords and avoid trouble from cords that break.

## Church Walls Deteriorate

The masonry walls of Churches should be looked over at least once in five years for cracks in mortar joints and where necessary raked out and repointed with a good non-shrinkable cement. Cast stone trim and walls exposed to the elements should be waterproofed regularly by experienced waterproofer.

Churches are considered one of the hardest type of structures to keep water tight and the longer masonry goes without attention the more it costs to repair the damage. When deterioration starts it destroys rapidly and if let go may weaken the edifice to a point of danger.

It is for the interest of every Church member to know that the Church structure is not deteriorating. It is as important as having the Church adequately insured.

## Questions and Answers

Mr. Stuart will be pleased to answer any questions relating to home modernizing and building. Inquiries may be addressed to him c/o Newton Graphic.

We want to make a play-room in our basement but the floor is inclined to be damp and wondering if linoleum can be stuck down so as to stay?

If floor is damp it should be waterproofed before putting down any floor covering, otherwise the covering will not stay stuck and in no time would be ruined.

We are having trouble with drawing hot water from more than one faucet at a time. What can be done to remedy this?

In all probability the hot water pipes have become clogged from chemical action of the water which cuts down the flow when the lower faucets are in use. Hot water precipitates this deposit quicker than cold water. The only remedy is to install new piping.

Are the various insulation boards that are advertised to take the place of wood sheathing serviceable?

Most insulation boards today are built to take the place of wood sheathing and at the same time provide insulation. It is of course important to see that the wood studding is properly braced.

Our house is not very old but the plaster around the chimney has cracked quite badly. The hearth of the fireplace is about a half an inch higher than the floor. Is this caused by poor construction?

The trouble is probably caused by shrinkage in the wood frame and by framing too close to the masonry. The shrinkage might have been reduced to a minimum had the lumber been well seasoned. Framing around a fireplace hearth should be hard yellow pine, but is not used unless specified. The plaster cracks should not be filled until it is through setting.

## Wants City To Pay For Loss From Fire

A unique claim for damages against the City of Newton was filed last Monday by Benjamin F. Monaghan of 3 Auburn st., West Newton. A serious fire occurred in Monaghan's home on March 8. The fire was discovered shortly before 10 a. m. and an alarm was sounded by Patrolman Dowling. Monaghan contends that a fire alarm box near his home was defective and delayed the sending of the alarm. Also, that when the firemen arrived and attached hose to the hydrant nearest the house, water could not be obtained. It was necessary to then attach the hose to another hydrant a short distance down Auburn st., near Curve st. A valve in the first hydrant had rusted. Monaghan contends that the alleged defective alarm box and the defective hydrant delayed the firemen 21 minutes.

### Young Auto Thief Caught in Conn.

Malcolm Reardon, 16, of 18 Lakeville rd., Jamaica Plain, was arraigned in the Newton court on Monday and his case continued until March 26. It is alleged that Reardon was one of four youths who stole a car in Boston last Thursday night and wrecked it on Brookline st., Newton Centre. They then stole a car owned by John Janse which was parked on Greenwood st. nearby. The thieves were pursued by one of Janse's sons in another car to Wellesley where they again were in an accident and crashed with Janse's car. Young Janse tried to capture two of the car thieves, but they escaped. Some of the youths stole a third car in Wellesley and Reardon was captured in this car by police of Darien, Conn., early Friday.

**THAT'S WHY "GOODWILL" USED CARS ARE SPOTLESS, TROUBLE-FREE and SOUND AS A DOLLAR**

If you ever saw your Pontiac dealer recondition a used car, you would think that he was preparing it for his own personal use—21 separate operations are performed before the car carries the famous "Goodwill" tag. Yet, you pay no more

used car—and, if you buy now, you'll find that you'll pay a lot less! Pontiac dealers have dropped prices to

the very bottom on all "Goodwill" used cars to keep them moving in proportion to new car trade-ins. Turn to the classified section of this newspaper for Pontiac dealers' "Goodwill" bargains. Choose the car you like best—then

hurry to the dealer who has it for sale! Don't waste a minute—some other buyer might beat you to the bargain!

## Samuda Pays \$50 Fine at Cambridge

John B. Samuda of 3 Beacon pl., Newton Centre paid a \$50 fine in the Superior Court at Cambridge last Friday for driving a car after his license had been suspended. He was arrested at Newton Centre on November 19, and found guilty in the Newton court on December 2. Fined \$50 then, he appealed. At Cambridge last Friday he changed his plea to guilty and paid the fine.

### Elect Officers And Discuss Plans of Waban Imp. Soc.

The annual meeting of the Waban Improvement Society was held in the Angier School last Friday evening. Reports were given by Robert J. M. Fyfe, chairman of the traffic committee; John H. Underhill, chairman of the parks and playground committee; Philip Ver Planck, chairman of the bus and transportation committee; Lewis E. Day, secretary-treasurer, and by Lawrence Allen, the retiring president. Mr. Allen reviewed briefly the varied work accomplished by the society the past year and referred particularly to the "Land Fund" now being raised. He then called on Mr. J. H. Underhill, chairman of the "Land Fund" committee, to report.

Mr. Underhill, reporting for the "Land Fund" committee, consisting of the chairman, the president ex officio, R. J. M. Fyfe and E. S. Whitten, stated that over \$1400 of the \$2000 quota had been raised and that he hoped everyone would continue to urge contributions so that the fund could be raised before April 1. The "Land Fund" contemplates the purchase of the land opposite the stores and belonging to the Boston & Albany Railroad and presentation of the land to the city of Newton. The purpose is to prevent bad congestion at the village centre in case of an attempt to build stores on this strip of land.

Officers for the ensuing year were then elected as follows: President, John H. Underhill; vice-president, Donald Robbins; directors for three years, S. T. Douglas and Mrs. James D. Dow. A most interesting speaking program followed. Mr. Freethe explained the special "Arts and Crafts" exhibit at the Neighborhood Club on Sunday afternoon, April 4.

Mr. C. Raymond Cabot of Newtonville, president of the Newton Citizens' Association, gave a convincing talk on the value of that organization in acquainting the citizens regarding candidates for political office.

Mr. Leon Rogers of West Newton, president of the Newton Taxpayers' Association, spoke on the progress of

this work. He then introduced Mr. Norman MacDonald of Waban, who is executive director of the Massachusetts Federation of Taxpayers' Inc. Mr. MacDonald very definitely showed how concerted and intelligent action can curb useless and unwarranted expenditures in government, whether local, state or federal.

## CAPE COD WEATHER GLASS

Memories of the old-time square rigged sailing ships, especially the "Yankee Clipper" of the 1850's, have always been surrounded by glamour and romance.

The Newton Glass Co. is featuring hand-blown antique reproductions of the Weather Glass which was used on these ships, bringing to this modern world of ours just a faint touch of the romantic adventurous spirit of our forebears who went down to the sea in ships.

Weather Glasses of the "Clipper Ship" era were consulted as freely by the officers of those famous ships as the modern barometer is consulted by ships' officers today. As it actually forecasts changes in weather conditions, it is both a useful and attractive wall decoration and can be easily colored to match other home furnishings.

# LOOK AT LA SALLE!

## THE GREATEST SALES IN HISTORY

The new La Salle V-8 is selling at the fastest rate in La Salle history. And small wonder—for here, surely, is the greatest value the fine-car field has ever seen.

Prices begin at only \$1095 for a car designed and built entirely by Cadillac—and powered by a 125 horsepower V-8 Cadillac engine!

And, remember, that is the DELIVERED PRICE AT DETROIT, and includes all standard accessories. Only transportation, state and local sales taxes need be added.

The new La Salle V-8 is economical, too. It is unusually sparing of gasoline and oil, while service costs are surprisingly low.

In fact, many say their new La Salles cost less to drive than cars of even lower price.

Before you buy a car at any price, we urge you to look at La Salle. The chances are your present car will make the down payment.

## WOMEN'S CLUB ACTIVITIES

Edited by EMMA D. COOLIDGE

### West Newton Club Hostess To Club Institute

The West Newton Women's Educational Club will be hostess to the Clubs of the Twelfth District on their regular Club meeting day, Friday, the 26th of March, for a Club Institute, to which all clubs with a membership of 150 or less are especially invited. This will be held in the Unitarian Parish House, Washington street, West Newton, at 2 p. m. The Institute is to deal with the "Problems of Small Clubs." Mrs. Ernest A. Dockstader, the Club's chairman of Program, and Mrs. John A. Jennings, the State chairman of Club Institutes, are arranging the program, which should be most helpful to the small club. All clubwomen interested are invited, and are asked to remain for tea.

After the Welcome by Mrs. John Shade Franklin, president of the Hostess Club, there will be Greetings from Mrs. Benjamin D. Miller, Twelfth District director; to which Mrs. Jennings, who will conduct the Club Institute, will respond. Among the topics to be presented are the following:  
"Getting Acquainted with the Federation," Mrs. David A. Wescott, second vice-president of the State Federation; "How Some Clubs in Massachusetts Handle Their Scholarships," Mrs. Burr J. Merriam, recording secretary of the State Federation; "Do Your Committees Keep Your Club in Close Touch with the Federation?" Mrs. J. Earle Parker, president of the Newton Federation; "How Far is the President Responsible for the Work of the Committees?" Mrs. Donald S. Clark, president of Ashland Home Study Club; "What Are the Requisites of a Desirable Club Member?" Mrs. Edward B. Gray, president of Auburn-dale Woman's Club; "How Some Clubs Earn Extra Money," Mrs. Ernest S. Curtis, past-president of Gloucester Woman's Club; and "Courtesies to Press Chairmen and Federation Secretaries; also Year Books and Bulletins," Mrs. Albion L. White, president of Daughters of Rhode Island. Parliamentary Procedure will be conducted by Mrs. George E. Hutchins, and there will be a question and discussion period.

### Club Institute To Be Held In Worcester

For the second time this season the State Federation will hold a Board Meeting and Club Institute in another city than Boston, the first experiment having been so successful in the Springfield Meeting. On Thursday, April 1st, they will meet at the Club House of the Worcester Woman's Club at 10:30 a. m. This Institute meeting is open to all clubwomen.  
Mrs. Grace Morrison Poole will be a speaker.  
Reservations for the luncheon, at 12:30 p. m., must be made with Mrs. Oliver W. Guinness, 264 Highland street, Worcester, before March 27th. Division sessions, open to every one, will be the afternoon feature. Many chairmen have invited speakers, and others will hold Round-Tables.

### Women's Auxiliary To Give Annual Dessert-Bridge

Mrs. Frank Ashley Day, Jr., of 170 Sargent street, Newton, will open her home on Wednesday, March 31st, for the Annual Dessert-Bridge of the Women's Auxiliary to the Newton Young Men's Christian Association. Mrs. Arnold C. Barker, of Newton, is General chairman. Mrs. L. Chase Kepner, of Newtonville, and Mrs. Fred B. Bond, of Newton Centre, are in charge of refreshments which will be served at 1:30 p. m. Mrs. Palmer York, of Newton Highlands, has charge of the candy, and Mrs. A. T. Sundborg and Mrs. Fred A. Hawkins head the ticket committee.

Proceeds from the sale of tickets, at 50 cents each, will be used for State and Foreign work of the Y. M. C. A., and for gift memberships to deserving boys. In past years much has been accomplished towards this end through large attendances, and it is expected that many tables of bridge will be in play. Clubwomen and their friends have always enjoyed these events of an Associate member of the Newton Federation of Women's Clubs.

Further information may be obtained from Mrs. A. C. Barker, telephone, Newton North 0421.

### Federation Suggests Poll On Supreme Court

The president of the General Federation of Women's Clubs, Mrs. Roberta Campbell Lawson, is receiving inquiries from all parts of the country on whether or not the Federation is taking a stand on President Roosevelt's Supreme Court Recommendations. As the Federation does not take a stand on controversial questions without the action of its member-clubs, Mrs. Lawson has addressed the following communication to presidents of State Federations: "Though not compulsory, I suggest an immediate duplex post card poll of all clubs in your State on Supreme Court Recommendations. Kindly send tabulated results to Headquarters—also result of any action taken by your State."

### Unusual Lecture Celebrates Guest Night

The Newtonville Woman's Club observed "Guest Night" on Tuesday evening, March 16th. The speaker was Mr. William La Varre whose subject was "Gold, Diamonds, and Orchids," a travelogue which portrayed vividly a trip by boat into the jungles of British Guiana. Mr. La Varre was careful to explain that he is not the type of explorer who just wants to go somewhere because he has nothing better to do, but that he is an economic explorer who seeks oil, minerals, medicinal barks, plants, and the sources of such that they may be available for use. This type of explorer receives very little publicity to day, he stated, whereas Marco Polo, also an economic explorer, is renowned for the account of his travels in search of the things needed in his part of the world.

In explaining how he became an economic explorer Mr. La Varre amused his audience by telling them that his first work along that line was in catching polecats in the vicinity of his father's farm in the Blue Ridge Mountains. He received \$2.75 and upward for each skin, and by this method earned enough money to go to Harvard University. While a student there he went on his first expedition to South America.

The trip of exploration which Mr. La Varre illustrated by lantern slides was one on which his wife accompanied him. They had one hundred husky negroes to paddle the huge boats that carried them many days' journey up a treacherous river to the base of a waterfall five times as high as Niagara. Here the boats had to be abandoned, and the provisions for a whole year were carried to the top of the falls. The journey from the base through the jungle to the top took a full day. Here new boats were built or purchased from the natives.

The photographs taken by Mr. La Varre and shown to illustrate his travelogue were most artistic, great care having been given to the composition and the balance of light and shade. There were some striking silhouettes of dark figures against the sky, sparkling play of light against huge deep shadows, clouds portrayed as a painter sees them, and appealing glimpses of a lady with jungle pets. The panning for gold in the muddy bend of a river and the finding of large diamonds was of interest to everyone. Many a woman must have envied Mrs. La Varre when viewing the profusion of orchids bestowed upon her on her birthday.

The pictures and account of the Indians and the trip down the Amazon also was most interesting.  
The travelogue was preceded by vocal selections by Mr. Albert Raymond, Baritone. He gave a group of four songs: "Dedication," "May the Maiden," and two songs of the sea, "Trade Winds" and "Roadway." For an encore he sang "My Little Banjo." Following the program refreshments were served in the Social Hall.

### Worthwhile Facts On Law Are Ablly Presented

The regular meeting of the Woman's Club of Newton Highlands was held at the Congregational Parish House on Tuesday, March 16th, the meeting being called to order at 2:30 p. m. by the president, Mrs. H. Herbert Hale.

A knitted afghan made by two of the Club members, Mrs. W. Irving Atwood and Mrs. Ednor L. Spooner, was on display. This afghan has been presented by them to the Club to be sent to the Rutland Sanatorium in the name of the Club.

The members voted to limit the Club Membership to 375.  
Mrs. Carl C. Peterson read some very startling facts relative to the cost of war, which should give everyone food for thought. Each white wooden cross now standing where poppies used to grow has cost \$25,000, she stated, not to mention the personal grief and loss they signify.

Mrs. Jennie Lottman Barron discussed "Laws Every Woman Should Know," with many enlightening and interesting comments, such as, "Not until 1902 did equal guardianship between a father and mother become a law." "Few people know that on the statutes of Texas is a law against snoring." "Uniform divorce laws are greatly to be desired in the present age of quick transportation. The reasons for this are all too obvious." "Health certificates ought to be compulsory before marriage." "Everybody should make a will." "Never sign a note or contract before careful reading of same." "Keep in touch with all changes in statutes."

Mrs. Barron's able presentation of facts in law held the keen attention of her audience.

### Motion Pictures Of Making Famous Pottery

At the next meeting of the Newton Community Club, which will be held on Thursday, March 25th, at 2 p. m., at the Underwood School, Miss Laura Lorenson will show motion pictures of the manufacture of pottery.

Miss Lorenson has visited many of the famous European potteries and will tell of her visit to the pottery at Stoke-on-Trent, Staffordshire, England, founded by Josiah Spode.

## WOMEN'S CLUBS

(Continued from Page 7)

There will be an Exhibition of Spode-bone china, stone china, earthenware, also a group of plates made for Royalty, and for other prominent European and American families.

Tea will be served by Mrs. Frank G. Dennison, chairman of the Social committee.

A program which always arouses keen interest was brought to the Newton Community Club members by Mr. James Ernest King, on Thursday, March 11th, at the Underwood School. Mr. King, editorial and feature writer of the Boston Evening Transcript, in discussing "Current Affairs," traced the economic development of this country from pioneer days. He spoke of the large exports of cotton, wheat, and iron, which created such an immense credit balance in the '90s, and of the change in this status due to the war. He also spoke of the report recently published by the National Resources Board which urges the building of large stocks of eight vital minerals as essential to national defense. He said the path of prudence lies in this direction. This country seeks peace first and foremost, but he declared that every sane man knows that war at any time may be forced upon us. For such emergency it is desirable that America be prepared. The hour closed with questions from the audience.

During the business meeting an announcement was made by Mrs. Daniel M. Goodridge that a Rummage Sale would be held on April 2nd and 3rd, the location to be announced later. A letter of thanks was read by Mrs. David Black for shoulderettes sent to Newton Veterans in the Chelsea Naval Hospital.

The "Art Corner" was very attractive with its dolls and costumes from many lands.

The pourers during the social hour were Miss Annie C. Pottle, Miss Emily C. Childs, Miss Mary Mugent, and Miss Rose Corley. Mrs. Richard H. Smith was in charge of the table decorations.

Mrs. Harold P. Fuller, assisted by Mrs. Florence Moore and Mrs. Frederick Reeve, held a Food Sale at the conclusion of the meeting.

## Education Conference

The Division of Education of the Massachusetts State Department of Women's Clubs, headed by Mrs. Harold T. Stetson, of Waban, will have a Luncheon-Conference at the Hotel Lenox, Thursday, March 25th, beginning at 1 o'clock. A panel discussion will be led by Mr. Leonard W. Cronkhite, of Cambridge, "Various Forms of Government in Force Today" will be presented. The speakers will be Judge Thomas F. Quinn, of Natick, on "Democracy"; Dr. Timothy A. Taranovic, of Harvard University, on "Communism"; Emil Alhborn, on "Nazism"; Judge Frank Leveroni, on "Fascism"; and Courtney Crocker, on "International Relations." Mrs. Joseph M. Sanderson of 16 Hastings street, West Roxbury, has charge of luncheon reservations.

## Easter-Monday Art-Musical

Mrs. Walter W. Stroncker, State chairman of Art, announces a delightful afternoon of music, art, and the enjoyment of the Easter flowers on Monday, March 29th, at the Isabella Stewart Gardner Museum. There will be a tour of the Museum from 1:50 p. m. and the concert will begin at 2 o'clock. An outstanding program has been prepared. Tickets are limited, and may be obtained at 50 cents each, from Mrs. Stroncker, 354 Blue Hills Parkway, Milton, or from members of the Art committee, or from Mrs. Moses H. Gulesian, State chairman of Music, 85 Commonwealth avenue, Chestnut Hill, or from members of the Music committee.

## Various Programs Of Interest

**Newton Federation**  
The Executive Board of the Newton Federation of Women's Clubs will meet at the Newton Library on Monday, March 22nd, at 10 a. m.  
In addition to regular business, Mr. Hunt, of the Massachusetts Safety Council, will speak on the "Proper Regulation of Traffic Safety."

**Newtonville Woman's Club**  
The Annual Scholarship Bridge sponsored by the Education committee of the Newtonville Woman's Club, which will take place on Friday, April 2nd, will open with a desert-coffee at 1 p. m. There will be door prizes and a prize for each table. The Bridge is under the direction of Mrs. William R. Mattson, chairman of the Education committee, and tickets may be procured from Mrs. Mattson, Telephone, West Newton 1066.  
The last of the "Thursday Morning Lectures" by Mrs. Frank M. Taylor will be on March 25th, at 10 p. m.

**Social Science Club**  
Prof. William Sutcliffe, of Boston University, will be the speaker at the meeting of the Social Science Club, which will be held in the Parlor of Channing Church on Wednesday, March 24th, at 10 a. m. This will be a guest meeting.  
The hostesses will be Mrs. Arthur Kendrick and Mrs. Steven B. Wilson.  
Auburndale Review Club

Mrs. Walter R. Amosbury, of 19 Berkeley place, will be hostess for the Review Club meeting on Tuesday, March 23rd, at 10 a. m.

The program will consist of papers on "Rumania," by C. W. Blood; "Yugo-Slavia," by Mrs. H. U. Hutchinson; and "Bulgaria," by Mrs. A. T. Efreman.  
On Tuesday evening, March 9th, the Auburndale Review Club held its Annual Guest Night in Bragdon Hall, Laseil Junior College. There was a large attendance of distinguished guests, officers of the State Federation, the Twelfth District, and club presidents.

Following an informal reception, Mrs. Guy M. Winslow, president of the Hostess Club, welcomed the guests, and introduced Mrs. Ernest F. Drew, Program chairman, who introduced the artists of the evening. Miss Eleanor Walker, of pleasing personality and attractively-gowned, read a one-act play, several monologues, and poems, which were greatly enjoyed by the audience.

Mr. Thomas Howell gave much pleasure by his rendering of songs by Schubert, Massenet, Meyer-Helmund, and other composers. He was ably aided by Mr. Harold Schwab, the piano, head of the Music department of Laseil.

At the close of the program, Mrs. Winslow invited all to the Library for a social hour. Mrs. William H. Blood, a charter member, presided at the coffee table. The beautiful evening gowns and the attractive Library, with its decorations, furnished a festive setting for this gala evening.

## Newton Centre Woman's Club

The Newton Centre Woman's Club held the regular monthly meeting on Friday afternoon, March 12th, at the Club House. Mrs. Arthur B. Hitchcock, president, presided. The speaker of the afternoon was Miss Marjorie Nicholson, Dean of Smith College, who spoke on "Modern Trends in Education of Women." During the coffee and social hour which preceded the regular business meeting, Mrs. Harry C. Gibson and Mrs. Kirtley F. Mather presided at the tea table. Spring flowers of lilies of the valley formed the centerpiece of the large table and white sweet peas in bud vases adorned each small table. The special guests of the afternoon were the staff of the private schools for girls and of the public schools located in the Newtons. Members of the Newton Smith College Club also were extended the invitation to attend.

The models exhibiting the dresses in the Fashion Show which opened the two-day Spring-Time Fete now in progress at the Newton Centre Woman's Club were Mrs. Arthur B. Hitchcock, Mrs. Douglas B. Francis, Mrs. Alden H. Speare, Mrs. George Brewer, Mrs. Willis E. Pattison, Mrs. Hazel Sands Welch, Mrs. Edward A. Andrews, Miss Betty Shafer, Miss Dorothea Mayer, Miss Ann Hitchcock, and Miss Jane Hutchinson.

Mrs. Edwin A. Harris is in charge of the cafeteria luncheon to be served today at 12:15 o'clock. Afternoon tea will be served, with Mrs. E. Farnum Rockwood as chairman. The Card Party this afternoon at 2:30 o'clock, will be in charge of Mrs. Alden H. Speare and Mrs. John R. Perry.

## West Newton Women's Educational Club

The Travel Class of the West Newton Women's Educational Club met on Monday, March 8th, at the home of Mrs. Willard C. Church, 352 Waltham street, West Newton, and following refreshments, served by the hostess, the members listened to the reading of two papers on "France," the first was a very interesting one on "Dijon—Plombières—Nevers—Vickery," read by Mrs. Edwin H. Ward; and the second, entitled "Belfort—Besancon—Neuchatel—Colmar," was written by Mrs. Arthur M. Teulon and read by Mrs. Raymond O. Littlefield, the leader of the Class.

The Garden Club of the West Newton Women's Educational Club met on Monday, March 15th, at 12:30 o'clock, at the home of Mrs. Arthur M. Teulon, 9 Elmwood park, Newtonville. Following a box luncheon, the members listened to a talk by a representative of the Toro Company in West Newton, who gave a spring talk on "Useful Gardening," discussing such subjects as seeds, bulbs, and fertilizers.

## Newton Upper Falls Woman's Club

The Newton Upper Falls Woman's Club met on Monday evening, March 15th, in the Club Room in the R. U. Emerson School with Mrs. Albert Proctor, the president, presiding. Following a short business meeting the members of the Club were entertained by a group of members of the Waltham Mothers' Club Players.

Mrs. Gladys Griggs, chairman of the Club, introduced the president of the Club, Mrs. Frederick H. Morang, who read a short story entitled "How the First Mothers' Club was Organized."

The "Farmerettes," Mrs. Mae Gardner and her daughter, in costume, gave two tap dances, followed by a solo tap number by Virginia Gardner. The Club Players then presented a short sketch entitled "Joint Owners in Spain," by the following cast: Mrs. Ida Waterman, Mrs. Bertha Hood, Mrs. Lydia Davis, and Mrs. Frances Carbee, with Mrs. Gertrude Chase serving as coach.

The sketch was highly amusing and entertaining, and was thoroughly enjoyed and appreciated by the audience. A social hour followed, with refreshments which were served by Mrs. Ruth Sharrott, chairman of the Hospitality Committee, assisted by members of her committee.

## WABAN BRICK COLONIAL HOUSE

## SOLD

Alvord Bros., real estate brokers  
of Newton Centre, Mass., report the  
sale of a brick Colonial residence  
located at 29 Agawam rd., Waban,  
Mass. The seller was the West New-  
ton Savings Bank, and the buyer was  
Harry F. Cade and Nettie Davis Cade  
of Auburndale, who will occupy the  
property at an early date. This house  
has eight rooms, 18 of Dutch Colonial  
architecture and brick exterior, and  
has a hot water heating system fired  
by oil. On the property is a two-car  
garage; and the lot contains about  
10,500 square feet. Many beautiful  
trees stud the grounds and combine  
to make this property one of the ex-  
quisite beauty. For tax purposes the  
house and land are valued at \$10,500.

Alvord Bros. also report the sale of  
a lot of land on Hemmuth road, New-  
ton Highlands, Mass. The seller was  
Flora E. Wentworth of Newton High-  
lands, Mass., and the buyer was Wil-  
liam R. Stevenson, also of Newton  
Highlands. The lot contains about  
7,700 square feet of land. Mr. Ste-  
venson, a well-known builder in New-  
ton, will erect for sale a small six-  
room Colonial house on the land at  
an early date. The lot is located a  
step from the Elliot Station of the  
Highland Branch railroad, in a fine  
neighborhood, and also near the most  
attractive shopping center of New-  
ton Highlands, and its schools and  
churches.

CAR!

ACTUAL PHOTOGRAPH

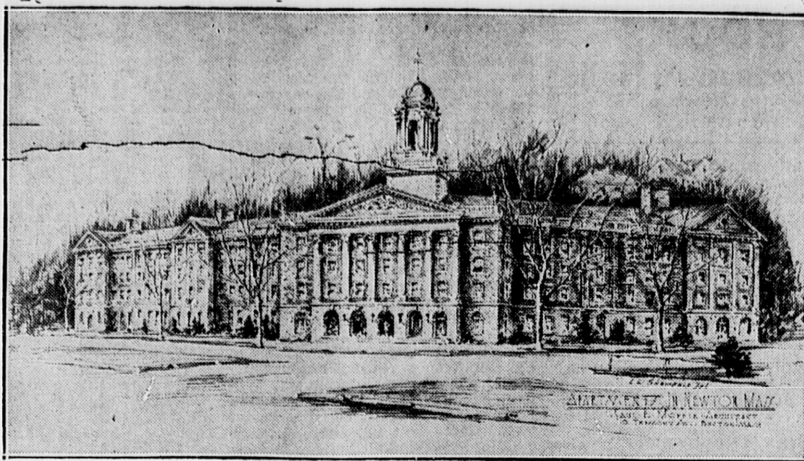

WE guarantee to convince you conclusively that this big superbly styled 1937 Studebaker Dictator is a better car than any higher priced six. And more than that—we'll match this Dictator, even on a low cost basis, with any

lower priced car because the Dictator's sounder, longer-lived construction plus its sensational Fram oil cleaner and gas-saving automatic overdrive will even up any apparent price difference! Studebaker's C.I.T. budget plan offers low time payments.

## Proposed Apartment Building Near City Hall

Fronting Commonwealth Avenue Opposite the Newton City Hall, This Apartment, Which Would Cover About 40 Per Cent of the 90,000-Square-Foot Lot Purchased for Its Site, Was the Subject of a Zoning Controversy Before the Claims and Rules Committee of the City of Newton

## Plan V.F.W. Ball Next Month

On April 2nd Eugene Daley Post, V. F. W. of Newton, will hold its annual military ball at the State Armory, West Newton. A committee under Jr. Vice Commander John Scarlett is working hard to make the affair a success. The committee includes Patrick Conney, Commander; Robert Murray, Warren Duirey, John Hickley, David Keefe, George Tufts, John Dowd, Charles Marden, Thomas Hurley, Gus Gardner, Percy Wiles, Edward Hildreth and Fred McBride. The following members of the Ladies' Auxiliary are also on the committee: Alice Hurley, President; Lillia Hallice, Elizabeth Marden, Katherine McDonagh, Gladys Porrier. Music will be provided by a well known broadcasting orchestra.

The large apartment building which Israel Nesson proposes to erect on land owned by him near City Hall at Newtonville is pictured in the accompanying illustration. The building would occupy about 40% of the 90,000 square feet of land owned by Mr. Nesson in the area bounded by Walnut st., Commonwealth and Lake View avenues. It would cost about \$750,000 and resemble architecturally the buildings in the city hall group. The balance of the land would be attractively landscaped, parking area at one end would be screened from view by trees, and a large garage would be located in the basement. The building would conform to the first class construction demanded in Newton. It would be air conditioned, porter and maid service would be provided. The plan for the apartment structure is an alternative one, in case Nesson's petition for a change of the property from single residence to business zone is refused by the Board of Aldermen.

At the hearing before the Claims and Rules Committee on March 10th a letter was read from former Alderman Sylvanus Smith in which he stated that he has known Mr. Nesson and his two sons for many years and feels sure they will co-operate with the city and Planning Board to assure proper architecture, construction and setbacks, if granted a permit to erect the large apartment building. Smith called attention to the fact that Nesson bought this property previous to the establishment of zoning in 1922, with the intention of developing it for business purposes at the corner of Walnut st. and the avenue. Smith contends that last year the Aldermen changed a large area of land on Boylston st., Chestnut Hill, from single to general residence zone to permit the erection of apartment buildings by a syndicate including Henry I. Harriman, and members of the Lowell family. He also stated that when he served on the Board of Aldermen a permit was favored for the erection of a large apartment building on Centre st., opposite Franklin st.

## NEWTON STARS NOT TO COMPETE AT BOWDOIN

Leaving behind Paul Forte, Bill Pescosolido and Frank Hines, three of his best, Don Enoch will escort a small track squad to Brunswick, Maine, tomorrow for the Bowdoin College interscholastic games. With Pesky and Hines below par in their school work and Forte sidelined by the ruling on absence, the team has lost most of its scoring punch. Simultaneously, the fine Bowdoin meet loses color, for Newton's visits to Brunswick, although infrequent, have always been memorable. Last year flood waters in the Saco and the Androscoggin virtually isolated Brunswick and the meet had to be cancelled.

This time the meet is apparently a certain thing, but it comes unfortunately as an anti-climax for the Newton indoor season, which really ended with the Brookline dual meet three weeks ago. Eight boys will make the trip, and although it will satisfy their coach if they score five points among them, they will probably do much better than that. Mark Messier, high jumper, and Seth Fitchet, shot putter, are the field event men. Capt. Bob Muther will run the 300, Elmer Ross the 600, Bill Kelly the 1000 and Joe Gallant the mile. Jerry Allen and Don McKinnon will run the dash.

Newton holds the relay record for the Bowdoin meet, having set a mark of 2 min. 9 2-5 for the 1120-yard, eight-lap course in 1933. Doug Sloane, Palmer York, Gordon Wilkes and Dave McLellan were the runners. In that same meet, Tom Fitzgerald won the mile and Doug Sloane equalled the dash record. Joe Gallant may spring a surprise in the mile tomorrow, having run the distance many times last year in Y. M. C. A. meets. The Bowdoin trip will mark the finish of track activity at high school until the first outdoor meet, dated May 1.

Lucius P. "Jeff" Jones, who has been hibernating for weeks with a spell of gripe and bronchitis, the first sickness of his life, will be back at high school Monday, and on Monday afternoon he will call the first convocation of Newton High baseball candidates. Although he will begin outdoor workouts the first day that feels like spring, Jeff will probably have a week or two of limbering-up and throwing drills in the gymnasium. The first gathering of the squad will be featured by a surprise Coach Jones will produce. Incidentally, Coach Jones will be happy if his squad produces a few surprises in the weeks to come.

Newton will play only in the Suburban League this spring. Barring perhaps one or two practice games, every game will be a league game. Six teams make up the baseball league, Brookline, Arlington, Cambridge Latin, Rindge Tech, Waltham and Newton.

## Newton Police Catch Burglars

Patrolmen Con Dwyer and George Tobin of the Newton police performed a good piece of work shortly after 1 o'clock Saturday morning when they captured two of three young burglars who had robbed the Texaco gasoline station on Washington st. near the Newton Hospital. As the two officers were driving by the station in a police car, they observed two men emerge from the place and enter a coupe in which a third man was driving. Ignoring the command of the police to stop, the coupe was driven at high speed toward West Newton with the police car in pursuit. As the coupe sped along Washington st. it crashed into a car driven by Frank Guzzi of 134 Auburndale ave., as the latter drove out of Chestnut st.

One of the trio in the coupe was thrown to the street and knocked unconscious. He was identified as John T. Nolan, 667 Tremont st., Boston. He was taken to the Newton Hospital with serious head injuries and other injuries. Later he was taken to the Boston City Hospital. The other two occupants of the coupe started to run away. Patrolman Dwyer pursued one and with a flying tackle hurled him to the ground. The prisoner gave his name as James Riley, 20, of Fifth st., South Boston. Later, by fingerprints, he was identified as Robert England of Mercer st., South Boston. He had been arrested several times in the past 6 years. He was arraigned in the Newton court on Monday and held in \$5000 bonds by Judge Allen for the grand jury. The third occupant of the coupe escaped.

The police found in the coupe a pay telephone instrument which the burglars had ripped off the wall at the filling station. About \$28 had been stolen from the cash drawer there. The coupe used by the trio was stolen in Boston.

## Kaltenborn To Open Forum Next Season

The Program Committee of the Newton Community Forum has secured as its first speaker for the 1937-38 season, Mr. Hans von Kaltenborn who spoke last Feb. 21st on the subject, "We Look at the World."

Those who heard Mr. Kaltenborn will surely want to hear him again and those who have not heard him have a very interesting experience in store for them.

Mr. Kaltenborn's recent comments on current issues of importance aroused much interest in the community and the announcement of an early return engagement will be received with enthusiasm.

The Steering Committee of the Newton Forum feels that this season has been a great success. They trust that the 1937-38 season will be even more successful in interesting the citizens of Newton and the neighboring communities in some of the vital topics of today and in introducing to them a few of the best-informed speakers on current affairs.

## Bus Passengers Get Thrills

More than a dozen passengers on a Middlesex & Boston bus got several thrills on Monday night. The bus left Newton Corner for Stow st., Waltham about 10:45 with Harold Wilson, 25, of Lexington as operator. The passengers soon became aware that Wilson was driving in an unorthodox manner. After the bus nearly collided with another bus proceeding from Waltham toward Newtonville, the frightened passengers decided to make a mass disembarkment and induced Wilson to stop at the corner of Waltham st. and Annopolis rd., West Newton, near the Waltham line. The passengers left the bus, unanimously, and one of them telephoned Waltham police headquarters. A police car went in search of the bus and found it near Stow st. Wilson was arrested on charges of drunkenness and driving while under the influence of liquor. He was arraigned in the Waltham court on Tuesday and his case continued until March 25.

## Nonantum Pastor Honored on Return

Rev. Joseph E. Robichaud, pastor of St. Jean Evangeliste Church, Nonantum, who recently returned from a trip to the Eucharistic Congress at Manila, was honored by his parishioners at a reception held on Sunday night in the parish hall. He was presented with \$750 collected for the parish fund. Father Robichaud told of his trip, which included visits to Hong Kong, Peking and Honolulu. Mayor Edwin O. Childs praised the work which Fr. Robichaud has done in Nonantum. The WPA orchestra played and a program of dances and music was given by members of the parish.

## Seller of Obscene Pictures Fined \$100

Abraham Grobman of Richardson st., Newton, manager of Phil's Spa at 273 Centre st., Newton, was fined \$100 in the Newton court last Friday by Judge Allen when he was found guilty of selling obscene pictures. He was also given a 6 months' suspended sentence in Middlesex County prison on that charge, and a 3 months' suspended sentence on a charge of promoting a lottery. The complainant in the case was Serg. Richard Bannan of the Newton police. Bannan had received complaints from parents of Newton High School boys that someone at Newton Corner had sold obscene pictures to the boys. Bannan started an investigation and found that the pictures were being sold at the store managed by Grobman and owned by the latter's father. Through an investigator he obtained a sale.

On the night of March 10 a raid was made on the store by Serg. Bannan, assisted by Patrolmen Foley, Walker, McGrath and Whelan. The police seized some booklets containing obscene pictures and a quantity of number pool slips. Grobman pleaded guilty to the charges.

The store owned and conducted by the Grobmans sells groceries, tobacco, tonics, ice cream, newspapers and similar lines. Although its principal business is not the sale of food as a lunch room, the Board of Aldermen several years ago granted a common victualler's license to the former owner of the store, Morris Koufman. When the licensing authority in this city was transferred from the Board of Aldermen to a License Commission after the repeal of prohibition, the new body continued to grant the common victualler's license to Koufman. Koufman sold the store last year to Philip Grobman and the latter was also given a common victualler's license. In court last Friday Serg. King, who prosecuted the case, stated that the Newton police would ask that Grobman's common victualler's license be revoked. Abraham Grobman's attorney was John V. Spalding, one of the three members of the Newton License Commission.

## Aldermen Aim To Stop Feigning of Illness by City Help

The Claims and Rules Committee of the Board of Aldermen has drawn up an amendment to the city ordinances for the purpose of making it more difficult for employees of the city to be paid from the city treasury when they are absent from duty because of feigned illness or injuries. The amended ordinance will require city employees absent because of alleged illness or injury, to submit to examination by the city physician, and that the city physician shall make prompt and thorough investigation in such cases. The amended ordinance will affect all city employees except laborers, who do not get paid when they don't work.

## Woman Killed As Truck Hits Car At Newton Centre

Mrs. Sophie Hansen, 52, of 4 Gediminas st., Worcester, was almost instantly killed at 4:54 last Friday afternoon when the small coupe in which she was riding was crushed in a head-on collision with a truck on Commonwealth ave. near Eastbourne rd., Newton Centre. The woman was riding in a small car driven by Victor Gillings of Glade st., Worcester. A light truck owned by Dennis Driscoll of Brookline, and driven by Louis Ludwig of 34 Perry st., Brookline, was proceeding easterly and was passing a car proceeding in the same direction and driven by Lee Goodman of 199 Ward st., Newton Centre. The truck crashed into the coupe driven by Gillings, which was going westerly. Gillings was slightly injured. Ludwig, together with Walter Ryan of Emerald st., Brookline, and Frank McCarthy of Tremont st., Roxbury, who were riding with him, were hurled to the street and slightly injured. An inquest will be held to investigate the accident.

## Newton Man Hit By Auto In Boston Dies

Richard E. Ahern, 31, of 31 Fayette st., Newton, died at the Boston City Hospital on March 18 of injuries received when he was hit by an automobile on the night of March 15. Ahern was crossing Beacon st., Boston, near Deerfield st., when he was hit by an automobile operated by Hugh R. Hamill of Canisot st., Watertown. Ahern received a fractured skull, fractures of both legs and internal injuries.

Mr. Ahern was born in Brighton, the son of Mr. and Mrs. David Ahern. He had been employed at the Winchester Laundry on Galen st., Watertown. He is survived by his widow, Mrs. Mary (McPherson) Ahern; three children, aged 7, 6 and 6 months; his parents, five brothers and six sisters. His funeral was held on Monday from the home of his father, 6 Benson st., Brighton. The service was at St. Anthony's Church, Allston. A delegation from the Winchester Laundry attended.

## Dumping Stopped At Webster Playgd.

In last week's GRAPHIC criticism was made of dumping by the city and others on the land at Warren st., Newton Centre presented by Edwin S. Webster for playground purposes. The GRAPHIC has since been informed that on February 25th the Newton Playground Commissioners voted to have dumping on that area stopped, and notice was given to Street Commissioner Mahoney, allowing him 30 days in which to find another dump location. Early in March the Street Commissioner stopped dumping at the Webster land and placed "No Dumping" signs there. The next fill at the Warren st. future playground site will be of gravel or some similar material, and not of rubbish.

## Miss Wyman Heads Oak Hill School

Jane M. Wyman for 20 years a teacher in the Newton schools has been named by Supt. of Schools Warren to be principal of the new Oak Hill School. She is a graduate of Pittsburg Normal School, resides at Woodbine st., Auburndale, and is now teaching at the Angier School, Waban.

At the meeting of the School Committee on Monday night, Elizabeth L. Blanchard of Needham was appointed a teacher in the Angier School. She is 26 years old, a graduate of Salem Teachers College and has been teaching at Needham since 1933. She succeeds Grace Batchelder, whose resignation will take effect on April 22. Miss Batchelder is to get married. Gwendolyn Frederickson of Greenough st., West Newton, was clerk in the School Department office.

It had been announced in newspapers that John A. Janse of Newton Centre would appear before the committee to demand free transportation to the parochial school at Newton Centre for about 20 children who live in the Oak Hill section. Mr. Janse did not appear because he decided to wait until the Legislature clarifies legislation now pending on this type of free transportation for school children.

An application was received from Newton Post, A. L. for the use on July 4 of Claffin Field in connection with a field day. George Kellar, secretary of the committee, praised the manner in which the Post had conducted its field day last year. Members of the committee voted to have a representative of the Post appear before them at the next meeting to give further details as to the nature of the proposed activities at the planned field day.

## Driver of Truck That Killed Child Fined \$5.00

John A. DeSimone of 180 Chapel st., Nonantum, was fined \$5 in the Newton court last Wednesday for driving a truck with defective brakes. DeSimone was the driver of a small oil truck which on February 11 hit Richard Martin, 6, of 248 Pearl st., near the child's home on that street. The child, who was riding on a cart, was run over by a rear wheel of the truck and his head crushed. Serg. Bart Culen, mechanic of the Newton police department, testified that he inspected the truck following the accident and found the brakes on it not in proper condition. Inspector Adams of the Registry of Motor Vehicles testified that the brakes on the truck were in proper condition.

## Special Meeting Of Aldermen

A special meeting of the Board of Aldermen was held on Monday night. On recommendation of Mayor Childs a small parcel of land on Stetson Way, Waban, was sold to C. C. Temple, owner of abutting land. The lot contained about 2400 square feet. It was assessed for \$200 and sold for \$255.

An appropriation of \$26,135.98 was made to meet Newton's share for the maintenance and repair of Middlesex County Tuberculosis Hospital at Waltham. Part of an order passed on February 15 when \$400 was appropriated for the Public Buildings Department in connection with the revision of the Building Code was rescinded. The \$400 was reappropriated to pay for the services of Malcolm Warren inspector in the Buildings Department in connection with the revision of the building code.

## Honor Sunday School Supt. on 95th Birthday

Mr. Eugene Fanning of 71 High st., Newton Upper Falls, was the Guest of honor at a birthday party in the vestry of the Second Baptist Church on Friday evening, March 19. The members of the Sunday School of which he has been the active superintendent for the past seventeen years gathered in honor of his ninety-fifth birthday. Mr. Fanning celebrated his birthday quietly at his home on March 17. He received the congratulations of his friends and relatives and many gifts.

Friday evening Mr. Fanning was presented a pot of pink tulips and a large birthday cake by the members of the Sunday School. Music was rendered on the violin and guitar, by Roderick Flinchbaugh, Michael Manishian, William and John Arbuckle.

Readings were given by members of each class which was followed by a general good time, with games and refreshments. Mr. Fanning is in the best of health, working every day in the Fanning Printing Company at Upper Falls and taking an active part each Sunday in the sessions of the church school of the Second Baptist Church.

## Sues For \$20,000 Awarded \$500

Miss Frances Michaelis, 19, of 125 Beethoven ave., Waban, was awarded \$500 by a jury in Middlesex Superior Court at Cambridge on Monday for an injury resulting from an automobile accident on January 29, 1935 opposite 1172 Beacon st., Newton Highlands. Three cars were involved in the accident. One was driven by Josephine Michaelis, a sister of Frances. The second car was driven by Howard Martin of Mansfield and the third by Edwin C. Johnson, Jr. of 43 Carver rd., Newton Highlands. Miss Michaelis contended that Johnson was responsible for the accident. She brought suit for \$10,000 against him, and another suit for \$10,000 against Mrs. Eva S. Johnson of 43 Carver rd. Miss Michaelis testified at the trial that as a result of the injury she received in the accident there is a scar on one of her shoulders which prevents her from wearing evening gowns and attending parties. The suit against Mrs. Johnson was ordered dismissed. The \$500 award was made against Edwin C. Johnson, Jr.

## Burglary At Chestnut Hill

Monday morning at 4 o'clock members of the household of Dr. Channing Simmons, 539 Hammond st., Chestnut Hill, were awakened by a burglar who was prowling about the house. When Dr. Simmons and his wife went down to the first floor to investigate, the intruder leaped through an opened window. He was heavily burdened, having taken in addition to some silverware, eight cans of beer, a bottle of rum, a bottle of beer and a pair of shoes. The burglar was arrested in Newton later in the day carrying the silverware, and also (inwardly) considerable of the alcoholic beverages. Arrested by the Boston police for drunkenness, he was identified as Joseph P. Kelly of 93 Kilsyth road, Brighton, age 29. He was arraigned in the Newton court on Wednesday and held for the Grand Jury in \$5000 bonds.

## Have You Reviewed Your Will?

Once made, your Will should not be regarded as a permanent document, good for all times.

The shrinkage in the size of many estates, the recent increase in federal estate taxes and oftentimes changes in the family needs suggest only a few reasons for frequent review of its provisions.

Our new booklet "Preserving the Net Worth of Your Estate" explains how you can provide maximum protection for your family. Ask for your copy.

## EASTER AND FAITH

Holy Week and the observance of Easter centers one's thoughts upon religion more deeply than at any other time of the year. Religion is the lifeblood of our modern civilization and the history of the world clearly shows the changes wrought by the coming of Christ. If we are to continue to advance toward a more Christian brotherhood we cannot think too deeply along these lines. Our goal can only be reached by doing away with hypocrisy and moral decadence which permeates the world and cling to the Faith which the Resurrection message teaches.

## A CAREER APPOINTMENT

The appointment of Arthur Campbell as Commissioner of Public Buildings is a merited promotion for a worthy official. For twelve years the new commissioner has had an opportunity to obtain a knowledge of local conditions and requirements which will serve him in the administration of his new position. There is much to be said in favor of so-called career appointments and in this instance there is no doubt that the City has chosen an able official for greater responsibility.

## Women's Army For Cancer Control

On Friday, March 12, the first group of workers for the Women's Field Army for Cancer Control met at the home of Mrs. Charles B. Floyd, captain for the Newton Company. This group, who represented the larger villages, were Mrs. Frank P. Kendall, Newton Lower Falls; Mrs. Harry F. Friedman and Dr. Hortensia A. F. Robinson of Newton Centre; Mrs. Louis Wadman and Mrs. J. Herbert Young of Newton; Mrs. E. J. Morse of Waban; Mrs. H. F. Kever of Auburn; Mrs. C. J. A. Wilson of Newton Highlands; Others who could not be present but are actively interested are Mrs. Brewer Eddy of Newtonville; Mrs. A. F. MacMillan of Waban and Mrs. Quincy Wales of West Newton.

Mrs. Louis Wadman of 139 Brackett rd., another lieutenant in the army, held a meeting at her home on Tuesday, the 23rd. Those present were Mrs. Irving H. Burrows, Mrs. Edward N. Marcus, Mrs. Arthur M. Saffell, Mrs. Benjamin Levin, Mrs. David C. Shertzer, Mrs. David Baer, Mrs. George Sherman, Mrs. Coleman N. Shiff, Mrs. Benjamin Schaff, Mrs. W. P. Yanes, Mrs. H. Mover, Mrs. Simon S. Turin, Mrs. Julius Robbins and Mrs. B. L. Gorinkin.

Mrs. Francis Flag of Newtonville, Vice-Commander of the 12th District, spoke to both groups and plans were formulated for enlistment and an organization planned for future work.

In Newton Centre, Mrs. Harry P. Friedman, who is chairman of the Public Health committee of the Newton Centre Woman's Club, invited the members of her committee to her home, 50 Grafton st., on Friday morning, March 19th, to hear about the plans of the Woman's Field Army, of which group she is the local chairman. Dr. Harold D. Chope spoke to this group and they enlisted to help in the campaign. The committee includes Mrs. Harry Friedman, Mrs. Glenn W. Lawrence, Mrs. Elliot Robinson, Mrs. Robert Jones, Mrs. Robert Goldick, Mrs. A. E. Lacroix, Mrs. Robert Ide.

## Recent Engagements

Announcement has been made by Mrs. Orville Thomas of Brookline of the engagement of her niece, Miss Helen Doloff, of West Newton, to David McComb, son of Mr. and Mrs. Robert McComb, of Manchester, Conn. Miss Doloff is a graduate of the Newton Hospital Training School for Nurses. She also attended Boston University and the Chandler Secretarial School. The wedding is to take place in Syracuse, Friday, March 26.

## Recent Weddings

WARREN—HOLMES

Miss Elizabeth Holmes, daughter of Mr. and Mrs. Tyler Lee Holmes of 19 Kirkstall rd., Newtonville, was married to Mr. and Mrs. Warren C. Holmes, son of Mr. and Mrs. Walter Burgess Warren of West Newton, on Friday, March 12, at the New Church in Newtonville. Rev. Horace W. Briggs performed the ceremony.

The bride was attended by her sister, Mrs. Francis B. Cass, of Albany, N. Y., as matron of honor. The bridesmaids were Mrs. Leonard F. Lawrence of Andover, Mrs. Robert Elmore of Philadelphia, Mrs. Vincent S. Jones of Utica, N. Y., Miss Marjorie Wood and Miss Charlotte Blair of Boston, and Miss Phyllis Hayes of Beverly.

Frederick J. Warren, brother of the groom, was the best man. The ushers were Leonard F. Lawrence of Andover, Francis B. Cass of Albany, Robert Elmore of Philadelphia and Kenneth Merrill of Newton.

On their return from a trip to Bermuda, Mr. and Mrs. Warren will reside on Holden Green, Cambridge.

BRECK—TAFT

Miss Clara Farr Taft, daughter of Mrs. Charles Henry Tilton, of Newton, and Mr. Waterman Allen Taft, of Pinehurst, was married to Luther Adams Breck, Jr., son of Mr. and Mrs. Luther Adams Breck, of Boston, Thursday afternoon at 3:30 o'clock at the home of Mr. and Mrs. Tilton in Newton. Mr. H. Robert Smith, of Grace Church, Newton, performed the ceremony.

The bride wore a traveling suit of light strawberry wool and her bridal flowers were orchids, lily-of-the-valley, and gardenias. There were no attendants, and only the immediate families of the couple were present.

Following a wedding trip to Nassau and Bermuda, Mr. and Mrs. Breck will live at 23 "T" Wharf, Boston, where they will be at home after May 15th.

The bride was graduated from Smith College in the Class of 1933. The groom attended Harvard College with the Class of 1934, and is associated with his father as the fifth generation in the firm of Joseph Breck & Sons Corporation.

## Newton Corner Nash Agency

The Newton Corner Nash agency started business last week at the Elmwood Garage, 49 Elmwood st., Newton with a full line of the latest Nash and LaFayette models. This new addition to the business life at Newton Corner is of special significance to Newton motorists. It includes an expansion of the garage program which has resulted in an elaborate automobile service set up. A large investment has been made to provide a complete, up-to-the-minute equipment for efficiently testing and correcting car performance. Car owners will have available at this garage all the apparatus of an ultra modern, super-service station. A motor testing laboratory has been set up, gas analyzers installed, lubrication stand added, wheel aligning and front end equipment provided.

The Elmwood Garage is extra large, over a dozen service men are employed there and the new Nash agency completes the layout. It is in charge of C. C. Stevens who has had wide experience in the automobile business, recently as a Nash specialist, and previously in both the service and sales end of the business. During the week he was in charge of the signal fleet for five corps at the front. "Nash, with its tremendous financial resources," says Mr. Stevens, "has taken very definite advantage of the business upturn by offering most striking values. The tremendous public acceptance exceeds all previous history." Nash prices range from \$779 to \$1189, delivered.

## Library Book Talk To Be Broadcast Thursday

A book talk, of interest to the home and garden lover, will be broadcast through Station WMEX next Thursday morning, April 1st, from 10:15 to 10:30 o'clock by Miss Virginia Owen of the Newton Centre Branch Library.

This program is one in a series of book review broadcasts being sponsored by the Massachusetts Library Association each week at this same time. Listen in and ask for the books at your Library!

## MT. IDA, NEWTON, TRANSFER

Alford Bros. report that they have sold the property at No. 6 Surrey rd., in Newton, Mass., adjacent to Mt. Ida. The lot contains 8,635 square feet, with excellent shade trees located at the corner of Claremont st., commanding a beautiful view for miles in every direction. The residence is a substantial new, air conditioned, brick house, with slate roof, containing seven rooms, two baths, lavatory and attached two-car garage. This parcel is assessed by the City of Newton for tax purposes at \$12,200. The Lenard Realty Trust were responsible for the construction of this home and gave title.

## Marriages

CHAMPION—COOPER: on March 12 at Newtonville by Rev. Randolph Merrill; Henry S. Champion of 880 Chestnut st., Waban and Hope Cooper of 87 Chestnut st., Waban.

WARREN—HOLMES: on March 12 at Newtonville by Rev. H. W. Briggs; Walter B. Warren of 32 Lenox st., W. Newton and Elizabeth Holmes of 19 Kirkstall rd., Newtonville.

## Bids on Sidewalks And School Grounds

Bids were opened by Street Commissioner Mahoney several days ago for the construction and repair of cement sidewalks and curbing. O'Malley & Delaney of Waltham were the low bidders with a figure of \$12,593. The other bidders were—Simpson Bros., \$13,432; Anthony Arcese, Newtonville, \$13,932; Tocci Bros., Newtonville, \$13,980; T. D. Sullivan & Sons, Newton Highlands, \$14,700; Otto Theurer, Watertown, \$17,453; Charles Capone, Roslindale, \$26,647.

The only bidders on far concrete sidewalks were Harvey Armstrong of Brighton, \$4950; and J. S. Hays Estate, \$5063.

The contract for landscape work and constructing cement walks at the new Oak Hill school has been awarded to O'Malley & Delaney of Waltham by Buildings Commissioner Campbell with the approval of PWA officials. Their bid, \$6040, was the lowest of thirteen submitted. The complete cost of this school and grounds is \$210,000; the estimated cost was \$225,000.

## Scout Auxiliary Group Elects Officers At Annual Meeting

Mrs. Howard Thomas was elected President of the Mother's Auxiliary of the Sixth Norumbega Group, Boy Scouts of America of Newtonville, at the Annual Meeting held last week Wednesday evening at the Scout Building. Mrs. Thomas succeeds Mrs. Edward J. Sauter, and formerly held the office of Treasurer of the Auxiliary. Mrs. Harold McKusick, was reelected to the position of Vice-President. Mrs. Harold Stillman was elected Secretary and Mrs. Walter Huston, Treasurer.

The new committee chairmen include: Program, Mrs. Ernest P. Rallsback and Mrs. Steven Coons; Membership, Mrs. J. Hartley Stockhouse and Mrs. Edward Sauter; Ways and Means, Mrs. Daniel Needham and Mrs. John Kellar; Entertainment, Mrs. George Oleson and Mrs. Edward Gough; Press, Mrs. L. A. Clinton.

The speaker of the evening was Mrs. Howard M. LeSourd, a well-known figure in adult education fields, who chose as her topic "Some Thresholds We Have Crossed." She spoke in a very entertaining way of the various phases of life from childhood, through the romance period, marriage, and of the problems which each phase introduces. Mrs. Le Sourd was introduced by Mrs. Rallsback.

Refreshments were served by a committee headed by Mrs. Huston, past chairman of the Entertainment Committee.

## Newton Centre Cubs To Hear of Byrd Expedition

Mr. Stevenson Corey, Supply Officer, Dog Drive and Explorer of the last Byrd Expedition will be the speaker at the entertainment of Pack 20 Cub Scouts of Newton Centre to be given at Trinity Church Friday evening, April 2 at 7:30 p. m.

Mr. Corey will tell such interesting stories as the discovery of a Volcano in the Antarctic, a baseball game played at 40 below zero, how Admiral Byrd isolated himself in a small shack for 4 months, how an emergency operation for appendicitis was performed at 50 below zero, and many other equally thrilling experiences.

In addition to the feature of the evening a special loud speaker and amplifying program is to be presented by Lincoln Burt of Canton.

Pack 20 will close the evening's program with the Grand Howl and demonstrations of Cubbing.

## Highland Glee Club Delegation at Springfield

An enthusiastic delegation of members from the Highland Glee Club of Newton will leave for Springfield Saturday to meet delegations from twenty or more men's singing clubs of New England. The Springfield Glee Club will be host. Each club is to present a variety of entertainment and further plans will be made for the Annual Meeting of the New England Federation of Men's Singing Clubs to be held at Fall River in April, where it is expected that a combined chorus of 1200 men's voices will be heard at the final evening program.

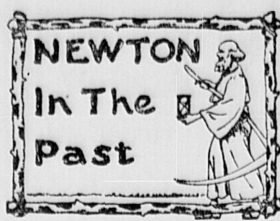

## Y. M. C. A.

There is much interest shown all over the United States regarding the Child Labor Amendment. The Men's Debating Club of the Newton Y. M. C. A. took this question for their debate of Monday evening, March 22. Dr. H. W. Mackinney and Mr. Stanari E. Neal debated for the affirmative; Mr. Edgar T. White, Jr., and Mr. J. F. Brady took the negative side of the question. Both sides presented substantial arguments. The decision of the judges, however, was in favor of the negative side.

The next debate will be held on Monday, April 26th, and the subject will be "Resolved: The President Roosevelt is justified in his proposal for a change in the United States Supreme Court."

## Track

Two new records were broken by Newton "Y" athletes at the Two-State "Y" Track Meet held in Boston recently. Arthur Linthwaite finished first in the 600-yard run, making a new record of 1 minute, 20 seconds. The Relay Team representing the Newton "Y" won first place, making a new record of 2 minutes and 20 seconds. Members of the team were Ivan Hunt, Al Flattery, James Walsh and Robert Wheeler. Milton Fine won the 3 broad jumps; Robert Wheeler was second in the dash; Eugene Kelley took third place in the 1000-yard run. The meet closed a very successful season for Coach Henry C. Pierce and the "Y" Track Team.

Newton Republican, April 3, 1875

Investigation has now come to Massachusetts and our Legislature wants to know about those bills for painting and frescoing the State House. Many think the expense enormous. Various stories are afloat, and hints of reference to Boston postoffice building are also given. If there are any ways that are dark, let them be uncovered. Put a stop to jobbing in its incipient stages.

On the Lower Falls table at the Masonic fair next week there will be a \$60 clock which will be presented to the teacher in Newton receiving the largest number of votes.

We learn that the Finance Committee of the Aldermen has decided to publish a detailed report of every item of expense of the past year in the forthcoming report of the Auditor. This will delay its appearance several weeks. The auditor's report would be quite welcome just now.

The total expense of Newton for educational purposes in 1874 was \$97,353.65. The value of the school property is \$453,600. The cost per scholar for the past year was \$40. The total number of scholars attending the schools is 2510.

The horse of Dr. Knight got frightened on Centre st., Newton, on Monday and ran away, overturning the carriage. Fortunately, no one was injured.

The population of Newton Corner is increasing. Three families moved in last week.

The customary services were observed at St. Mary's Church, Upper Falls, on Easter Sunday. The church and society are now in a flourishing condition, owing mainly to the efforts of the gentlemanly pastor, Rev. Michael Dolan.

At Cole's Hall this evening Newton Assembly, 4931, Knights of Labor, will be addressed by John Short, E. S. Blaine and R. F. Grady.

Rev. P. W. Cassey, a colored clergyman from Newbern, North Carolina, addressed the congregation in the chapel of Grace Church on Wednesday evening on "The Assurance of Eternal Life."

Cyrus Anderson has bought the Bailey estate at the corner of Fairmont ave. and Centre st. and is building a stable at the rear of the house. Ireland Bros. of Newton Centre have the contract.

The hospital trustees at their meeting on Wednesday received a statement from the building committee that a new wing is needed. It would cost about \$6500 for the building and furniture. Here is a chance for some of our generous citizens.

The clothing store of R. J. Renton at Newton was entered on Sunday night, the burglar breaking a pane of glass in the window. The proprietor claims that \$400 worth of clothing and jewelry was stolen. Monday afternoon a bundle of the clothing was found concealed near the railroad track at Hunnewell ave.

The building committee of Eliot Church is still considering plans for the new edifice. George F. Meacham, who designed the Channing Church building, has been chosen as the architect and has already submitted several plans. The work of remodeling the interior of the burned building is going on and probably by the time the weather settles, work on the new building will be started.

Alderman Harwood is making extensive improvements to Hotel Hunnewell at Newton, putting in new ventilators and decorating the walls and ceilings.

Rev. S. F. Smith, D.D., and wife, of Newton Centre, are traveling in California. When in San Diego they called on George Hitchcock, formerly of Newton, who is chairman of the committee on education. He invited the strangers to visit the high school. The invitation was accepted, and, upon being introduced to the pupils, Rev. Mr. Smith addressed them, to their great joy, after which the whole school united in singing that famous hymn, "America," which has made its author immortal.

The trustees of Newton Free Library were most pleasantly surprised last Tuesday evening at their meeting by the receipt of a communication from their president, John S. Farlow, tendering the munificent gift of \$5000 as a further endowment of the library. This very timely acquisition in aid of an important public interest will be gratefully welcomed by the people of Newton, who have already been the recipients of generous gifts from the same liberal and public-spirited citizen.

A prominent citizen has offered land for a Baptist church at Newtonville. He is a member of the Methodist church but wished to have all denominations represented here.

A barn was entered at Oak Hill recently and 500 pounds of hay and a harness valued at \$15 stolen. The property belonged to Leonard Day of West Roxbury.

## Powers' Paragraphs

Last week half-page advertisements appeared in newspapers captioned with this refined query—"Is Massachusetts on the Sucker List?" The advertisement was a whine signed by six of the thirteen breweries located in Massachusetts. The owners of these breweries advocated the enactment into law of two bills before the Legislature which would require out-of-state brewers to pay an additional one dollar state tax on each barrel of beer or ale, and also require all importers and wholesalers of malt beverages brewed outside of Massachusetts to pay a service charge of \$1 on each barrel of beer or ale. If these two bills are approved by the Legislature, brewers in this State will have a monopoly, and then Massachusetts would certainly be on the "sucker" list.

Free trade between States has been one of the cardinal principles of the Eighteenth Amendment, and by which it has prospered. This principle should not be abandoned just to cater to the owners of half a dozen breweries. If Massachusetts brewers want to overcome outside competition, let them brew malt beverages from such materials and by such methods as have been and are used by Bass Ale Brewery in England, Guinness in Dublin, class, in Munich, and Pilsener in Davales in Quebec. We don't profess to be a connoisseur on malt beverages, but we temperately quaffed ale and beer here in the years before prohibition (and since), and we drink ale abstemiously now. And in our humble opinion much of the malt beverages which have been brewed in Massachusetts since the repeal of the Eighteenth Amendment tasted more like what we suppose hogwash tastes, than like the good malt liquors mentioned in this paragraph.

The women (and girls) are going to wear short skirts again. According to fashion reports, skirts should be 14 inches above the ground. This height may be all right for a girl with long legs, but it is apt to look funny on a girl with short legs, even if she tries to appear tall by wearing spike heels on her shoes. A large percentage of the ladies will not look nobby wearing short skirts because they have knobby knees—and their legs don't resemble those of hosiery models.

Twenty-five persons were killed in automobile accidents in Massachusetts last week. One woman was killed in Newton. A Newton man was fatally injured in Boston. While the newspapers were printing pages upon pages about the terrible tragedy in Texas, which killed over 400 school children, and about 40 of their teachers, a paragraph or two, or even a few lines, were printed about each of the automobile victims in Massachusetts. Last year over 800 persons were killed or fatally injured in automobile accidents in this State; nearly double the number of deaths in the Texas catastrophe. A large percentage of these victims were greater losses than the young boys and girls in Texas. They were fathers and mothers of children, or persons who had other dependents.

## ONE THING AND ANOTHER

By L. D. G. BENTLEY

### Poet's Words Recalled

Now that Spring is here all men are urged to improve their appearance as far as clothing and other furnishings will permit. Since the women always look well I speak only for the men. We are urged to follow the stylists, designers, fashion leaders and others. One hat manufacturer has asked that we be well hatted. While there is no objection to this nor to being well gloved, well handkerchieved, well necked and well shod, I mean shod, I note with satisfaction that men are not asked to be well socked. Something has been said about socks, and by implication we are invited to go in for them as far as our courage will allow. All of which brings to mind the line from one of Shakespeare's sonnets, "When proud-pied April, dress'd in all his trim Hath put a spirit of youth in everything."

### Prefers Polite Fibbing

There is no trouble in putting-off answering a friend's letter. Nevertheless, it's a mistake to do so for the time will surely come when you are obliged to reply. Then follows the pain of phrasing suitable and plausible explanation for the delay. A great many people—practically all of us, I guess—feel that they are obliged to make an extended apology. The difficulty is that they are apt to "lay it on too thick," stressing the obstacles, or whatnot, that prevented them writing earlier. In so doing they seldom fail to drag in personal affairs, always a reliable excuse, and believe themselves convincing. To me they are not. Still, I am in a quandary. I should not want any drastic change in habit and I doubt if many of us would. Surely, you wouldn't care to pick up a letter with such a beginning as this: "Dear old pal, I have put off writing you as long as I could and I hate to do it now. However, I suppose I must, although it's a gosh darned nuisance."

No, I am confident we prefer the favorite fiction, "I have tried so many times to find an opportunity to answer your letter but I have been terribly busy and everything has been so upset here at home and you know how it is, etc., etc." This is what we have been accustomed to for generations and I think it had better stay that way.

### Painless Removal

Most of the annual town meetings are over but discussion of what happened is still going on. For that reason I consider myself justified in telling a story that has come to me from one of the smallest of our small towns. It seems there was a voter who never failed to take the floor on every occasion. No matter the subject he had an opinion to express. All this had gone on for years until the ire of his fellow citizens was aroused. There was talk of drastic measures to rid themselves of his presence until a wise man in the ranks suggested the offender be chosen moderator. The idea seemed absurd until the sage explained his motive. "Put him up there presiding and he'll have to keep his mouth shut and give the rest of us a chance to spout," he advised. And it was done.

### Foot and Head Trouble

Climbing into the operating chair of a shoe repairman is one of the experiences of life which are always fresh to me. By that I mean I still make an awkward job of it having learned little from the past. Possibly it is because I am not what the boot blacks would call a regular customer. It has been a habit with me to apply polish to my footwear whenever dread of criticism forced me to do so. Rather than face the charge of untidiness I strive to manipulate brush and blacking with whatever measure of success my strength permits. Now and then, when I feel my shoes would be the better for it, I seek out a professor of the art and pay him for his services.

It is on these occasions I reveal my clumsiness in getting in and out of the chair. Possibly it is timidity, or should I use the uglier word—fear? Whatever it may be I pause and view the pedestal, gauge the distance, and grabbing an arm of the chair, leap upward. Thus far I have always landed safely, although I cannot explain exactly why.

One might suppose that having accomplished this difficult feat I should be pleased and happy as the shoe-shine artist proceeds to beautify the appearance of my shoes. Strange to say I am not. Throughout his labors all I can think of is the trouble I am certain to experience in getting down again.

THE big, beautifully styled 1937 Studebaker Dictator six is taking them on... every last one of the nine other 6-cylinder cars—even going above its price class... and showing them all up.

Down close to the lowest in price, its Fram oil cleaner and gas-saving automatic overdrive enable it to equal and often beat lowest priced cars in operating economy.

It's the world's first six to offer the automatic hill holder plus feather-touch hydraulic brakes... the world's only six with doors that close lightly, tightly and silently. But see it... drive it today. Studebaker's C. I. T. Budget Plan offers low time payments.

## Burglar Held For Grand Jury

John T. Nolan, 21, of 667 Tremont st., Boston, was arraigned in the Newton court last Thursday charged with burglary at the filling station on Washington st., near the Newton Hospital, on the morning of March 13. He was held in \$6000 bail for the Grand Jury by Judge Allen. Patrolman Tobin, who with Patrolman Dwyer, captured Nolan and another of the three burglars involved in the break, testified that Nolan was the driver of the car used by the trio. Nolan was hurled out of the car and knocked unconscious when it collided with another car at West Newton square. The car was stolen in Boston earlier that night. It was owned by Charles Courtney of Dorchester. Nolan was a patient at the Newton and Boston City Hospitals for several days.

## Boy Bitten By Two Dogs

Newton Centre dogs again were in the limelight last Saturday when two of them attacked Richard Carlson, 15, of 21 Parker ave. as the boy was riding a bicycle on Tyler ter., delivering a grocery order. The boy was bitten on one leg by a Shepherd dog owned by Albert Carpenter of 42 Tyler ter., and on the other leg by an Irish terrier owned by Edward Sharp of 58 Grafton st. Both dogs were ordered restrained.

## Auto Hits Woman On Chas. River Rd.

A car driven by Joseph Foley of 1605 Washington st., West Newton hit Mrs. Osanna Gullian of 130 Charles River rd., Newton, opposite her home last Thursday night about 11 o'clock. She received an injured ankle and bruises on her body. Foley reported that he swerved his car sharply to the left and applied the brakes when he saw the woman, and that he felt no impact.

## Selecting Cast For Legion Show

Newton Post No. 48, American Legion is arranging for its Twelfth Annual Welfare Concert to be held on April 15th and 16th at the Newton High School Auditorium, Newtonville.

This year's entertainment will be in the form of a musical comedy entitled "Hello Sailor," written and directed by the Commander of the Post, Leon H. Mayer. At the semi-weekly rehearsal held last Sunday at the Memorial Building, Director Mayer assigned several parts to the entertainers who have appeared in the previous Legion shows sponsored by the local Post. Edward Hanlon is assisting Mr. Mayer with the musical numbers and Doris Schroeder is again directing the several dancing teams which will be featured in this year's entertainment. Mr. Mayer believes that he has discovered a youthful star who will make her first appearance in this performance, in the person of Miss Joan Plack, a five year old girl, whose singing, dancing and acrobatic numbers will entertain the patrons of the show.

Charles E. Walker, Past Commander of Newton Post and one of the District Commanders of Middlesex County, is the chairman of the ticket committee which reports that the sale of tickets is very encouraging.

The cast will rehearse again at the Memorial Building on Sunday afternoon, at which time Commander Mayer expects to assign parts.

## Suspend \$25 Fine On Girl Speeder

Elizabeth Cooper, 18, of 279 Fuller st., West Newton, was found guilty in the Newton court on Monday. Patrolman Dowling testified that she was driving 50 miles an hour on Lowell ave., Newtonville. As it was the second time within a year that she had been convicted of speeding, according to law, a mandatory fine of \$25 had to be imposed. Judge Allen imposed the \$25 fine, but then suspended it. The case was supposed to be heard on March 25, but as the girl was to leave for Bermuda on that day, the trial was advanced.

Sumner Small of Clark rd., Needham, was fined \$10. Patrolman Charles Jenkins testified that Small was driving over 60 miles per hour on the turnpike.

## Newton Social Club To Hold Easter Dance

On Wednesday evening, March 31st, the Newton Social Club will hold their annual Easter dance at the Bonnar-Atwood Studio, Washington st., Newtonville. Owing to the past success of these dances, members and friends are anticipating a very enjoyable evening.

William J. Hannan is chairman of the committee assisted by Charlie Mitchell and Eddie Hanlon. Assisting are Mrs. Ellen E. Jasset, Mrs. Lillian A. Nazzaro, Mrs. Eva B. Callebaut and Mrs. Ethel M. Bertrand.

Music is to be furnished by a well-known orchestra in addition to which there will be entertainment by local performers. Dancing will continue from 8 to 12 and refreshments will be served.

## American Red Cross

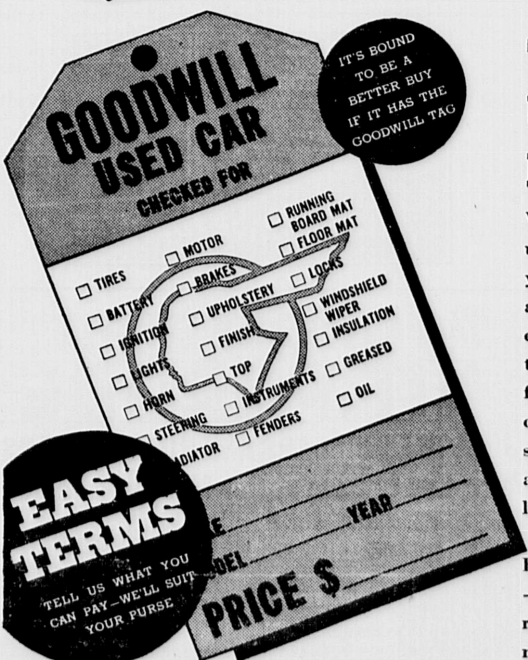

The Junior Red Cross sent 50 favors to the Chelsea Naval Hospital for March 17th. Each one was a package of cigarettes, wrapped in green cellophane, with a clay pipe decorated with shamrock, and a book of matches. Their Washington's Birthday souvenirs for the hospital were 96 chocolate nut bars, tied with red, white and blue ribbon.

Junior delegates are being chosen for the Annual Convention in Washington, May 10th-13th. Two boys or two girls are sent yearly at Chapter's expense. The names of the two girls who have been selected because of outstanding interest in Junior Red Cross will be announced later.

V. F. W. BALL

Vice Commander John Scarlett and his committee are making arrangements for the annual military ball of Eugene Daley Post, V. F. W., which will be held at the State Armory, West Newton, on April 2nd. A large attendance is expected.

## BOSTON MUTUAL LIFE

Its Annual Report Shows a Healthy Growth in Income, Insurance in Force and Number of Policyholders

The Annual Report of the Boston Mutual Life Insurance Company for the year 1936 shows that it has made marked progress during the past year, having added 12,239 policyholders to its membership and increased the amount of insurance in force to \$79,357,102, a gain of \$4,397,174 or 5.86%.

The total assets of the Company on December 31, 1936, amounted to \$11,972,223.89, a gain of \$657,824.53 over the previous year.

The total liabilities are reported as \$11,391,594.81, leaving the net surplus at \$580,629.08. During 1936 the Company paid out to its policyholders in death claims, cash surrender values and dividends as well as other benefits under its liberal policies the sum of \$1,637,615.03 and since its organization thirty-seven years ago has paid out for similar purposes over Twenty-six Million, Three Hundred Dollars to the members of this mutual company. There has been a marked decrease

in the requests for cash surrender values during the past year, being \$137,490 less than in 1935, while the amount of policy loans has also decreased, all of which is evidence of better business conditions in general.

The receipts of the Company for 1936 reached the amount of \$3,813,732.95 and the expenditures for all purposes amounted to \$3,095,728.52 the excess of receipts over expenditures being \$718,004.43.

Notwithstanding the very satisfactory increase in insurance in force and in the number of new policyholders, the management of the Company's affairs has conducted its business in the field at the lowest cost in the Company's history, due in large measure to the loyalty and co-operation of the employees throughout the Agency Department and in the Home Office.

The Boston Mutual has always realized that the prompt and courteous attention to the needs of its members, the policyholders, is a strong factor in building up among the general public a reputation for service to them. It therefore takes a justifiable pride in its long record of prompt payments of death claims and speedy attention to requests for policy loans and cash surrender values, thus performing a needed service in times of stress, which has given it often the name "A Policyholders' Company", which it aims to be.

The President of the Company is Herbert O. Edgerton, who has the distinction of having been its executive leader for over thirty years. The Vice-President, Jay R. Benton, was for several terms the Attorney-General of the Commonwealth of Massachusetts and has been a Director of the Company for a number of years. The Secretary-Treasurer of the Company, Edward C. Mansfield, has served in that capacity for over twenty years and before assuming that position occupied the position of Postmaster of Boston.

## Fined \$20 For Reckless Driving

Angelo Tocci of 127 Linwood ave., Newtonville was fined \$20 by Judge Murray in the Newton court last Thursday for driving a car so as to endanger the lives and safety of the public. Patrolmen McGrath and Whelan testified that on the night of March 2 a car driven by Tocci collided at Washington st., near Adams st., with a car driven by Americo Gallinaro of Crawford st., Watertown, and then hit a car driven by Emanuel Gallo of 246 Watertown st., Norantum. Whelan testified that Tocci was abusive in talking to the drivers of the other two cars.

Arthur O'Connor, Jr. of Harrington st., Revere was arrested on a warrant last Thursday by Patrolmen Taffe and McCormick for driving to endanger. He was arraigned in the Newton court and his case continued to April 1. On February 20 a car driven by young O'Connor collided at Boylston and Woodward sts. with a car driven by Alphonse Chesley of Framingham. The latter was injured. Irving Rubin of Bellevista rd., Brighton was arrested last Thursday by Patrolman Kilmain charged with driving so as to endanger. His case will be tried on April 9.

## Youth Hurts Ankle In Fall at N'ville

Stanley Burke, 17, of Henshaw st., West Newton, severely sprained his right ankle last Saturday afternoon after 5 when he fell while climbing over a fence near 665 Washington st., Newtonville. He was given first aid by Dr. Slavin. The police patrol wagon was sent to take the youth to the hospital. The wagon was delayed in reaching the hospital when it stalled because of lack of gasoline.

### Termites Are Working

While we sleep, termites work. They eat, breed and destroy. They know of no depression but can depress property owners plenty. Little we think of termites and decay until something gives way and causes considerable damage and expense. If the essential parts of every house and building were treated with a good odorless wood preservative much trouble could be saved later.

### PLANTING HINTS

#### Number 1

Planting is a very simple operation, but the way you carry out the fundamentals means success or failure. Remember that all plants are living organisms. They need air, food and water. They receive their food and strength from the ground through roots; the most delicate part of the plants. Be sure the roots are not damaged, or your plant is as good as dead before you start. Drying out of the roots is the thing to avoid.

In buying evergreens and such like be sure the roots are wrapped with a ball of earth and kept moist. Do not disturb this earth when planting. The roots of smaller plants are much easier to protect but should be wrapped with damp moss or something suitable to keep them damp until planted.

Good nursery stock can be ruined if not properly planted in the right kind of soil and of sufficient depth. Three important things that must be done for successful planting are: proper soil preparation, correct placing of plants in the soil and after care: pruning, mulching, fertilizing, watering. These conditions vary with different kind of plants and each week under Planting Hints the subject will be treated.

### LONG TERM MORTGAGES GROW IN FAVOR

Reports show approximately 50 per cent of all home mortgages insured by the Federal Housing Administration amount to 76 per cent to 80 per cent of its appraised valuation of such properties.

Analysis also reveals public preference for the long-term mortgage, particularly when for new construction. The average term of an insured mortgage is slightly over 15 years, with the largest number of mortgages written for 19½ years. More than half of all the mortgages insured are for terms of 17 to 20 years.

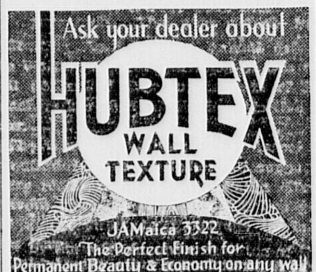

The study of mortgages classified by duration revealed that a higher proportion of new construction than refinanced mortgages is found in the long term groups, with 71.9 per cent of new construction mortgages for a 17 to 20-year duration and 21 per cent in the 13 to 16-year bracket.

A study of the ratio of mortgage loan to property valuation also shows new construction calling for a higher percentage of valuation: 57.6 per cent for new construction compared to 43.9 per cent for refinancing are in the 76 to 80 per cent valuation group and in the 71 to 75 per cent valuation group 17.9 of the new construction and 17.5 per cent of the refinanced mortgages are found.

### BEAUTY AND DURABILITY IN TEXTURE WALL FINISH

Much of the quality and charm of great buildings of past ages was due to the sympathetic manner in which wall surfaces were finished, both in colour and quality of texture. For many centuries we have been limited to the use of oil paints, cold water paints and wall-papers for obtaining colour effects for walls. Applying these to wall surfaces resulted in sacrificing the original texture and efforts to reproduce with ordinary paint the soft qualities of European fresco walls has brought only meagre results.

With improved wall texture products the way has been opened to unlimited possibilities for obtaining the fresco surfaces of the masters of the Renaissance, the texture quality of the early Gothic and Spanish, or the richness of Arabian walls with all the colour variation of the Orient. Any colour, any tone and texture of surface desired can be obtained today. Many varieties of textures, heretofore unknown may be realized with these improved texture products. Like everything else best results are obtainable through those experienced in this work.

### Questions and Answers

Mr. Stuart will be pleased to answer any questions relating to home modernizing and building. Inquiries may be addressed to him c/o Newton Graphic.

We purchased a wood shingle house not very old and the paint seems to be peeling off the shingles. Is this natural with painted shingles?

Paint on wood shingles is not as satisfactory as a penetrating shingle stain. Paint has a tendency to seal the pores of the wood and may cause dry rot. Paint also hides the grain and oftentimes destroys the real beauty of the shingles.

A good shingle stain not only preserves the shingles but also enhances the beauty of the wood itself. Shingles should be dipped before placed on the wall.

I like the Venetian blinds we had installed recently but am wondering if you can suggest some way of concealing them when they are rolled up?

If they fit between the reveal of the window a valance of material to harmonize with the draperies would conceal them. If the blinds are on the face of the window casing either a valance of the curtain material or wood trim might be used to cover them when rolled up.

Last year we were troubled with small black insects under the leaves of our cherry tree causing them to turn up into small balls. Can you suggest what to use as a spray?

For black insects on the underside of leaves of cherry trees use a spray of nicotine sulfate and soap and apply as early as possible.

We have an open brick terrace at front of house and when it rains puddles form on floor. What would be the best thing to do?

Your terrace was either laid without a pitch or it has settled. The only satisfactory thing to do is to relay the terrace with a proper pitch, and be sure before it is laid that the fill is thoroughly puddled with water and tramped down with pressure.

### THE SONG OF SPRING

All things love God,  
the trees look up;  
Each flower lifts  
an altar cup;

All things love God,  
the summer breeze  
Joins in its praise  
with birds and bees;

And I love God,  
He made me part  
Of life that springs  
from His own heart;

With Nature's song  
the whole day through  
My heart sings praise  
God loves me too!

### LANDSCAPING MAKES THE HOME

The Flower Show with unequalled splendor once more announced the arrival of Spring. From the crowds who saw the wonders of nature came visions and desires to make the home more attractive and beautiful; desires that fill the heart with joy and a home with distinction.

The appearance of a property speaks for itself. It is said, "You can tell a man by the place in which he lives." Occasionally we see on one side of a street a beautifully designed house of costly construction but poorly landscaped and on the other a modest cottage with an aesthetic appeal made possible by an artistic hand and love for nature and we marvel at the beauty of the latter.

Proper landscaping really makes the home for without it a house does not look like much. The increased value of a well landscaped property shows a good investment. The first impression of a home and the one that is most remembered is the appearance of the front entrance. The pride in the home, the taste and personality all find expression here.

Whether it be evergreens grouped about the chaste Colonial doorway, or many flowering shrubs softening the bare lines of formal brick and stone, artistic planning will provide a harmonious setting. Planting today is more than a personal pleasure, it is a matter of civic pride. More and more it is an obligation to the community to have the grounds attractive. In building a new house considerable thought should be given to the development of the property while the house is being planned. It is as important to make a layout of the grounds and garden as it is to have plans made from which to build. This is as equally true regarding the small cottage as it is for the large estate.

Just as a house needs modernizing so trees, shrubs and flowers planted years ago need attention. Every planting should be gone over now and then and given a "beauty treatment". This may involve merely pruning, fertilizing and replacing old shrubs whose weakened growth is no longer beautiful, or it may call for a complete rearrangement with the addition of new and more interesting plants. Work of this kind may need expert attention and it is well worthwhile, but to get out and talk with the flowers brings the kind of pleasure nobody can take away.

## Wellesley Teacher Fined as Speeder

Edith M. Snail, 60, a teacher at Wellesley College, was fined \$5 by Judge Allen in the Newton court on Tuesday for speeding. Patrolman McCormick testified that the woman drove at a speed of 54 miles on the turnpike. Josiah E. Bacon, 2nd, 17, of 95 Temple st., West Newton, was also fined \$5 for speeding.

In court on Wednesday eleven autoists were charged with various violations of traffic laws. Two Harvard students were fined \$5 each for not slowing down at intersecting streets. They were—Edgar T. Gignour and Robert Burke. For like offences \$5 fines were imposed on John Elberfeld of East Boston and Stratford Wentworth of Garden rd., Wellesley. Roy Blinn, 40 Lee st., Cambridge, was fined \$15 for speeding; Hiram Geary, Jr., of Worcester was fined \$5.

## Safety Conference In Boston Apr. 5-6

Sixty speakers from a dozen States will address the fourteen sessions of the 16th annual Massachusetts Safety Conference at the Hotel Statler, Boston, on April 5 and 6. Groups of meetings will be devoted to industrial safety, highway accident problems, fire prevention and safety education. The highway safety sessions on the second day of the conference will be attended by delegations from all the New England States. At the general session in the morning Col. Paul G. Kirk of Newton, Commissioner of Public Safety, will preside. Only one subject will be considered—"The Enforcement of Traffic Regulations." Among the speakers at the afternoon session that day will be George J. Martin of Newton, representing the older drivers.

Annual Prize-Speaking at Newton High School

Friday evening, April 2, at 8 o'clock, the English Club will sponsor its annual entertainment, the Senior-Junior Prize-Speaking Contest and a one-act farce, "Tantum," by Beatrice McNeill, presented at the Newton High School Auditorium. This contest, inaugurated in 1912, has become a distinctive peak in the year's activities. Former participants, including such winners as William Bittenbender, Alice Mansfield, Betty George, and Louise Glaser, have consistently gone on to achieve distinguished careers after graduation. This year's group of finalists, selected after a series of close eliminations, will compete for two cups: Lois Currie, Geraldine Harvey, Natalie Salter, and Evelyn Wadell for the girls' award; Bruce George, Malcolm Hardy, Leon Lipson, and Robert Myers for the boys. Prominent in the cast of the play are Robert Nolan, last year's Prize-Speaking victors, Elaine Coyne, Helen Spence, Grace Ver Planck, Herbert Buttrick, William Copeland, Barbara Levine, Jane Underwood, Lyman Robinson, David Birtwell, and Margaret Clayton. The play has been capably coached by Ann Sanguinetti, of the senior class.

Whitten Promotes Model Airplane Contest

Over nine years ago, Edmund Whitten Jr. started his hobby of building model airplanes that fly. Today, after much serious study and experimentation, Ed is considered an authority in this fascinating sport and is the leader of many model organizations. He is now the leader of the model division of the Newton High School Aviation Club, where he holds four of the eight school records.

Whitten has done much experimenting with odd types of flying craft. Recently he established a national record for indoor ornithopters; this is also a Boston record. Among his collection of superbly flying experimental models that he has designed himself are autogiros, free-wing models, helicopters, ornithopters, vacuplanes, and many others. His most prized is the vacuplane. This model, whose lifting surface resembles a Venetian blind, has flown for more than two minutes outdoors. It is exceedingly stable and climbs quickly. At present he is developing a new high-performance rotor-plane, which he believes has a good chance of flying.

At present Edmund is preparing for the ALL NEWTON PUBLIC SCHOOL CHAMPIONSHIP MODEL AIRPLANE CONTEST and the national contest to be held this summer. His six-foot gasoline engine-powered model, with which he hopes to capture many first places, is nearing completion. The "gas" model will be painted Newton High's famous colors, orange and black.

As leader of the Model Group of the Newton High School Aviation Club, Ed is now with James Corcoran, directing the preparations for the coming ALL NEWTON PUBLIC SCHOOL MODEL AIRPLANE CONTEST. This outstanding contest will be the first of its kind ever to be held in Newton. The contest will take place April 10th, (depending on the weather) or May first, in the Dickinson Stadium, Newtonville. It will commence at 12:30 and end at five.

The contest is open to all builders attending a Newton public school. There will be two groups: the Junior (ages ten through fourteen) and the Senior (from fifteen through eighteen). Thirty-two grand prizes will be awarded to the winners, sixteen to each group. The four events are: Cabin Rise Off Ground, Flying Scale, Gliders, which may be flown either hand-launched or tow-line launched, and Hand Launched Stick.

As contest organizer, Ed suggests that enthusiasts send in their Entry Blanks immediately. Any questions concerning the contest will be gladly answered.

## St. Patrick's Day Assembly

The sophomore class of Newton High enjoyed a splendid assembly program on Wednesday, March 17. The first part of the program was a good puppet show, entitled "The Story of Pin." It was a dramatization by Lawrence Chamberlain, class of 1937, and was given by the Puppetteers under the direction of their adviser, Mrs. Kate C. S. Cornell. Voices were Anita House, Frank Donette, and Frank Hanover, and operators were Ruth Baird, Lawrence Chamberlain, and Frank Hanover. Marjorie Hossbrack was the voice of St. Patrick and Gladys House was prompter.

"Spreading the News," a one-act play by Lady Gregory was presented by the Neophytes, the sophomore class drama club, under the direction of their adviser, Miss Jessie A. Southard. The cast included Ed Rogers, Marjorie Wood, Philip Mork, Robert McGrath, John Gayen, Beverley Beard, Constance Elrod, Paul Crocker, and William Baker. Nancy Blake served as prompter. The setting was designed and executed by the Drama Club Workshop under the supervision of Mr. Charles W. Peterson.

Mr. Hefforey Campbell, field secretary of the New England Student Christian Movement, spoke on Wednesday, March 17, before Mr. Paige's Block B class in Problems of Democracy. Mr. Campbell's timely subject was "The Labor and Strike Movement."

Robert Giddings, former Newton High School student, son of Dr. Harold Giddings, of 29 Berwick rd., is a Phi Beta Kappa student. He is a senior at the University of Rochester School of Music and majoring in piano.

Loring M. Thompson, a graduate of Newton High School, has been elected secretary of the class of 1940 at North-eastern University.

The deans of women and school advisers of girls of the schools and colleges in New England will attend the third spring conference on April 16 at Tower Court, Wellesley College. A full day's program has been announced by the committee on arrangements of which Miss Cora E. Riley, guidance supervisor in Newton High School, is a member.

Miss Maida Flanders was hostess to the Newton Centre Neighborhood Club on Monday evening, March 15, when Mrs. Taylor spoke on current events. The Child Study Association of America recently conducted at Hotel Brunswick an all-day institute on "Cooperation Between the School and the Home." Mr. Raymond A. Green, Acting Principal of Newton High School, took part in the discussion of the High School Pupil, and Raymond W. Blaisdell, Principal of the John W. Weeks Junior High School spoke during the discussion of the Intermediate School.

## Warren Jr. High

The Warren Junior High School paper, "The Transmitter," a publication issued monthly by the students of Warren under the direction of Miss Avis Walsh and Mrs. Eileen Daziel, was awarded third place by The Columbia Scholastic Press Association in a nation-wide competition of school newspapers of its size and class.

On Wednesday, the students of Division IIIA, in conjunction with their work in Social Studies and in order that they might have a more thorough comprehension of the mechanics of our local city government, had the privilege of seeing some of the public buildings and the equipment of the City of Newton. The itinerary included the Police Headquarters, Newton District Court, City Hall, Fire Headquarters, Water Works, and the Incinerator.

Similar trips are planned for all Junior III Social Studies classes. This trip was planned by Miss Helen Lewis in conjunction with Mr. George Keller.

A very unusual Chinese exhibit is being shown in the display cabinet opposite the main entrance to the Warren Junior High School. Some of the contributors are Seeley Stetson, Ruth Steglich, Roger Hackett, Betty Hanson, Henry Richardson, Nancy Jenks, Marcia Wade, Edith Alexander, Russell Gwillim, Eleanor Poor, and Tessie Wong of Hankow, China, whose letters and pictures are used as a background.

## CHRISTIAN SCIENCE

"Reality" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, March 28.

The Golden Text is: "Lord, thou hast been our dwelling place in all generations" (Psalms 90:1). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty: for all that is in the heaven and in the earth is thine: thine is the kingdom, O Lord, and thou art exalted as head above all. Both riches and honour come of thee, and thou reignest over all; and in thine hand is power and might; and in thine hand it is to make great, and to give strength unto all" (I Chronicles 29:11, 12).

The Lesson-Sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The Scriptures imply that God is All-in-all. From this it follows that nothing possesses reality nor existence except the divine Mind and His ideas. . . . All that really exists is the divine Mind and its idea, and in this Mind the entire being is found harmonious and eternal" (pp. 331, 151).

## A Bachelor's Idea of a Wife

THE other day we heard a cynical bachelor say that a wife gets all the money her husband makes and spends it all, except the part she puts into savings.

Be that as it may, the wives and mothers of Newton Centre have done a mighty fine job of providing financial protection for their families through their thrifty ways.

We know! Over 80 per cent of all savings deposits are made by women!

## REAL ESTATE

The Carley Realty reports the lease of the entire property at 709 Washington st., Newtonville consisting of a beautifully designed one story fire proof structure of great dignity, leased from C. J. and Mary H. Hutchings to Brown Anthony Co., well-known stock brokerage house whose main office is at 24 Federal st., Boston. This lease is highly significant in that it shows the trend of large Boston business firms to decentralize and open branch offices in the Newtons.

The children of the Sunday School will present an Easter Concert at the Regular Church School hour. We welcome you to the services of our church.

At 7:30 p. m. Thursday evening of this week, March 25, the music lovers of Newton will be offered the opportunity of hearing Alexander Kaminsky, the Imperial Russian Violinist and favorite in the court of Czar Nicholas II. All are invited to enjoy an hour of stirring music by this master musician.

This consecrated artist preaches sermons on the violin and lifts lives heavenward. Mr. Kaminsky was decorated a number of times by Czar Nicholas before the fall of the Romanoffs. He was formerly of the Grand Opera in Moscow. Five years ago Mr. Kaminsky was remarkably converted. He now is using his talents for the glory of Christ. Admission free to all for the guest artist receives only the offering for his services.

## WOMEN'S CLUB ACTIVITIES

Edited by EMMA D. COOLIDGE

Scholarship Bridge  
Among Other  
Social Activities

An informal Reception to the new members of the Newtonville Woman's Club by the president, Mrs. H. Clayton Pearson, was held on Thursday, March 18th, at the home of Mrs. Ralph W. Conant, corresponding secretary of the Club, 77 Kirkstall road. The new members included those who had joined the Club during the two years that Mrs. Pearson has been president, 1935-1937.

Mrs. George I. Whitehead, head usher of the Club, greeted the guests, and pinned tags with their names, for further identification. The president and Mrs. Conant were in the receiving line, and other officers and members of the Executive Board assisted in introducing the new members. In the dining-room, where food and coffee were served, Mrs. Edwin P. McGill and Mrs. Ernest L. Nichols poured. All the guests, new members and old, enjoyed this effective way of becoming acquainted.

Reminder is given of the delightful Scholarship bridge planned for Friday, April 2nd, at the Club House, with dessert-coffee served at 1 p. m. The last of the Literature Afternoons, which have proven so enjoyable to Club members, will be held on Monday, March 29th, at 2:30 p. m., at the home of Mrs. Wallace C. Boyden, 64 Oakwood road. Mrs. Boyden and Miss Louise Sherman will present the subject for the afternoon, "The Boys and Girls of Charles Dickens." Tea will be served.

Club members will be interested to know that appreciation for \$12 Milk Keds, donated by their contributions, for the Carr School, given in the name of the Club through the Civic committee, Mrs. Anton A. Wild, chairman, was expressed recently by a letter from the principal, Mr. Kenneth La Flamme.

Club women are reminded that applications for luncheon tickets and Registration should be made with Mrs. Arthur G. Fletcher, Turpike street, Canton, on or before March 27th. Tables may be reserved for parties of ten.

## Junior Conference

Mrs. Paul H. Nottage (Juniors and clubwomen know her better as Ruth Lothrop), chairman of the division of Junior Membership in the State Federation, has sent out announcements to all Junior Clubs that the Annual Spring Conference for Juniors will be held Saturday, April 3rd, at the Hobbs Junior School in West Medford. Every club president in the State is to send a report of her club's most important activities to a Junior representative in her district, who will present a district report. This is the first time that such a report has been given and will save time by eliminating the individual reports. These reports must be sent at once to the person designated for each district.

There will be a 10-cent Registration Fee at the Conference to defray the expenses. Each club is to elect one voting delegate before the Conference, who will vote at the West Medford meeting for the final selection of the 1937 Massachusetts Junior delegate to the General Federation Council Meeting in Tulsa, Ok. The three Juniors chosen from the large number appearing in a public-speaking contest will preside at the Conference, and it is one of these three who will go to Tulsa.

One feature of the Conference will be a demonstration of the proposed State Project, the Talking Book for the Blind, which will be voted on. Finals in the State Drama Contest will also be determined. The three best plays selected by the judges from the twenty-one given in the entire State will be presented.

Winners of the public speaking contest, sponsored by the Junior department of the Federation and just held at the Boston Y. W. C. A., have been announced as Miss Mary Pierce, of the Junior Philergians of Braintree; Miss Anastasia J. Kirby, of the Cantabrigia Junior Club of Cambridge; and Miss Eleanor M. McManus, of the Junior Women in Council, Roxbury.

These winners will preside and speak during the morning session of the Junior Conference, when by popular vote of the Juniors present, one of them will win the honor of representing Juniors at the General Federation Council Meeting in April.

Factors determining their selection in this contest were good diction, poise, presentation, personality, and posture. Eighteen Juniors competed and the judges were Mrs. Harold M. Scheibe, chairman of Drama and Literature in the Federation; Mrs. Hortense C. Railsbach, of the Bishop-Lee School; and Mrs. Irene M. Hebbard. Miss Pierce, daughter of Mr. and Mrs. George B. Pierce, of Braintree, is a past president of the Junior Philergians, and is a member of the department of Junior Membership of the Federation.

Miss McManus is a past president of Junior Women in Council of Roxbury. She is a leader of troop 5, Roxbury Girl Scouts, and is a junior at Boston Teachers College, where she is president of the Welfare Club. Miss McManus belongs to the Commercial Club and the English Club at the college, and has the high honor of being on the dean's list in scholastic achievement. She is majoring in commercial work. She is the daughter of Mr. and Mrs. Charles F. McManus, of Roxbury.

Miss Kirby, president of the Junior

Cantabrigia Club of Cambridge, was graduated from Emmanuel College in 1935, where she was president of the Dramatic Society. She is the daughter of Mr. and Mrs. Charles F. Kirby, of Watertown.

Travel Talk  
Illustrated  
In Colors

"Turquoise Trails to New Mexico" is the intriguing title for Alton Hall Blackington's newest Travel Talk which will be given before the Auburndale Woman's Club on Tuesday afternoon, March 30th, at 3 o'clock. This thrilling story of his recent 10,000-mile trip across the United States to the land of the Navahos, is illustrated in exquisite coloring.

Those who have already heard Mr. Blackington, know that his ever-present sense of humor, together with his pictures of the Carlsbad Caverns, the Grand Canyon, and Hollywood, will afford not only an amusing but an instructive afternoon.

Mrs. Joseph McCarron, who is to succeed Mrs. Ernest F. Drew as next year's Program chairman of the Club, will introduce the speaker.

The usual business meeting will be conducted at 2:30 p. m. by the president, Mrs. Edward B. Gray, and luncheon tickets for the Annual Meeting will be on sale at this time.

Visiting Day To  
Newton Homes

On Thursday morning, April 1st, at 10:15 o'clock, the last of the Talks on "Know Your City of Newton," will be given. Special Justice of the Newton District Court, W. Lloyd Allen, and Mr. M. John Enegeess, an official connected with the Court, will speak on "Courts" and "Probation," respectively. The meeting is open to the public, with no charge.

Friday, April 2nd, is American Home Visiting Day. The American Home committee of the Newton Centre Woman's Club has arranged that homes in the community, of various architecture, be open to Club members from 10 to 12:30 o'clock. Following luncheon at 12:45 at the Club House, bridge will be played. Players are asked to bring cards. Since there will be a limited number of tickets at 75 cents each, it is necessary to make early reservations with Mrs. Ralph L. Morse, Telephone Newton North 3116-J. Members who either need transportation or can furnish transportation for others, should advise Mrs. Morse when making reservations.

Monday evening, April 5th, at 8 o'clock, Dr. Samuel Macauley Lindsey will discuss World Affairs. Guest tickets may be purchased for those who are not Club members.

Daughters Invited  
To Interpretation  
Of Modern Dance

Pauline Chellis and her Dance Group will bring an interpretation of the modern dance to the Waban Woman's Club, Monday, March 29th, at 2:30 p. m. in the Neighborhood Club House. Daughters of members from Junior and Senior High Schools are invited. There is no admission fee. Mrs. Cecil B. Taylor will be the tea hostess.

Attractive Plans  
Announced For  
Spring Festival

On Thursday evening, March 18th, Mrs. William C. Worth, of Perkins street, West Newton, opened her home to the Glee Club of the West Newton Community Service Club for the regular monthly business meeting. Plans were completed for the Spring Festival to be held at the Warren Junior High School in West Newton on May 14th. The announcement that Mr. E. E. Whiting will write the script, which will bind together a novel and unusual form of program, met with much enthusiasm, as Mr. Whiting is so well known for his clever and amusing wit that the performance is sure to hold many delightful surprises. During the latter half of the evening a well-known dance orchestra will furnish music for dancing. Beginning with 10 o'clock, there will be two dances, three attractive and novel numbers will be presented as specialties. The full program will be announced very soon.

After the business meeting, a short musical program was presented by Mrs. Barnes and Miss Agnes Olson, talented members of the Glee Club. Miss Lillian Mudgett assisted the hostess in serving light refreshments and the meeting adjourned until April.

The March meeting of the West Newton Community Service Club was held on Wednesday, the 17th, at the Second Church, with the president, Mrs. George S. Fuller, in the chair. After a short business meeting, the Club was entertained by the Embassies Club, composed of Eugene Conley, George Wheeler, John Metcalf and Edward Cole, all of whom are well known throughout New England for their work as soloists. The program included sea chanteys, ballads, old favorites such as "Music When Soft Voices Die," and "John Peel," and songs by Tschakowsky and Kreisler. Mr. Conley, first Tenor, gave a group of songs which included "Cielo e Mar" from "La Gioconda," and which

has a hobby!  
The hobby is SHIRTS

We pride ourselves on our reputation for fine shirt work.

Here your shirt is hand starched, hand finished and thoroughly ironed all over. We even iron both sides of the collar so your tie will slide freely.

Our operators finish 10 shirts each per hour. You can get yours done at laundries that require their operators to do 20 an hour. But how will it look? How long will it last.

Our dating system shows us that in many cases the same shirt has been coming to us for 3 years and more. Try us for longer shirt life!

were much appreciated. The Quartet, through their happy choice of music and the harmonious blending of voices, each of fine musical quality, rendered a program which was thoroughly enjoyed.

The accompaniments of Reginald Boardman added much to the music, and his piano solos, by Debussy and Rachmaninoff, were an important contribution to the afternoon.

Tea was served by Miss Fanny Gray and her committee.

## Resolution To Be Considered At Tulsa

Objection to the implications and intent of the President's plan for reorganization of the Supreme Court will be presented to the clubwomen of the United States in the form of a Resolution when the General Federation of Women's Clubs convenes in Tulsa, Oklahoma, for its Annual Council Meeting from April 26th to the 30th, with Mrs. Robert Campbell, Lawson, president of the General Federation, presiding. Mrs. William Dick Spoor, of New York, chairman of the department of Legislation, is sponsoring this Resolution as a Declaration of Principle.

Directly and succinctly this Resolution states the cause of action: "Aware that the Constitution of the United States neither specifies nor mandates the number of Justices for the Supreme Court, but realizing that the philosophy of government motivating that Constitution clearly intended the three branches of our Democracy, the Executive, the Legislative, and the Judicial, to be a wholesome check on each other for the common good of all the people, we, the General Federation of Women's Clubs, in Council Meeting assembled, April 26th to the 30th, 1937, do hereby adopt the following Resolution: That we urge the President to adhere to the intent of the Constitution, and to refrain from appointing more than three Justices to the Supreme Court."

Mrs. Lawson, with a view toward determining the sentiment of clubwomen on this question, recently sent out a communication to presidents of all State Federations suggesting that they conduct polls of their clubs and refer the tabulated results to the General Federation. These returns will probably be made known at the Council Meeting. Since the General Federation does not take a stand on controversial questions without the action of its member clubs, the adoption or defeat of the above Resolution will determine the official stand of the Federation on this momentous question. All resolutions offered at a Council or Convention must be submitted to all member clubs for their vote. Time for action so that delegates attending the meetings are instructed how to vote.

Indoctrination of Allen Philosophies in the schools of the United States is under fire of attack by Mrs. John L. Whitehurst, of Baltimore, Maryland, chairman of the department of Education of the General Federation, who has presented a far-reaching Resolution opposing the system now prevalent under which some teachers in our schools, under the guise of free speech and liberal thought, are forcing their own philosophy of government on students, many of these philosophies being out of sympathy with the American form of government. A second Resolution in the same vein would provide that the General Federation advocate the use of every reasonable effort to prevent school buildings and other public buildings from being used by subversive organizations for the promulgation of their propaganda, in order that children, in the formative years of their lives, may be imbued with loyalty and patriotism rather than be subjected to communistic and other corrupting influences. The New Jersey State Federation of Women's Clubs, supported by the endorsement of Mrs. Whitehurst, will also present a Resolution for adoption; namely, that Federations and clubs be urged to further the establishment of special programs of Adult Education in order to safeguard democratic ideals, train citizens in the critical evaluation of current opinion, and to aid them in assuming their responsibilities as citizens.

Concerning International Relations, three Resolutions have been prepared for presentation to the Council Meeting by Miss Alves Long, of St. Louis, Missouri, chairman of the International Relations department of the General Federation. The first, in relation to Peace in the Americas reads: "Whereas we believe the Inter-American Conference for the Maintenance of Peace recently held in Buenos Aires has strengthened the ties which bind together the nations of this hemisphere thus encouraging a solidary attitude toward their common problems, and it is resolved that the General Federation of Women's Clubs . . . urge ratification by the Senate of the conventions providing for the making of the Monroe Doctrine multilateral and for consultation on threat of war."

The second Resolution is in reference to the Kellogg Pact, providing that the General Federation urge that the Kellogg Pact be implemented by making explicit the implied obligation of the signatories of the Pact. The third Resolution in this group is one which, if adopted, would put the Federation on record as "condemning the attempt of any group of our citizens to influence Congress in favor of what they term the legitimate interests of their native country regarding measures affecting countries at war, such as embargo legislation."

Restricted immigration with preference quotas for the protection of the United States is a principle which has already been adopted by the General Federation; however, a further Resolution is to be offered to clubwomen at Tulsa by Mrs. Jefferson D. Atwood, of New Mexico, chairman of the department of American Citizenship, which provides for the reaffirmation, by the Federation, of its faith in the

above principle and urges a continuation of a policy of restricted immigration which shall include: adequate provision for the assembling of immediate members of families, protection of the lawful entrant, and speedy deportation, after due process of law, of the illegal entrant and the alien adjudged criminal or those detrimental to the welfare of the United States. Twenty per cent of the crime in the United States is committed by minors, reports Mrs. John L. Whitehurst, and her department of Education is, therefore, sponsoring the adoption of a Resolution approving compulsory studies in character-building and crime-prevention in our schools; and if this Resolution is adopted, the entire membership of the Federation will begin urging school authorities to include these vital subjects in the school curriculum.

Believing that the development of forestry and conservation of natural resources is imperative to the life of the Nation and that this should be made known to every school child, the division of Conservation of the Federation, Mrs. H. G. Rogers, of Colorado, chairman, will present a Resolution providing for the teaching of this subject in schools. This would include forest management, range investigation, flood control, reforestation, and development of recreational resources of all national forest lands. The final Resolution is in relation to extension of kindergartens. Mrs. Whitehurst will urge for adoption a Resolution reaffirming the Federation's belief in the extension of kindergartens and urging its member clubs to petition school authorities to provide this educational advantage for all children.

## Other Programs Of Interest

## Newton Centre Neighborhood Club

Mrs. F. C. Rising will be hostess to the Newton Centre Neighborhood Club at her home, 84 Parker street, Newton Centre, at 7 p. m., on Monday, March 29th, when Mrs. F. O. Lucas will be supper chairman. She will be assisted by Miss Margaret A. Copeland, Miss Corinne Crotting, Mrs. Charles G. Norton, Miss Priscilla Ordway, Mrs. Walter P. Rayner, Miss Helen Shumway, and Miss Dorothy Taylor. After the supper, the Club will have the opportunity of hearing Miss Harriet Parsons tell of her work with the Newton Welfare Bureau.

## Social Science Club

The Social Science Club will meet in the Parlor of Channing Church, on Wednesday, March 31st, at 10 a. m. Miss Miriam Drury will give a paper on "Public Service Institutions in America."

The hostesses will be Mrs. Warner Eustis and Mrs. Frank F. Lawson.

## Newton Federation

The Executive Board of the Newton Federation of Women's Clubs met on Monday, March 22nd, at the Newton Library, with Mrs. J. Earle Parker, president, presiding.

Among the announcements were the following: Mrs. Edgar P. Hay is arranging committees for the Sale for the Blind. The Sale will be held at the Newton Centre Woman's Club House on May 25th, 26th, and 27th, and preliminary arrangements will be made by Mrs. Hay's committee, conferring with Miss Rose Trainor, at the Waban Library, on May 12th, at 10:15 a. m. The West Newton Women's Educational Club is holding a Club Institute on Friday, March 26th, at 2 p. m., at the West Newton Unitarian Church. All club members are welcome, although the five-minute speeches are planned especially for clubs of 150 members or less.

Mrs. Arthur Hitchcock and her daughter, Anne, will entertain after the Annual business Meeting of the Federation on May 3rd.

Complaint had come to Mrs. Anton A. Wild, civic chairman, regarding danger to children from the use of barbed wire fences. Specific cases should be referred to the city fence viewers. Climbing roses on boundary fences were cited as safe and effective barriers.

The Conservation committee, Mrs. Edmund I. Wilson, chairman, is co-operating with the State Federation in its campaign against raygweed, which was featured at the State meeting, April 1st. Mrs. Edmund I. Wilson (Telephone W. 3236) will fill orders for excellent plants of the weed at 30 cents a 100, for use in identifying this pest.

Mrs. James H. Orr, chairman of Education, stressed as worth attending the ninth Annual All-day American Home and Youth Conference on "Education for Living, New England Speaks," at Hotel Statler, on March 30th, at 10 a. m. Sanford Bates, Della T. Lutes, and Cheney C. Jones are among the speakers. Luncheon tickets at \$1.50 each, must be secured on or before March 27th, from Mrs. Arthur G. Fletcher, Turnpike street, Canton, (telephone, Canton 9326-M).

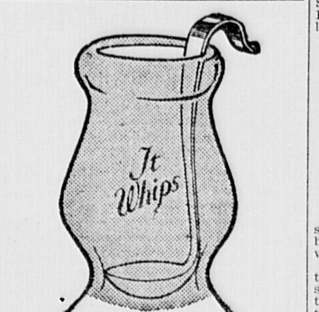

Mrs. Louis W. Arnold, chairman of Public Health, will soon have interesting findings reported as to Newton's standing in the Inter-Chamber City Health Conservation Contest, showing its strength and weaknesses. The All-Newton Music School desires engagements for its trio, quartets and orchestra, at reasonable prices.

On Thursday, April 1st, at 10:15 a. m., the last meeting in the course, "Know Your City of Newton," will be held at the Newton Centre Club House. Judge Lloyd Allen and the chief probation officer will speak.

The next Federation Board meeting will consist of a general discussion and conference, offering a chance for expression and assistance to each organization in the Federation. Following the Board's business, Mr. Albert W. Hunt and Mr. A. W. Stevens, Boston attorneys, presented their ideas for safer automobile design. Diagrams showed the small percentage of visibility allowed the driver of a modern car. Mr. Hunt

said that present styling of automobiles neutralizes the skill of mechanics, engineers, and highway experts. To cut down the frightful mortality of 105 people per day in the United States, he advocates putting the driver in the actual front of the car, with engine behind, as the air-plane is built and the stream-lined wheels suggests.

"The land in that part of Newton, Middlesex County, Massachusetts, called Waban, with the buildings thereon, being lot containing 7290 square feet of land, more or less, on a Plan of Land belonging to the Estate of William C. Strong, E. N. Smith, Surveyor, dated March 25, 1926, recorded with Middlesex South District Registry of Deeds, Book 4951, bounded and described as follows:—

Northerly by Moffat Road, seventy-two (72) feet; Easterly by land of the estate of William C. Strong, one hundred eleven (111) feet and 1/2 foot; Southerly by other land of the Estate of William C. Strong, seventy-two (72) feet; and Westerly by land now or formerly of said William Rekan, one hundred (100) feet and 93/100 (108.93) feet, more or less.

Said premises will be sold subject to all unpaid taxes, tax titles, municipal liens, and assessments, if any. Three Hundred Dollars (\$300) required at sale.

Successor Trustee under the will of Louisa Mackie Johnson, late of New Bedford, Massachusetts, deceased, for further particulars, apply either to the bank or to Carpenter, Noy & Calger, attorneys for the mortgagee, 73 Cornhill, Boston, Mass.

## THE WEEK IN NEWTON SPORTS

By JACK MORRIS

## TRACK TEAM THIRD IN BOWDOIN MEET

Newton High took third place honors in the Bowdoin College Interscholastic track meet last Saturday at Brunswick, Maine, scoring fourteen points to 22 1/3 for Nott Terrace High of Schenectady, N. Y., and 20 for Medford High. Lowell, favored in prediction last week, scored just under ten points.

Newton's only first was won by Elmer Ross in the 660, in which he defeated Stamper of Nott terrace, runner-up this year in national school-boy half mile at New York. Ross not only ran the fastest race of his career, but his time of 1 min. 17 3/5 sec. took two seconds off the Newton High record, set early this season by Joe Gallant.

Don McKinnon picked up two points for third place in the running broad jump, and Joe Gallant and Bill Kelley turned in a point each for fourth place in the mile and the 1000. Mark Messier got 3 1/2 points out of a four-way split for second in the high jump, and the relay combine of Ross, Bud Muther, Jerry Allen and Don McKinnon split second-place points with Lowell on time comparison. Newton was matched with Brookline after the somewhat outworn tradition of their rivalry, and won by half a lap.

Even with their up-and-down season, in which they dropped the State Meet and the Eastern Seaboard Relays, Bud Muther's team leaves several new records on the books. Paul Forte set a new State Meet dash record of 5.5 sec. for fifty yards, then extended the Newton High standing broad jump mark to 1 ft. 6 in. in a dual meet with Lowell. Joe Gallant lowered the Newton High standard in the 600-yard run to 1:19.8 in the Northeastern meet, only to have Elmer Ross chip off more than two seconds last week at Bowdoin, making the new mark 1:17 3/5. The relay team of Bud Hines, Jerry Allen, Paul Forte and Joe Gallant made a new record of 2:15 for the old board oval in the Boston Garden, and Hines, Muther, Allen and Forte made the State Meet record of 2:25 for the new 160-yard track, which is eleven laps to the mile.

Vic Stout of the Traveler, whose opinions on Newton High athletics are the heartfelt expressions of an alumnus, voiced this week in his Tales Out of School column the wish that the standing broad jump be dropped from high school track meets. Not much of a thriller in the way of spirited competition, and has no place in an athlete's career after he leaves high school. An even better idea of Stout's is that of opening up high school track in the outdoor season to include most collegiate events. Few dual meet programs allow for the discussion of the javelin throw, two of the oldest and most beautiful competitions known, and almost no school sponsors pole vaulting. Possibly now that track and field is the leader at Newton, some of these events will find their way into the dual meets.

Frank Spain and Junie Stubbs, Newton's veteran members of the Boston Olympic hockey team, may go to England in April for the Coronation days, if plans for an international series with leading English amateur clubs can be realized by Walter Brown, manager of the Olympics. Tomorrow night and Sunday the Olympics will represent the Boston sector in the National A. U. hockey play-offs in the Boston Garden rink. Teams

representing Detroit, Syracuse and Lewiston, Maine, are among the invading A. A. U. challengers. Last year the Olympics were runners-up in the title play at Chicago, and they must be ranked as favorites for the crown this week.

Herbert Wendy Gallagher, twenty-four year old coach of hockey at Northeastern University, has been named to succeed Al McCoy as coach of baseball next year. Returning home after a year of playing and coaching amateur hockey in England and Central Europe, Wendy stepped into the hockey coaching naturally at the university, where only two years before he had completed a great four-year record in hockey and baseball. His first hockey team had a fine record, exceeded in its class only by Boston College, and it will be no surprise if this earnest young leader fields a winning baseball team when the time comes for him to take over the job.

Jake Stone of West Newton was elected captain of Colgate's hockey team for next year. Jack Riley of Newton Centre, former Hebron Academy skater, was first string center for the Raiders this season, and is in line to continue the Newton hockey tradition at Colgate. Ben Mason, a big, aggressive defense player, will lead Evan Johnson's next Newton High hockey team. When he went ineligible at mid-season, Ben was leading the league in penalty time.

A. P. Everts, Jr., sophomore tennis prospect at Newton High, and Paul Rich, captain of last year's tennis team, are Newton members of the Saturday morning tennis classes at Longwood C. C., which are a part of the U. S. Lawn Tennis Association's plan to nurture promising young players for international competition. Rich was runner-up in the state interscholastic singles last year to another member of the class, Walter Power of Worcester, while Al Everts, a seasoned tournament player at sixteen, was one of two boys sent from New England to the national junior tournament last summer at Culver City, Indiana.

Francis "Chicken" Morris and Mario Marino of Our Lady's, leading scorers in the Catholic League basketball season which ended recently, were named center and forward on the league all-star team chosen last week by a poll of the coaches. George Delaney, third highest scorer on the undefeated Newton quintet, was the choice for the utility position, having scored early and often from a guard position all season, except when he filled in at center for three games when Morris was injured.

Frank Spain and Junie Stubbs, Newton's veteran members of the Boston Olympic hockey team, may go to England in April for the Coronation days, if plans for an international series with leading English amateur clubs can be realized by Walter Brown, manager of the Olympics. Tomorrow night and Sunday the Olympics will represent the Boston sector in the National A. U. hockey play-offs in the Boston Garden rink. Teams

representing Detroit, Syracuse and Lewiston, Maine, are among the invading A. A. U. challengers. Last year the Olympics were runners-up in the title play at Chicago, and they must be ranked as favorites for the crown this week.

Herbert Wendy Gallagher, twenty-four year old coach of hockey at Northeastern University, has been named to succeed Al McCoy as coach of baseball next year. Returning home after a year of playing and coaching amateur hockey in England and Central Europe, Wendy stepped into the hockey coaching naturally at the university, where only two years before he had completed a great four-year record in hockey and baseball. His first hockey team had a fine record, exceeded in its class only by Boston College, and it will be no surprise if this earnest young leader fields a winning baseball team when the time comes for him to take over the job.

## NEWTON TABLE TENNIS PLAYERS REACH FINALS

Leslie Lowry and Lloyd Shephardson, both of Newton and members of the Newton Table Tennis Club, were the finalists at the New England Table Tennis Championships last Saturday in Worcester. Lowry is the new New England champion defeating Shephardson in the finals and Charles Forant of Springfield in the semi-finals. Shephardson defeated A. Pecos, Rhode Island champion and Frank Filepk of New Bedford, champion of Massachusetts to reach the finals.

Other Newton club member finalists were Miss Barbara Shields, who was defeated by Miss Corrine Mignone of Salem in the women's singles and Miss Lucia Farrington of Auburndale, who with William Holden of Cambridge played mixed doubles to finally be defeated by Miss Jane Stahl of Provincetown and Leslie Lowry of Newton. With five of the eight finalists from Newton the Newton Table Tennis Club leads all clubs in New England for ranking members.

## Heavy Sentence For Robber

Donald W. Johnson, who on January 4th, attempted to commit an armed robbery at Moore's Liquor Store, 307 Washington st., Newton, was sentenced on Monday by Judge Swift in the Superior Court at Cambridge to serve 5 years at Concord prison. Johnson was foiled in his robbery attempt at Moore's when Fred Moore instead of obeying a "stick up" command, fled to the rear of the store. Johnson then went to Watertown and robbed a liquor store there. He was later captured after committing a robbery and sentenced to serve 5 years for that crime. His sentence for the Newton and Watertown offenses will start when he has served the other penalty.

## Our Lady H. S.

### Russell Harney Memorial Trophy

A cup is being donated by the students of Our Lady's High in memory of the late Russell Harney, captain of the 1936 Basketball and Baseball Teams at this school. The trophy is a beautiful silver cup, standing 26 inches high, on which is a cover decorated by the figure of a basketball player. It will make its appearance at the Victory Banquet to be given in April to the Catholic League Champions of the season.

The cup will be called the "Russell Harney Memorial Trophy" and will have engraved on it each year the name of the leading scorer of Our Lady's Basketball Team. This year the name of Captain Francis Morris, the 1937 league scoring leader will be engraved. This tall husky centre, who was 2nd highest in the league two years ago, and 3rd highest last year, led this year with 174 points, 19 more than Mario Marino, his teammate who rated number two in this year's scoring.

This year the basketball team, coached by Rev. Russell T. Haley, rated one of the best coaches in the league, went through an undefeated season. It is the first time in league history that any club has gone undefeated in sixteen games and the 2nd time and Our Lady's team has gone through an undefeated season. In 1932, with Charlie Gallagher as captain our school remained undefeated after 14 games. No other club in the league has ever gone through an undefeated season.

Three players on the team scored over the century mark. They were Captain "Chick" Morris 174 points, Forward "Mucca" Marino 155 points, and Guard "Sonny" Delaney with 112 for a grand total of 441 points. These were the main cogs in Our Lady's attack who were aided greatly by Louis Baccari, a great defensive guard and Francis "Dobs" Doherty a fine passing forward.

### Spelling Bee Winners

Grade Spelling Bees were held during the week of March 15, in the eight High School units. The following were adjudged prize winners in their home rooms: Edward Callahan '37, Margaret McQuaid '37, James McElaney '38, Kathleen Conrado '38, Thomas McCauley '39, Rita McArdle '39, Anthony Finelli '40, and Phyllis Gentile '40.

During the week of March 29, the four school winners will be found, one for the ninth grade, one for the tenth grade, one for the eleventh grade and one for the twelfth grade. These four school winners will receive a silver medal and will represent the school in the semi-final competition which will take place in the assembly hall of four Boston parochial schools during the week of April 12.

Twenty-four pupils will qualify for the grand final which will take place at Faneuil Hall on Saturday afternoon, May 1, 1937.

## Day Jr. High School

On St. Patrick's Day the eighth grade had its big social event of the season, The Eighth Grade Dance. The hall was tastefully decorated with snapdragons and sweet peas. Marjorie Hardy, Dorothy Mason, Francis Leone, Michael Farina and William Thompson were in the receiving line. The spot dance was won by Pearl Jonah and Donald Stillman, and the prize for the elimination dance was captured by Polly Lewis and Frank Brimblecom.

On Friday, March 19th, the Musical Comedy Club presented a condensed version of "The Mikado," by Gilbert and Sullivan during the assembly period. Miss Richards, who is in charge of the club, was assisted by Miss Peoples, Miss Paul, Miss Spellman, and Mr. Read in the production of the play. The cast included: Marjorie Cavanaugh; Elizabeth Sherman; Thada Thornton; Alice Kelley; Alice Thornton; Catherine Delaney; Louise Daprio; Marion Henricks; Emily Pera; Virginia Stein; and the members of the chorus, Evelyn De Stefano, Victoria Piselli, Anina Gatti, Martha Paul, Helen Proia, Lucy Forte, Mary Tedeschi, Rosamund Armstrong, Betty Reed, and Mary Hingston.

"The Daytonian" prizes for those three subscribers who received the papers containing the lucky numbers were won by Elizabeth Del Gizzi of Home Room 24, Frank Brimblecom and William Reed of Home Room 29. Two Newton schools are particularly interested in the eighth conference on Education by Radio which is to be held at Ohio State University at Columbus on May first through May third this year. Both the Warren and the Day schools have entered broadcasts which they have recently given over WBZ in the competition which is to be judged during the conference. The F. A. Day Junior High School has been publicized as having done pioneer work in this country in public broadcasting.

On Thursday, March 18th, the Day Broadcasting Club presented a Latin program over WBZ. Mr. Alden Reed, Miss Helen Spellman and Miss Lois Johnson were in charge of the program while the following pupils of the ninth grade Latin divisions took part in the broadcast: Jane Hill, Jane St. George, Margaret Galloway, Dorothy Wrightson, Marjorie Ray, James Gallagher, James Carmichael, Harold Van Ummerson, John Furfey, Richard Wright, Donald Abbott, David Eaton and Donald Kouan.

Mr. Clarence Churchill, principal of the Emerson School in Newton Upper Falls gave a few words of explanation and introduction to the film "The Plow That Broke the Plains" at the assembly last Friday.

The Library Club announces the pictures which it will show on Tuesday, March 30th, will be "Black Beauty," "Freaky Fish," an educational picture, and "Felix April Maze."

## Charged With Hit-Run Driving

Rosario Rizzo, 17, of 32 Bolton st., Waltham, was arraigned in the Newton court on Wednesday charged with drunkenness, driving a car while under the influence of liquor and leaving the scene of an accident without making himself known. His case was continued until April 1.

Tuesday night shortly after 11 a car driven by Rizzo collided at California and Jasset sts., Nonantum, with a car

driven by Edward Veducchio of 30 Riverdale ave. Instead of stopping, Rizzo doused the lights of his car and speeded over Jasset, Watertown and Dalby sts., pursued by Veducchio. As Rizzo entered California st. again from Dalby st., his car hit an automobile driven by Arthur Spaulding of Dedham, forcing Spaulding's car onto a parked automobile. Spaulding and Olive Robery of Boston, riding with him, received cuts and bruises and were taken to Newton Hospital for treatment. Veducchio seized Rizzo after the second collision and held him until a cruising car arrived with Patrolmen McHugh, Treddin and O'Donnell. Veducchio reported that he received an injury to one of his shoulders.
